PREFACE

Department of Customs has been disseminating Nepal's merchandise trade data regularly. This publication "Nepal Foreign Trade Statistics: Fiscal Year 2016/17 (2073/74)" has covered Nepal's annual cross-border merchandise trade over the fiscal year.

During the fiscal year 2073/74, imports increased nearly by 27% and exports nearly by 4%. As a result the trade deficit didn't show any improvement in the following year. The exports share to total trade also significantly decreased nearly by 17%. This larger trade gap demands a huge amount of financial flows preventing the potential opportunity of investment in economically productive sectors.

The statistics presented in this publication offers valuable insights of Nepal's merchandise trade. The publication sheds light on the structural division of commodities being traded and Nepal's position of integration with the regional and global marketplace. Besides, it also summarizes the commodity-wise revenue collection which deemed to help fiscal policy evaluation and pave appropriate revenue strategy for the future.

It would serve for a wider section of the society namely business communities, public policy leaders, academia and many more.

I appreciate Deputy Director Generals Mr. Shova Kanta Poudel and Mr. Shree Krishna Nepal for overall guidance for the publication. In addition, the many hours devoted to compiling, processing and tabulating of this piece of work by the staffs of the Statistics Analysis Section, Director Mr. Binod Sharan Acharya, Computer Officer Mr. Shyam Neupane and Statistics Officer Mr. Ram Prasad Wagle who retained the overall responsibility for this publication are acknowledged.

EXPLANATORY NOTES :

The data presented in this publication are based on Automated System for Customs Data (ASYCUDA) obtained from 15 major Customs Offices (Mehi, Biratnagar, Sunsari, Siraha, Jaleswor, Janakpur, Birgunj, Dryport, Bhairahawa, Krishnanagar, Nepalgunj, Kailali, Kanchanpur, Rasuwa and TIA). Thus manual based customs offices which constitutes negligible amount of merchandise trade has been excluded. This series has been prepared based on International Merchandise Trade Statistics: Concepts and Definitions, Revision 2 (IMTS, Rev.2) and International Merchandise Trade Statistics: Compilers Manual (IMTS: Compilers Manual). Goods are classified and tabulated based on Harmonised System of Commodity Classification and Coding System version 12. Import and export values are based on CIF and FOB basis respectively and are expressed in local currency unit.
