Preface

We are very proud to publish the new edition of this “Procedural Manual for Foreign Investment in Nepal” which has become one of the milestones in the journey to establish a transparent system at the DOI,

To make the DOI procedures more efficient and more transparent, the internal procedures have been minimized, Standard Operation Procedures have been prepared and implemented during the past years. The criteria for 5 years visa were revised and simplified so that more investors get this facility. The new criteria for the 5 years visa have been incorporated in this edition. Furthermore, the scope of the Investment Board for the approval of foreign investment has been added and list of industries requiring IEE/EIA have been updated. I hope this new edition will be very useful to our valued investors, consultants and other stakeholders. Any comments and suggestion for further improvements are always welcome and will be sincerely acknowledged in coming edition.

I would like to extend thanks to Mr. Bipin Rajbhandari, Director, Mr. Navaraj Nepal, Ms. Sita Niraula and Mr. Govinda Niroula, officers, of this Department for their commendable efforts to revise this manual.

Preface to Tenth Edition

This “Procedural Manual for Foreign Investment in Nepal” presents the information on procedure for foreign investment and technology transfer in Nepal to the prospective and existing foreign investors.

The basic structure of this edition is same as its previous edition. However, every effort has been made to update the information on this edition. The list of industries in which the foreign investment is prohibited, list of industries requiring IEE/EIA have been updated. Latest information on the electricity tariff and the visa procedures have been incorporated. I hope this revised edition will be useful to our valued investors, consultants and other stakeholders in more than a way. Any comments and suggestion for further improvements are always welcome and will be sincerely acknowledged in coming edition.

I would like to extend thanks to Mr. Bipin Rajbhandari, Director and Mr. Prashanta Bohara, Mechanical Engineer of this Department for their commendable efforts to revise this manual. I also acknowledge the valuable suggestion and comments obtained from Mr. Rishi Raj Koirala, Director of this Department.

Preface to Sixth Edition

It is indeed a matter of satisfaction to bring out this sixth edition of "**PROCEDURAL MANUAL FOR FOREIGN INVESTMENT IN NEPAL**". The publication is aimed to provide information on procedure for foreign investment and technology transfer in Nepal to the prospective and existing foreign investors.

In this edition, the information have been substantially restructured so as to facilitate the readers in grasping the information provided. The manual has been divided into three Parts. The first part provides the basic information and the procedures to be followed prior to making investment or implementing the project. The second part is devoted to the procedures that need to be followed during the operation phase of the project. The third part deals with general information which the investors need to know prior to investment as well as during the operation.

Every effort has been made to update the information and encompass as much information as possible, which an existing or potential foreign investor would like to know. Attempt has been made to incorporate the procedures, apart from that of DOI, that are to be followed in other related agencies. I am optimistic that this revised edition will substantially fulfil the need of our valued investors as well as that of consultants and other stakeholders. Any comments and suggestion for further improvements are welcome.

I would like to extend thanks to everyone who was involved in the preparation of this manual for his/her efforts and contributions. In particular I would like to thank the members of manual revision committee and Directors of this Department, Mr. Rishi Raj Koirala, Mr. Dhruva Lal Rajbamshi, Mr. Uddhab Kumar Adhikari and Section Officer Mr. Krishna Murari Neupane for their commendable efforts. I also acknowledge the valuable suggestions and comments obtained from Mr. Bipin Rajbhandari, Mechanical Engineer during the preparatory phase of this edition.

PREFACE TO THE FIFTH EDITION

It is my pleasure to bring out this fifth edition of "**PROCEDURAL MANUAL FOR FOREIGN INVESTMENT IN NEPAL**". The publication is aimed to provide information on procedure for foreign investment and technology transfer in Nepal to the prospective and existing foreign investors in Nepal.

In this edition, the information have been updated and made more straightforward to understand the procedures for foreign investment and technology transfer in Nepal in a simpler way. The procedures for share transfer to a prospective foreign investor and procedures for IEE and EIA, as per the Environment Protection Regulation 1997, have been explained. I hope this revised edition will fulfil the need of our valued investors in more than a way. Any comments and suggestion for further improvements are welcome and will be sincerely acknowledged in the coming edition.

I would like to extend thanks to everyone who was involved in the preparation of this manual for his/her efforts and contributions.

Preface to the First Edition

Foreign investment has been accorded very high priority for Industrial Development in Nepal. Government has pursued open and market oriented liberal policy for national economic development. In line with this policy, new Industrial Enterprises Act and the Foreign Investment and Technology Transfer Act have been promulgated in 1992. Various procedures have been streamlined and simplified to make them transparent and to ameliorate the investment climate.

We, at the Department of Industries, are pleased to bring out this "**PROCEDURAL MANUAL FOR FOREIGN INVESTMENT IN NEPAL**". It provides information on procedures for foreign investment and technology transfer in Nepal. It is hoped that this manual will be useful to existing as well as potential foreign investors, Nepalese joint venture partners and consultants involved in the promotion of foreign investment in Nepal. This publication will also be helpful as a starting point for further simplification and streamlining of the existing procedures. Suggestions for further improvement of this manual are welcome.

I would like to extend thanks to Deputy Director Mr. L. B. Karmacharya, Deputy Director Mr. A. B. Manandhar, Section Officer Mr. D. L. Rajbamshi, Mr. Surendra Ratna Bajracharya and others who were involved in the preparation of this manual for their efforts and contributions.

PART – I

Pre-Investment Procedures

CHAPTER ONE

INTRODUCTION

1.1 Background

Nepal started planned programs of economic development as early as mid-fifties with the launching of first five-year plan in 1956. 9 Five Year Plan and 3 Three Year Plan have already been implemented. The Thirteenth Plan (Three Year Plan) is now being implemented since mid-July 2013. The Plan has a vision to graduate Nepal from the Least Developing Country to Developing Country within 2022. The plan has major goal to reduce the population under poverty line to 18%. It seeks to achieve a higher rate of sustained economic growth of 6.0 percent per annum. To achieve this target, greater emphasis has been given to commercialisation of agriculture, participation of private sector, promotion of cooperatives for the involvement of people at community level. The Plan takes account of the need to attract foreign investment to meet the three-year capital requirement. The Thirteenth Plan has prioritised the sectors as follows:

- Hydropower and alternative energy development
- Productivity enhancement, diversification and commercialisation of agriculture
- Development of Tourism, Industry and commercial sectors
- Development of Basic Education, Health, Drinking Water and Hygiene
- Promotion of Good Governance
- Development of Road and other Infrastructures
- Protection of Natural Resources and Environment.

Government of Nepal (GoN) has adopted an open and liberal policy to pave the way for the accelerated economic and social development of the country. Especially in the field of industry and trade, the government policy is aimed at giving the private sector a dominant role. The private initiatives and enterprises are expected to increase efficiency and productivity. The government's role will be that of a facilitator providing infrastructure and conducive environment for investment.

Although there were a few cases of foreign investment and technology transfer prior to 1981, the industrial policy and the Foreign Investment and Technology Act, 1981 paved the way for regular inflow of foreign investment and technology transfer into the country. Solidarity Ministerial meeting was held in 1982 and an Investment Promotion meeting was held in 1984 for the promotion of foreign investment and for creating awareness of the investment opportunities in the country. Subsequently, Nepal Investment Forum was organised in 1992 at Kathmandu, which was a very successful event in attracting the foreign investors.

