Preface

Central Bureau of Statistics (CBS) Nepal is pleased to bring out the series of results of the eleventh National Population and Housing Census in 2011 (NPHC 2011). The final result of this census was disseminated in November 2012. Disaggregated tables and thematic volumes of results are in continuous way of publishing. In fact, the census has enormous potentiality of analyses to be done on demographic, social, economic and spatial characteristics of the population. This report contains statistical tables related to administratively declared municipal areas (Metropolitan City, Sub-metropolitan City and Municipalities) which were prevailing at the time of census operation in 2011. I hope, this volume will be very useful and will meet the users' demand on information of urban areas. It contains major statistical tables related to Form I and Form II administered for data collection.

On this occasion, I would like to thank Dr. Rudra Suwal, Deputy Director General of the Bureau for his overall co-ordination as well as his direct involvement as section chief at the time of census operation. I also would like to thank Director Shanker Lal Shrestha and Indra Bahadur Karki for their valuable contribution in preparation of this publication. Hearty thanks go to Statistical Officer Yadu Nath Acharya and Computer Officer Dol Narayan Shrestha for their contribution in data management and related tasks. My thanks also go to Statistical Officer Sunil Kumar Shrestha, Statistical Assistant Bishnu Raj Regmi and other staffs of the Population Section. I also want to thank all other staffs of the bureau who were involved in any of the phases of census process.

Finally, I would like to thank all respondents who provided invaluable information during the field operation and appreciate all those who had extended hands in this national endeavor and helped to make the census a grand success.

CBS always welcomes comments and suggestions from users which would be valuable for the improvement of our future publications.
