## Foreword

Nepal's annual merchandise trade statistics; *Foreign Trade Statistics 2012/13* (Fiscal Year 2069/70) has been published as a part of its continued dissemination. It provides a compilation of relevant, high-quality, and internationally comparable statistics. Following the ongoing releases of merchandise trade based on the HS-2007 version, revenue generation by imported commodities under broad revenue headings has been presented.

This volume has been prepared largely based on the UN recommendation on *International Merchandise Trade Statistics: Concepts and Definitions, Revision 2 (IMTS, Rev.2)*. The reference for the compilation period is counted from mid July 2012 to mid July 2013 and the valuation for Imports and exports are based on c.i.f. and f.o.b. basis respectively. It covers all cross-border flows of goods during the given reference period.

It is intended to help users of all kinds-academia, policy makers, business communities, and people of various corner of the society. I extend my thanks to the Information Technology and Statistics Section of Department of Customs, particularly to the Statisticians for their efforts to make this publication in this shape.

Any constructive suggestions for future improvements of annual statistics are always appreciated.

  
(Surya Prasad Acharya)  
Director General

August, 2014