In order to make the investment climate more conducive GoN formulated Foreign Investment and One Window Policy and Industrial Policy based on which Foreign Investment and Technology Transfer Act, 1992 (FITTA) and Industrial Enterprises Act, 1992 (IEA) were

promulgated. These Acts were subsequently amended in 1996 and 1997, respectively, in order to make these acts more pragmatic based on the experiences gained. Also, GoN has published new Industrial Policy 2010 and new Foreign Investment Policy 2015. The new Industrial Enterprises Act has been finalised based on the new Policy and yet to be approved by the Parliament. In addition, GoN has also prepared the draft of new Foreign Investment Act which is in the preliminary discussion phase. The Industrial Policy emphasises on simplification of procedures, transparency in implementation and improvement of productivity through the upgradation of technical know how and efficiency of the industries in order to compete in the free and competitive world market by utilising comparative advantages of the country with minimum adverse effects on environment.

1.2 Key Features of Related Acts

The related Acts for establishing and administration of industries in Nepal are: Foreign Investment and Technology Transfer Act, 1992 (FITTA) and Industrial Enterprises Act, 1992 (IEA). Their key features are described in the following paragraphs.

1.2.1 Forms of Foreign Investment

According to FITTA, 1992, "Foreign Investment" means following investment made by a foreign investor in any industry:

- a) Investment in share (Equity),
- b) Reinvestment of the earnings derived from the clause (a) above,
- c) Investment made in the form of loan or loan facilities.

However, investments in kind, for example in machineries and equipments are also accepted as the foreign investment as a part of investment in shares.

1.2.2 Forms of Technology Transfer

Foreign Investor may also participate in the form of "Technology Transfer" to be made under an agreement between an industry and a foreign investor on the following matters:

Use of any technological right, specialisation, formula, process, patent or technical know-how of foreign origin,

- a) Use of any trademark of foreign ownership,
- b) Acquiring any foreign technical consultancy, management and marketing service,

1.2.3 Policy & Procedural Improvements

With a view to attract investment in industrial sector from both domestic as well as foreign investors, the industrial policy and the foreign investment and one window policies have been simplified, clarified and the investment climate has been made more conducive by introducing the following policy measures and procedural simplifications:

- a) Hundred percent ownership made possible - Foreign investors are permitted to own up to 100 percent equity share in small, medium and large scale industries. However, there are certain sectors (e.g., airlines, telecommunications, consultancy services etc.) where the foreign investment is allowed only upto specified percentage.
- b) Areas open for Foreign Investment - Foreign investment is allowed in all industrial sectors¹ except the few as mentioned below.

Industries not to be granted permission for Foreign Investment

1. Cottage Industries (the list of cottage industries is given in Annex-21)
2. Personal Service businesses (Business such as hair cutting, beauty parlour, tailoring, driving training, etc.)
3. Arms and Ammunition Industries
4. Gunpowder and Explosives
5. Industries related to Radio-Active Materials
6. Real Estate Business (excluding construction industries)
7. Film Industries (National Languages and other recognised languages of Nation)
8. Security Printing
9. Bank notes and Coins
10. Retail Business (excluding international chain retail business with its business in at least two countries)
11. Bidi (excluding more than 90% exportable)
12. Internal Courier Service
13. Atomic Energy
14. Poultry
15. Fisheries
16. Bee Keeping
17. Consultancy Services such as Management, Accounting, Engineering, Legal Services (Maximum 51% foreign investment is allowed)
18. Beauty Parlour
19. Processing of Food Grains on Rent
20. Local Catering Services
21. Rural Tourism

¹ “Industrial Sectors” are the businesses as categorised under the Industrial Enterprises Act as “Industries”.

- c) Technology Transfer - Technology transfer is possible even in areas where foreign investment is not allowed.
- d) No Nationalisation – IEA 1992 has guaranteed against nationalisation of privately owned industries enterprises.
- e) Decontrol of Prices - The government does not interfere in the fixation or control of prices of industrial products.
- f) Simplification in import of machinery and raw materials - Industry can approach any commercial bank directly to open Letter of Credit for the import of machinery or raw materials needed for the industry. Recommendation or import license from either Department of Industries or Department of Commerce or Nepal Rastra Bank is not necessary.
- g) Minimum approval procedures - except industries that affect security and public health, other industrial activities do not require to obtain any license or permission for establishment and operation. They just need to be registered with the concerned Department. The list of industries that require license are as follows:
 - Industries producing explosives including Arms, Ammunition and Gunpowder Security Printing, Bank Notes and mint industries.
 - Cigarettes, Bidi, Cigar, Chewing tobacco, khaini (chewing tobacco) industries and industries producing goods of a similar nature utilising tobacco as the basic raw materials and alcohol or beer producing industries.
- h) Time bound decision process - Time bound decision process has been ensured for cases with complete documents. Decisions with regards to industrial license, registration and duty drawbacks are now to be made within 30, 21 and 60 days from the date of application, respectively.
- i) Transparency and clarity of facilities available - The facilities and incentives available to various categories of industries have been clearly spelt out in the Act itself to avoid any ambiguity.
- j) Repatriation of profits, dividend, technical and managerial fees, and certain portion of salaries of foreign experts have been guaranteed. The corporate income tax for manufacturing units is fixed at 20% and is one of the lowest in the region.
- k) Non-tourist visa for carrying out studies for investment and business/residential visa for foreign investors have been provisioned and the procedures have been further simplified.
- l) At international level, Nepal has taken numerous steps to promote foreign investment in the country. Some of the key institutional arrangements that have been achieved so far are listed as under:
 - Nepal is a member of the World Intellectual Property Organisation (WIPO) and the Multilateral Investment Guarantee Agency (MIGA).
 - Nepal has entered into Bilateral Investment Treaties (BITs) with countries such as France, Germany, Mauritius, Finland, United Kingdom and India.

- Nepal has also entered into Double Taxation Treaties (DTTs) with 10 countries, namely, India, Norway, China, Pakistan, Sri Lanka, Austria, Thailand, Mauritius, Republic of South Korea and Qatar.
- To ensure access to the vast potential market, Nepal is the member of WTO, SAFTA, and BIM-STEAC.
- Nepal is also a signatory to the Convention on the Settlement of Investment Disputes between States and Nationals of Other States and a member of the International Centre for the Settlement of Investment Disputes (ICSID), associated with the World Bank.

1.3. Achievements and Prospects

The individuals/firms of 83 countries have so far invested in Nepal. 3520 industrial projects have been approved till May 15, 2016 to establish on joint venture basis and/or 100 percent foreign investment and/or for transferring the technology. Out of these, 3353 industrial projects have been approved after the promulgation of the IEA and FITTA in November 1992. This noticeable increment of joint venture projects during the past clearly shows that efforts made by the government has created conducive investment climate in the country.

1.4. Institutional Arrangements

1.4.1 Department of Industries (DOI)

The Department of Industries (DOI) carries out administration and implementation of IEA for medium and large-scale industries, whereas the Department of Cottage and Small Industries (DCSI) administer small and cottage industries. However, DOI is the sole agency for administration and implementation of Trademark, Patent Design Act, and Foreign Investment & Technology Transfer Act. The major functions of the DOI are as follows:

- 1) Register medium scale, large scale and all the industries with foreign investment and/or technology transfer
- 2) Approve foreign investment with fixed investment upto Rs. 2 billion
- 3) Issue the Industrial license, register and administer medium and large industries
- 4) Register and administer the Industrial Property such as Patent, Design, and Trademark
- 5) Act as the secretariat of the Industrial Promotion Board (IPB), the highest body for the industrialisation of the country.
- 6) Act as the secretariat of One Window Committee for administration of various facilities as provided by IEA
- 7) Provide information to potential foreign investors and promote foreign investment and technology transfer in all categories of industries
- 8) Prepare plans and programs and to carry out studies for improvement and development of industrial sector
- 9) Recommend Certificate of Origin for the products for preferential entry into India as per Nepal-India Trade Treaty

- 10) Reviewing initial environmental examination (IEE) reports submitted for setting up the industrial projects under its purview and carry out initial work on environmental impact assessment (EIA) reports. Also implement the guidelines and other environmental protection directives for monitoring and controlling industrial pollution
- 11) Recommend for repatriation of dividends, sale of shares, principal and interest on foreign loan, royalty and fees for technical collaboration and part of salary and remuneration for foreign investment projects
- 12) Recommend non tourist visa for carrying out studies for investment; business and residential visa for foreign investors or his/her authorized representative and their dependents; and non tourist visa & work permit for expatriates
- 13) Collect, maintain and publish industrial statistics

The Department has 12 sections manned by 63 personnel, which includes 24 officers and 39 assistants. Organisational structure of DOI is presented as Figure 1.

1.4.2 Industrial Promotion Board (IPB)

The Industrial Promotion Board (IPB) is constituted as per the clause 12 of the Industrial Enterprises Act 1992. The Board is chaired by the Minister, Ministry of Industry. It is an authority for the approval of foreign investment with fixed asset more than Rs. 2 billion, except for the projects governed by the Investment Board Act 2011.

1.4.3 Investment Board Nepal (IBN)

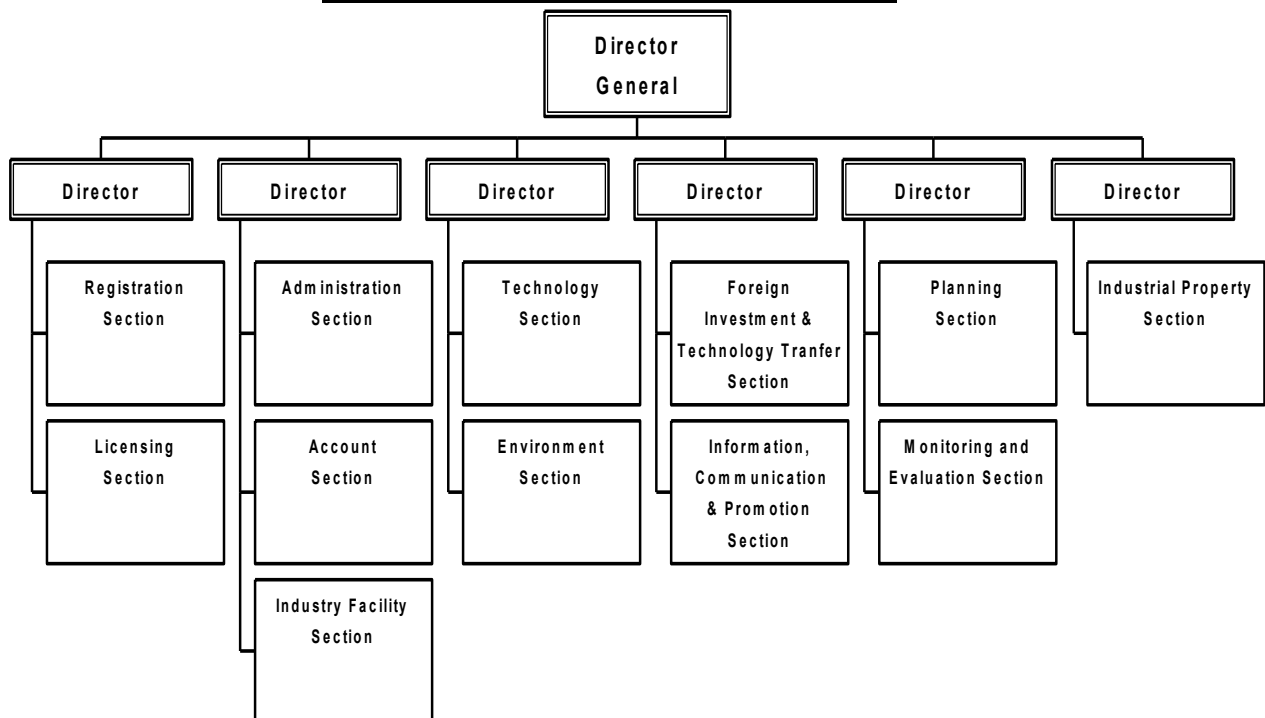

The Investment Board Nepal (IBN), chaired by the Prime Minister, was created in 2011 by the Investment Board Nepal Act. IBN was formed to promote economic development in Nepal by creating an investment-friendly environment. It does so by mobilising and managing public-private partnerships (PPPs), cooperatives, and domestic and foreign private investment to accelerate industrialisation and the development of infrastructure in sectors such as hydropower, chemical fertilizers and integrated solid waste management.

As per the Act, the following projects shall be approved by the IBN.

- (a) Investment to be made in fast track road, tunnel, railway, rope way, trolley bus as specified by the Government of Nepal,
- (b) Investment to be made in the construction of international as well as regional level airport and in modernization and management of the airports in operation,
- (c) Investment to be made in the waste management and recyclings plant in rural area,
- (d) Investment to be made in chemical fertilizer production factory,
- (e) Investment to be made in the petroleum refinery plant,
- (f) Investment to be made in the construction of large bridges as specified by the Government of Nepal,
- (g) Investment to be made in Bank and financial institution, insurance or reinsurance company, with more than fifty one percent of foreign investment
- (h) Investment to be made in medical college and investments to be made in hospital and nursing homes with more than three hundred beds,

- (i) Investment to be made in hydro power project with capacity equal to or more than Five hundred megawatt,
- (j) Investment to be made in the establishment of special economic zone, export promotion or export processing zone, special industrial zone or information technology park,
- (k) Investment to be made in any infrastructure or service industry having fixed capital equal or more than Ten billion rupees. Explanation: For the purpose of this clause infrastructure or service industry shall mean construction industry, mining industry, tourism industry or airlines industry.
- (l) **Foreign Investment** to be made in any manufacturing industry having fixed capital equal to or more than Ten billion rupees.
- (m) Investment to be made in other priority sectors, having the nature as referred to in Clauses (a) to (l) above, as specified by the Government of Nepal

Figure 1: Organisational structure of DOI

1.5 Incorporating a New Company in Nepal

Foreign Investment and Technology Transfer Act (FITTA) 1992 allows foreigners to organise either a private limited company or a public limited company. The incorporation/registration of the company is done by Office of Company Registrar (OCR) located at Tripureshwor, Kathmandu, Nepal.

The companies are incorporated and registered under the provisions of the Company Act, 2006 as amended from time to time. The Company Act, 2006 has a provision for three types of companies, namely, Private, Public and Non Profit Distributing.

"Private Limited Company" means a company which by its articles,

- a) limits the number of its shareholders from 1 to 50 excluding persons who are in the employment of the company.
- b) prohibits any invitation to the public to subscribe for shares.

"Public Limited Company" means a company that,

- a) Has the minimum number of 7 shareholders (and there is no maximum limit).
- b) Offers shares and debentures to the public through a prospectus which complies with the requirements of the Companies Act 2006 and Securities Act.
- c) A company can be formed as a public company or alternatively, a company which is incorporated as a private company can also be converted into a public company after fulfilling the requirements of companies Act 2006.

The private and public companies are prohibited to organise proprietorship or partnership firms. The par value of share should be NRs. 100 per share for both the private and public companies.

1.6 Compliance with Environmental Regulations

Government of Nepal is committed to the industrialisation of the country with due care to the environment. Accordingly, GON has enacted Environmental Protection Act (EIA) 1997 and Environmental Protection Regulation (EPR) 1997. Any industry (including capacity expansion or diversification scheme of existing industry) may have to get approval on the environmental assessment reports such as Initial Environmental Examination (IEE) or Environmental Impact Assessment (EIA) prior to industry registration.

CHAPTER TWO

PRE-INVESTMENT PROCEDURES

Prior to making equity investment in Nepal or embarking upon the technology transfer agreements with a Nepalese company, foreign investor/s will have to obtain the approval for the same from the Department of Industries (DOI). However, for equity investor/s in a new venture, the foreign investor/s will have to perform following additional activities as well:

- Incorporate the company at the Office of Company Registrar (Refer to Section 2.2)
- Register the industry at DOI (Refer to Section 2.3)
- Registration at Inland Revenue Office to get Permanent Account Number (PAN) (Refer to Section 2.4)
- Others, if applicable (such as Trademarks/design/patents) (Refer to Section 2.5)

The approval procedure that will be followed for equity investor/s in a new venture is shown in the form of flow chart as Appendix 1. The procedures that are to be followed for seeking approval for foreign investment and technology transfer, company registration, industry registration, tax registrations and other related official procedures are described in the following sections.

2.1 Procedure to get Approval from DOI

Any foreign individual/s or firms or company that are willing to do either one or combination of the following activities will have to get prior approval from the DOI. The related sections at DOI are Foreign Investment Section and the License/Registration Section.

- Establish a new industry either with 100% foreign equity or in Joint Venture (JV) with Nepalese/foreign investor/s.
- Engage in Technology Transfer in an existing industry
- Make an equity investment in an existing industry by Share Transfer
- Make a loan investment, foreign or local, in an existing industry

The procedures to be followed while seeking approvals on each of these forms of foreign investments are described in the subsequent sub-sections.

2.1.1 Foreign Equity Investment in a New Industry

Foreign investor/s desiring to invest in Nepal whether as a wholly foreign owned enterprises or in a joint venture with Nepalese/foreign promoters are required to apply to the DOI on a prescribed application form, as given in Appendix 2, along with the following documents:

- Project Report 3 copies

Since the loan agreements vary substantially depending upon the lending institutions, a model loan agreement is not given herein. However, it must mention, inter-alia, the interest rate and payment schedule of the principal amount.

2.2 Procedure for Company Incorporation

The OCR provides online services to its clients. After the approval of foreign investment for equity participation from the DOI, as mentioned in Section 2.1.1, the investors shall submit

² Not applicable to company already established under foreign investment

following documents online to the OCR at www.ocr.gov.np. These documents should be accompanied by copy of receipt of registration fee as shown in the Appendix 9.

1. Copy of the permission for foreign investment issued by DOI
2. Copy of citizenship certificate of Nepalese promoters
3. Copy of passport of the foreign promoter(s)
4. If the foreign party is a company, copy of minute of the Board of Directors
5. Two copies of company's proposed Articles and Memorandum of Association in Nepalese language

An overview of the possible contents of the Memorandum and Articles of Association are given in Appendix-9.

2.3 Procedure for Industry Registration

After obtaining approval for foreign investment, the industry is required to be registered with the DOI within 35 days. If the registration cannot be done within the stipulated time, the investor will have to apply for the extension of the validity period. Therefore, once the company is incorporated, the investor has to apply for registration of industry at DOI, filling a prescribed form, as given in Appendix-10, along with following documents.

1. A copy of the foreign investment approval letter issued by the Foreign Investment Section, DOI.
2. A copy each of the Certificate of Incorporation, Memorandum of Associations, and Article of Association of the company.
3. Environmental Impact Assessment (EIA) Report or Initial Environmental Examination (IEE) Report.

Note:-

A screening list indicating the categories of industries requiring IEE or EIA and the brief procedures to be followed in conducting these studies are given in Appendix-11 and Appendix-12 respectively. In case of IEE Reports, DOI gives final approval while EIA reports should be approved by the Ministry of Environment, Science and Technology prior to industry registration.

2.4 Permanent Account Number (PAN) Registration

Any business entity, including industry that has to pay income tax or Value Added Tax (VAT) should obtain the PAN. While registering a company at OCR the newly formed company gets a temporary PAN registration number. However, the industry has to be registered with the District office of the Inland Revenue Department or Inland Revenue Office (IRO) to get the permanent PAN/VAT registration number. In order to get PAN, there is no fee or deposit imposed.

PAN registration is essential for buying land, building and clearance of goods at custom office. Therefore, it is recommended that the companies are registered with IRO immediately after incorporation. For this, the company has to apply with an application form as shown in Income Tax Act and Rules along with the following documents:

1. Copy of the certificate of incorporation
2. Copy of the memorandum and articles of incorporation
3. Copy of the citizenship certificate (or passport in case of foreign national) who signs the application
4. Two passport size photo of the individual who signs the application
5. Hand drawn sketch of the business location of the applicant
6. Power of attorney, if applicable.

The company has to submit the balance sheet and profit and loss statement at the end of each fiscal year for assessment of income tax.

2.5 Others (such as Industrial Property Rights)

The industries using Trademark on their products can register their Trademarks with the DOI as per Patent, Design & Trademark Act, 1965. For this, the company has to apply in a prescribed form as shown in Appendix-13 duly signed by applicants along with two witnesses. The application form should also include the following documents:

1. Copies of the Industry Registration Certificate & Certificate of Incorporation
2. Four copies of the word, label or both to be used in the form of trademark (i.e., representation sheet).
3. The name of the product/services in which the Trademark is to be used.
4. The statement of claim regarding the originality of the trademark.
5. In case of registration of Trademark of foreign origin, a copy of home registration certification along with application form, deed of assignment & four copies of representation sheet should be included.

The application fee, registration fee, renewable fee for foreign as well domestic Trademarks, Patents and Designs along with their validity periods are given in Appendix -9.

PART - II

Investment & Post Investment Procedures

CHAPTER THREE

INVESTMENT AND REPATRIATION

3.1 Investment

Foreign investors may invest their part of the equity capital either in the form of convertible foreign currency acceptable to the Nepal Rastra Bank, the Central Bank of the Nepal through proper banking channel or in the form of plant machinery and equipment required for the approved industry. For the investment in the form of plant and machinery, prior approval of DOI must be taken. However, Indian nationals can invest in Indian Currency as well through proper banking channel.

3.1.1 Equity Investment in Cash

The investment must be brought inside Nepal only after obtaining the approval of investment from the DOI and from NRB. It is also necessary that the investment of the foreign investor shall be brought inside the country through proper banking channel and the foreign investor or the industry must maintain the documentary proof of the bringing in the investment. This proof must be produced at the time of repatriation. The letter issued by the concerned commercial bank in the format as per the Circular No. 429 of the NRB is considered as the documentary evidence for the foreign investment brought into the country.

3.1.2 Equity Investment in Kind

If the foreign investor is desirous of investing in terms of plant, machinery and equipment, it must be clearly stated in the joint venture agreement. When no letter of credit is opened, approval of the DOI must be obtained prior to the shipment for custom clearance. This is essential for custom clearance of the goods imported. For such approval by the DOI, the company or the industry must submit to DOI the copy of the Board of Directors' resolution along with the detailed invoice of machinery indicating quantity and price of each individual equipment from the original manufacturer of the equipment. In any case, the supplier must guarantee as to the price of the machinery as competitive and it must be supported by the invoice of the manufacturer.

3.1.3 Loan Investment in cash

If the foreign investment is in the form of loan to any industrial firm or company, it is necessary that an agreement is entered into by the investing foreign party and the Nepalese industry stating the terms and condition including the amortisation schedule and interest.

Approval of the agreement must be obtained from DOI before transferring the loan. Such loan amount must be brought through the proper banking channel.

3.1.4 Loan Investment in kind

If any industry wishes to obtain foreign loan in the form of machinery and equipment or if the industry wishes to obtain plant machinery in deferred credit, an agreement to that effect must be entered into stating the price of the plant machinery, interest rate, mode of payment along with the detailed list of the plant & machinery. Due approval from the DOI must be obtained. The supplier must guarantee as to the price of the machinery as competitive and it must be supported by the invoice of the manufacturer. If no letter of credit is opened, approval of the DOI must be obtained prior to the shipment for custom clearance.

In case if the machinery to be imported as the part of the investment is second hand, a valuation and certificate of guarantee by an independent surveyor must be attached

3.2 Repatriation

As per the Foreign Investment and Technology Transfer Act, 1992, a foreign investor making investment in foreign currency shall be entitled to repatriate the following amounts outside the Nepal:

- a) The amount received by the sale of the share of foreign investment as a whole or any part thereof,
- b) The amount received as profit or dividend from foreign investment,
- c) The amount received as the payment of principal and interest on any foreign loan.
- d) The foreign investor or a foreign technology supplier is also entitled to repatriate the amount received under the agreement for the technology transfer in such currency as set forth in the concerned agreement as approved by the DOI.

Foreign national, working in any industry with prior approval of the Department of Labour and who is from a country where convertible foreign currency is in circulation, may repatriate his/her salaries, allowances, emoluments etc. in convertible foreign currency in an amount not exceeding seventy five percent of such salaries, allowances and emoluments.

To obtain the repatriation facility, the foreign investor or the technology supplier or the foreign expatriate or the concerned company must obtain recommendation from the DOI.

3.2.1 Repatriation of Sales of Shares

For the repatriation of the sale of shares of the foreign investor, he/she or the concerned company must apply to the Department of Industry for recommendation to the central bank with the following documents:

- a) Proof of investment made and number of shares owned, (the proof of investment could be a letter, in the format of circular 429 by NRB, from the commercial bank through which the investment was brought into Nepal.)
- b) Letter from the company stating the completion of the transfer of the related shares duly certified by the Company Registrar's Office or such competent body.
- c) Prior approval of DOI, if the share was transferred to any foreign national.
- d) Tax clearance certificate
- e) Custom declaration form and the approval letter if the investment was made in the form of plant, machinery and equipment.
- f) Copy of the Board of Director's resolution.

3.2.2 Repatriation of Dividend

Any foreign investor, wishing to repatriate his dividend from his investment as per the FITTA 1992 has to obtain a recommendation from the DOI. The foreign investor or the company has to apply to the DOI with the following documents:

- a) Documentary proof of investment made, in the format of circular 429 by NRB, that is issued by the commercial bank. This document is needed only for the first time and again only when further investment is made by the investor,
- b) Custom declaration certificate of the import of plant machinery and equipment if the investment by the foreign investor has been made in the form of capital equipment,
- c) Auditor's report including balance sheet and profit and loss account,
- d) Tax clearance certificate
- e) Proof of dividend declaration.

3.2.3 Repatriation of Loan and Interest

The industrial unit with foreign loan has to apply to the DOI for sending out the principal and interest on foreign loan obtained with the approval of DOI along with the following documents:

- a) Certificate from the commercial bank regarding the transfer of the loan amount into Nepal,
- b) Custom declaration certificate and invoice of the plant machinery if the loan was obtained in the form of machinery,
- c) Letter of approval of the loan agreement,
- d) Tax clearance certificate.

Note: Income tax on interest on foreign loan should be deducted at source as per prevailing law and deposited at the Tax Office.

3.2.4 Repatriation of Technology Transfer Fees

The industrial unit with approved technology transfer agreement, trademark license agreement, management agreement, technical assistance agreement can apply to the DOI for

the transfer of fees as per the agreement. The company has to submit the calculation of the amount due to the foreign technology supplier certified by the auditor along with the certificate of payment of income tax on royalty as per the prevailing tax rate.

3.2.5 Repatriation of the Salaries and allowance of the Expatriates

For the repatriation of salaries, allowances and emoluments received by the expatriate, the industry has to apply to the DOI for recommendation along with the following documents:

- a) Work permit issued by the Department of Labour,
- b) Document showing the amount of salary and allowance received during the period for which the repatriation is sought.

CHAPTER FIVE

EXPORT AND IMPORT

5.1. Main Features of the Export Policy

Government has adopted following policy measures to promote the export of industrial products from the country:

- a) Licenses are not required for the export of products other than banned items (such as articles of archaeological and religious importance, conserved wildlife and related articles, drugs as defined in single convention on narcotics, 1961), articles related to explosive materials, and material required for the production of arms & ammunition, industrial raw materials (such as raw leather, raw wool, all type of imported raw materials, parts, capital goods) and other goods (such as mamira, log & timber), or quantitatively restricted items as notified by Government in the Nepal Gazette from time to time. In addition to above, all type of goods imported from the countries other than India are also prohibited to be exported to India.
- b) In the case of quantitatively restricted products, export license will be issued in consultation with the private sector.
- c) Container service including the bonded warehouse system & duty drawback scheme has been continued. Under the duty drawback scheme, import duty paid on the import of raw materials and intermediate goods required for the production of exportable products are fully refunded taking into consideration of the actual use.
- d) Dry port at Birgunj has come into operation. Trains of Indian Railway come to the port from Calcutta every week. The service will be extended twice a week from July 2005 onwards.
- e) Small exporters with relatively weak financial position can sell their products to the Export Promotion House (EPH). The duties and taxes levied on the production of goods sold to such EPH will be refunded to them.
- f) Exports are charged minimal taxes.
- g) No quantitative restriction are imposed on the exportable products carried by tourists while returning from Nepal

5.2. Incentives in Export Trade

Industries can avail numerous provisions targeted for boosting export trade such as passbook, bonded warehouse, bank guarantee.

Custom duty and VAT can be refunded to the industries manufacturing and exporting manufactured goods, if they have not availed the facilities mentioned in the previous paragraph.

Nepal Rastra Bank provides foreign exchange facilities to exporters for attending the trade fairs and exhibitions, trade mission, and for advertising about the Nepalese exportable goods abroad.

Trade Promotion Centre (TPC) provides the following services for the export promotion:

- Develops new ideas for export; matching customers abroad with Nepalese exporters.
- Arranges and assists Nepalese participation in International Trade Fairs and Exhibitions, arranges visits of foreign trade delegations.
- Organises training programmes, workshops, and seminars.
- Provides expert advice on markets and products information.

5.3. Existing Procedures and Documents Required to Export

Only registered firms/companies can participate in export trade. There are three types of firms/companies, namely, Sole Proprietorship, Partnership, and Private/Public Limited Company. However, registered industries automatically qualify to export their products.

Every export consignment can be exported through Tribhuvan International Airport, Foreign Post Office, and the border Customs Offices. All consignments accompanied by following documents should be delivered to the custom post for inspection and clearance.

5.4 Import Policies and Arrangements

Imports of all products other than banned or quantitatively restricted items such as (a) products injurious to health (drugs like opium & marphia, liquors content more than 60% alcohol), (b) arms & ammunition, and explosive materials (such as items required for production of explosive materials, guns & bullets of the gun), (c) communication equipment, (d) valuable metals and jewelleryes, and (e) beef and beef products, are allowed to be imported without license.

In addition to Nepal Rastra Bank, commercial banks make the foreign exchange available at the rate fixed by the market mechanism for the payment of all imported goods including industrial raw material, spare parts and services and for payments of foreign loans and interests of the non-government sector.

5.5 Export of Industrial Products to India

For the preferential entry into India the industrial products must comply with conditions mentioned in the Treaty of Trade between Government of Nepal and The Government of India. As per the treaty, all the products manufactured in Nepal, with the following exceptions, are eligible for preferential entry into India.

- a) Alcoholic liquors/beverages and their concentrates except industrial spirits
- b) Perfumes and cosmetics with non -Nepalese/non - Indian brand names
- c) Cigarettes and tobacco
- d) Industrial products, which involve simple operations such as assembly of parts/ repacking/ dirt cleaning/ cutting etc.
- e) Industrial products of third country origin

The preferential entry implies that no custom duty shall be applicable to the goods manufactured in Nepal that enter into India. Only the taxes, that are applicable to the local products in India, are applicable to those industrial products.

Industries desirous of exporting their products to India may apply to the Federation of Nepal Chambers of Commerce and Industry (FNCCI) or its local body or the Chamber of Commerce, in prescribed format as given in Appendix-17 to get the Certificate of Origin (CO). This certificate essentially certifies that the particular industrial product is manufactured in Nepal and entitled to preferential entry to India.

General Information to the Investors

CHAPTER SIX

INFRASTRUCTURE AND UTILITIES

6.1 Land and Factory Shed

6.1.1 Land and Factory Shed in the Industrial District and in Special Economic Zone (SEZ)

Space and Factory shed are available in limited numbers in Industrial Districts at Patan, Balaju, Bhaktapur, Hetauda, Dharan, Pokhara, Butwal, Birendranagar, Dhankutta, Nepalgunj and Rajbiraj managed by Industrial District Management Ltd., located at Balaju, Kathmandu. SEZ and Industrial Districts provide developed land on rent and other utility facilities at reasonable rates. Investors wishing to set up industries in these SEZ/Industrial Districts are required to apply to the SEZ office/Manager of the Industrial District with a copy of industrial license, details of land and facilities required and detailed drawings of the proposed lay-out plan for covered and uncovered area.

6.1.2. Land and Factory Shed outside Industrial District

- a) Industries can also be set-up outside the industrial district. In this case, the investor himself has to arrange for land and other utility facilities from the concerned agencies.

A location where a particular category of industry is allowed (or not allowed) to establish is given in Appendix-18.

- b) Foreign nationals are not permitted to own land and building in their individual names. However, foreign investors can purchase the land and building in the name of the company after incorporating the company at Company Registrar's Office.
- c) Services of local real estate dealers can be used for acquiring land. Local partner, if associated, can be helpful in this regard. After identifying the land, it has to be registered at local office of the land revenue department.

6.2 Electricity Connection

The company has to apply to the local office of the Nepal Electricity Authority in a prescribed form, as shown in Appendix-19, for electricity connection along with the following documents.

1. Copy of the Ownership certificate of the land and building. (In case of building constructed in the leased land or rented land, agreement with the owner in a prescribed form should be attached).
2. Copy of certificate of incorporation.
3. Copy of Industry Registration Certificate.

The prevailing electricity tariff rates for industries, effective from June 2016 are as follows. One can choose one of the following two options for paying the electricity bill.

Option I

All Amounts in NRs.

Sectors	Demand Tariff/KVA per month	Energy Tariff/Unit
a) Lower Voltage (230/400V)		
i) Rural and Cottage Industries	55.00	6.50
ii) Small Scale Industries	100.00	8.00
b) Medium Voltage (11 KV)	230.00	7.20
c) Medium Voltage (33 KV)	230.00	7.00
d) High Voltage (66 KV and above)	220.00	6.25

Option II (Time of Day Tariff)

All Amounts in NRs.

Sectors	Demand tariff/KVA per month	Energy tariff/Unit		
		Peak Time 5 pm to 11pm	Off Peak Time 11 pm to 5 am	Other Time 5 am to 5 pm
a) High Voltage (66 KV and above)	220.00	7.75	3.30	6.25
b) Medium Voltage (33 KV)	230.00	8.50	4.20	7.00
c) Medium Voltage (11KV)	230.00	8.75	4.30	7.10

Note:- Lower voltage means 230/400 Volt.

Medium voltage means 11 and 33 KV.

High voltage means 66 KV and above.

CHAPTER SEVEN

FACILITIES AND INCENTIVES

7.1 Introduction

Industries established with foreign investment in the form of joint venture or wholly foreign owned units are entitled to get all the facilities and incentives stated in the IEA and the FITTA, the details of which is given in Appendix- 20. The FITTA provides for the various repatriation facilities as mentioned in the earlier chapter.

The facilities and incentives available to the industries have been spelt out in the Section 15 of the Industrial Enterprises Act, 1992. Cottage industries, as listed in Appendix-21, are exempt from sales tax, excise duty and income tax. Moreover, the government can also grant additional facilities to the national priority industries, as listed in Appendix-22. The procedure for obtaining facilities and incentives stipulated in said Acts are discussed below:

7.2 Income Tax Exemption

Corporate tax, in general, in Nepal is 25% of profit. However, it shall not exceed 20 percent of profit for manufacturing industries other than industries manufacturing cigarettes, bidi, cigar, tobacco, alcohol and beer.

For the investments of more than Rs 1 billion and employing more than 500 people throughout the year, there is 100% income tax exemption for 5 years and 50% income tax exemption for the next 3 years from the operation date.

For the investments of more than Rs 2 billion in the Tourism industry or in International Airlines company, there is 100% income tax exemption for 5 years and 50% income tax exemption for the next 3 years from the operation date.

For the person or institution that gets the operation/transmission/distribution license within April 2024, there is 100 % income tax exemption for the 10 years and 50% income tax rebate for the next 5 years.

There is a 5% income tax on dividends earned out of investment in any industry. And, export earnings for the manufacturing industries are taxed with 25% rebate.

7.3 Income Tax Deduction

The Industrial Enterprises Act provides for income tax rebate of 30, 25 and 20 percent for the industries other than cigarette, bidi, alcohol and beer established and operating in remote, undeveloped, underdeveloped areas of the country respectively. A list of remote, undeveloped and underdeveloped region is given as Annex-23. In order to enjoy this facility, the concerned industry must submit a certificate showing that it was operational in that particular area during the period.

Industries are allowed to calculate the depreciation on the fixed assets by adding one-third to the rate of depreciation allowed under the existing income tax laws. Depreciation rate as per income tax rule is given as Annex-24.

Industries other than manufacturing cigarettes, bidi, cigar, tobacco, alcohol, beer, saw mill and catechu, utilising more than 80 percent or more of the local raw materials for their production and employing all the manpower from among Nepali citizens are granted a rebate at the rate of ten percent of the income tax.

If a single industry provides direct employment to six hundred or more Nepali citizens round the year, it will be, in addition to other facilities, granted an additional income tax rebate at the rate of ten percent for that year. The concerned industry must obtain a certificate showing the number of direct employment from the Department of Labour.

Industries are also entitled to a reduction of up to 50 percent from the taxable income for the investment on pollution control process and equipment. The amount spent on such process or equipment must be certified by the registered auditor of the company.

Industries are allowed to capitalise the pre-operation costs incurred by the industry for skill development and training.

After an industry comes into operation, 10 percent of the gross profit is allowed to be deducted against taxable income on account of expenditure related to technology, product development and efficiency improvement. The industry must submit the details of the above expenditure certified by the registered auditor of the company.

While assessing taxable income, up to 5 percent of gross income spent for advertisement of the products, promotional services, hospitality and any other similar expenses are allowed to be deducted.

7.4 Concessional Rate of Custom Duty

Manufacturing industries importing plant, machinery and equipment required for direct production process falling under the chapter 84 of the harmonised custom

classification with the duty rate of 5 percent are given 80 percent rebate on the custom duty and full exemption from any sales tax.

7.5 Excise Duty Rebate and Refund

Industries established and operating in the remote, undeveloped and underdeveloped areas, as mentioned in the Appendix-23, are entitled to 35, 25 and 15 percent rebate in the excise duty respectively for a period of ten years from the date of operation. For getting this facility the concerned industry should produce a certificate stating that the industry is operating in the said area during the period.

If any industry utilises locally available raw materials, chemicals and packing materials etc. on which excise duty or sales tax or both are already imposed, such duty and tax are refunded or adjusted against the payment of such tax and duty to be made by the industry. It is also possible to obtain these raw materials, chemicals and packing materials from the manufacturer directly without paying the excise duty and the sales tax. However, the quantity of such material must be justified and must be recorded with the Inland Revenue Department.

7.6 Duty Draw-back

Any duty or taxes levied on the raw materials, auxiliary raw materials etc. used for producing goods for export are entitled to get refund of these duty and taxes based on the quantity of export. The application for this must be submitted within a year of the export date. The application must include the completed form, given in Appendix – 25, along with all the original documents relating to

- a) Custom declaration form for the import of raw materials (*Aayaat Pragyapan Patra*)
- b) Receipt of the duty payment
- c) Calculation of the raw material uses
- d) Sales invoice
- e) Certificate of receipt of payment
- f) Copy of the agreement with the buyer

The duty draw-back facility is also available if the industry sales its products within Nepal in convertible foreign currency. The duty draw-back facility will not be available if the industry does not apply for the same within a year of the date of export or deemed export.

7.7 Bonded warehouse facility

The duty drawback facility is available to the industries on the quantities of raw materials imported and used for the production of goods for export. Export oriented

industries may obtain the facility of bonded warehouse. The raw materials can be imported just by entering into a passbook without paying any custom duty or sales tax. Those raw materials are deducted from the passbook upon export of finished product. However, the industry must also submit a bank guarantee, which must be sufficient to cover the duties. The finished product must be exported within 10 months of import of raw materials. The industry in order to avail this facility must apply to the Department of Custom along with the following documents:

- a) Company registration certificate
- b) Memorandum and Articles of Association
- c) Industry registration certificate
- d) L/C copy for input of raw materials
- e) Lease contract if the building for industry is on rent and land registration certificate if company owns the land.
- f) Recommendation from Garment Association if the industry is a garment unit.
- g) Bank guarantee

7.8 Opening of Foreign Currency Account

Foreigners and companies can open and operate foreign currency account in any of the commercial banks in Nepal. Export oriented industrial companies can also open Foreign Currency Account. Industries incorporated as 100 percent foreign owned or as a joint venture may also open a foreign currency account to deposit the equity share of the foreign party in convertible currency. This can be used only to import equipment and plants as well as other fixed assets necessary for the industry.

CHAPTER EIGHT

MISCELLANEOUS INFORMATION

8.1 Factor Costs

For the quick reference to the potential investors, the factor costs of some of the key activities are given in Appendix – 26.

8.2 Submission of Production Data to DOI

All the industries producing the goods and services are required to submit the annual production data to DOI in the prescribed format, as given in Appendix-27.

8.3 Determination of Raw Material Consumption Norms

DOI has prepared the raw material consumption norms of various products. Such norm is essential for various purposes such as for export to India, to avail bonded warehouse facility, tax assessment and so on. If the DOI has not yet prepared the norm for the particular product, the concerned industry may apply to DOI in the prescribed format, given as Annex-28, along with the following documents:

- 1) Industry Registration Certificate
- 2) Production Process including flow chart indicating waste sources
- 3) Detailed list of plant & machineries
- 4) Production and material consumption data for three years

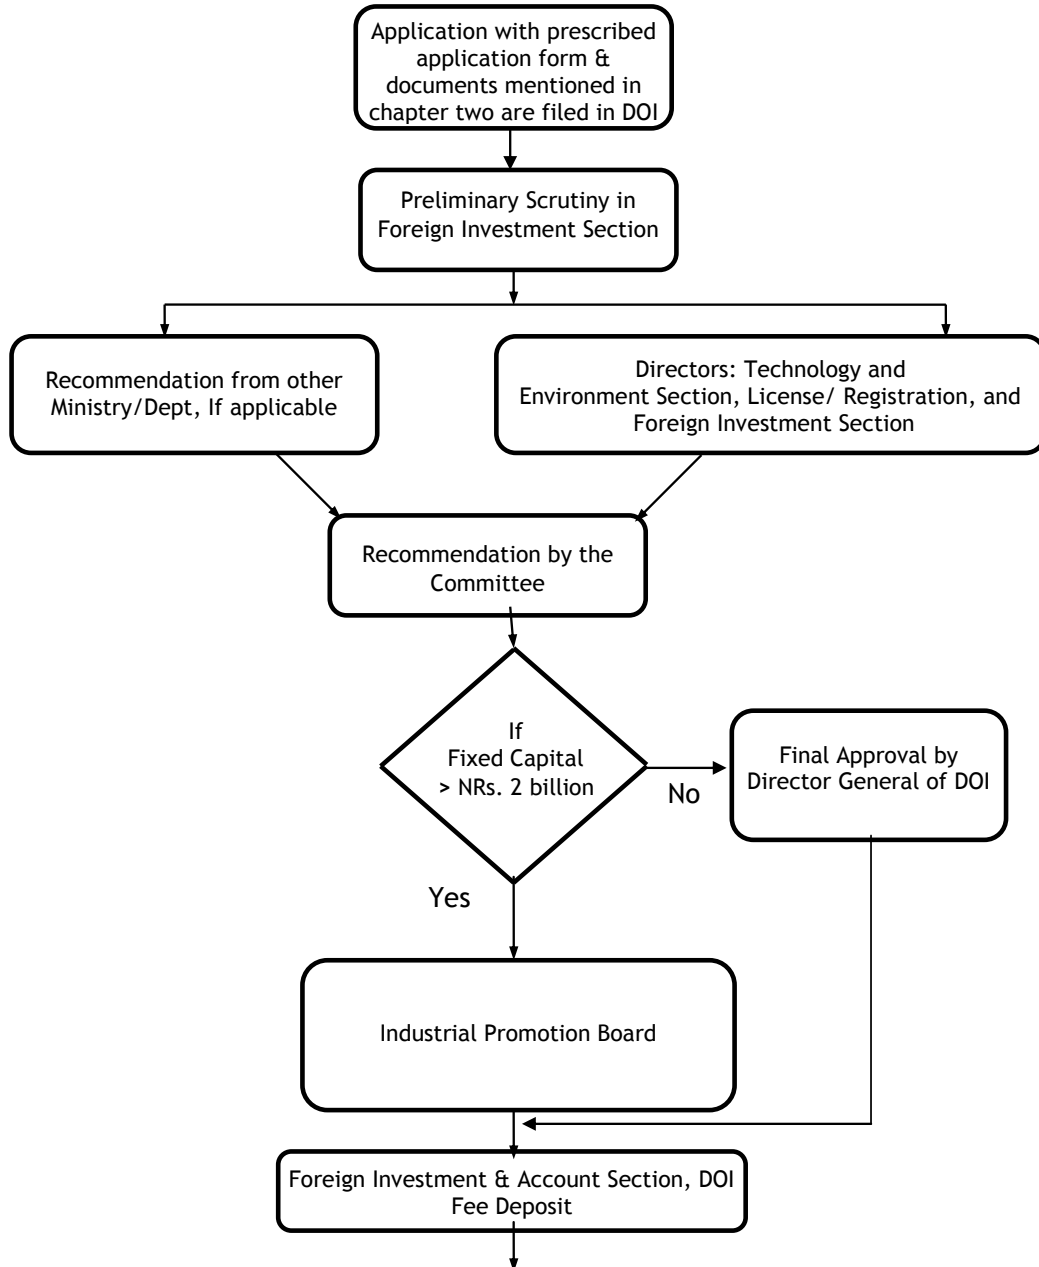

8.4 Name and Address of Some of Useful Institutions in Nepal

The names and addresses of some of the useful institutions are given as Annex-29. The existing as well as potential new investors may refer to it if they need further clarification or information regarding the investment or operation of their industry.

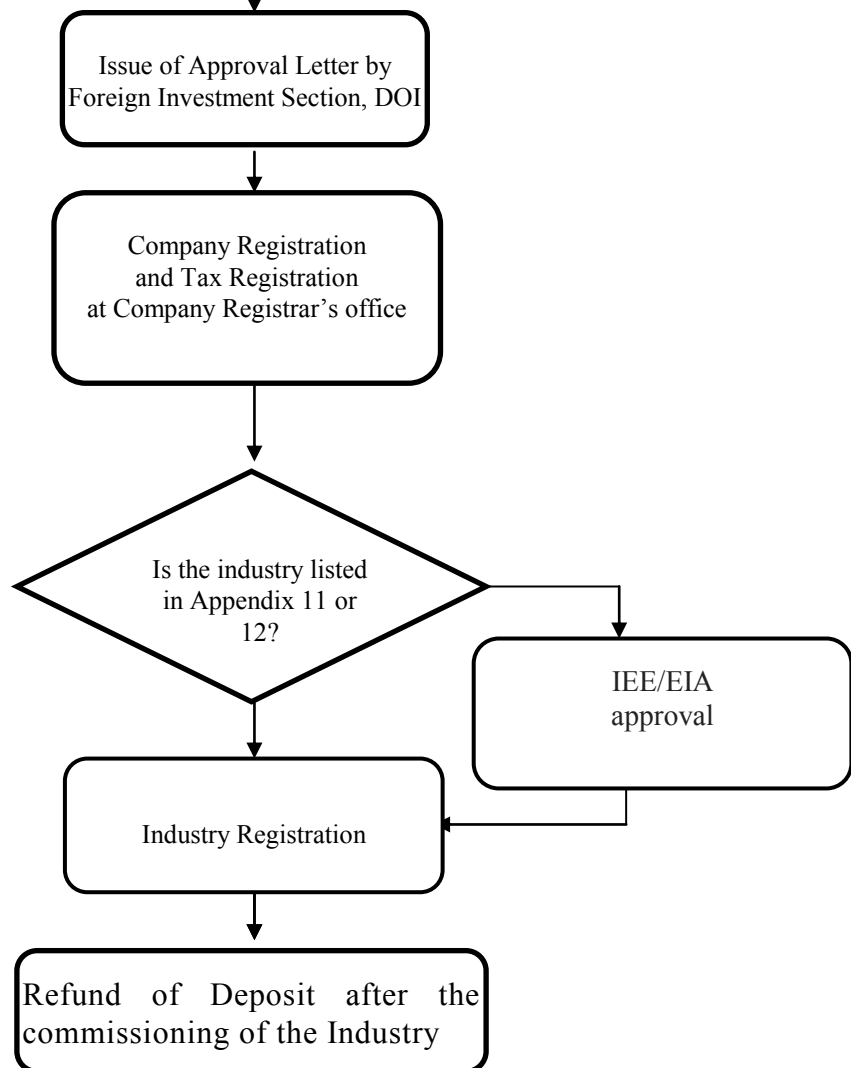

8.5 Bibliography

A list of reference materials used in preparing this manual is given as Annex-30. For further clarification/information, the investors may also refer to them directly.
