# FOREWORD

---

Higher Education in general and university education in particular play a key role in the development and prosperity of a country and Nepal is no exception. As a result, the Government of Nepal has placed higher education as one of its priorities. The latest policy document, i.e., National Education Policy-2076 aims to develop internationally competent, scientific and innovative human resource in the country by increasing access, improving equity and promoting quality in educational leadership for building knowledge-based society and economy. The policy also strives to develop Nepal as an educational hub with provisions of world-class education in many subject areas. In line with this, the University Grants Commission (UGC), an apex body of Higher Education in the country has developed a National Higher Education Framework (2021-2030) and is in its second year of implementation. UGC is in the process of developing a Strategic Plan for Higher Education this year while it has already developed the Strategic Plan for Quality Assurance and Accreditation (2021-2030) and Research Sustainability Plan (2021-2024) to accomplish the policy objectives of the National Education Policy-2076 related to higher education.

Currently, a total of eleven centrally supported public universities, five health academies and 1440 campuses, both constituent and community campuses, are providing mainstream higher education in the country. In addition, acts for two additional Universities namely Madan Bhandari University of Science and Technology, and Bidushi Yogmaya Aayurveda have been promulgated lately. Besides, more than 85 colleges/campuses under foreign university affiliations are running higher education programs with government approval. By 2020/21, the total enrollment of students has reached more than 460 thousand including those enrolled in foreign affiliated campuses and gross enrollment in higher education has reached almost 18 percent.

Despite presence of such a large number of higher education institutions in a nation of less than 30 million people, providing access to increased number of eligible population remains a challenge. Likewise, the quality of higher education and its relevance to market and producing human resources in the national priority areas have been the concern of stakeholders. Authentic data and its availability in a timely manner are necessary in order to develop rigorous plans and programs to address these challenges and concerns. This is notwithstanding data demands from researchers and academicians for their endeavors on a regular basis.

Of the many tasks of the University Grants Commission (UGC) Nepal, making available the reliable higher education data and information on a regular basis is one of the important tasks. For this, UGC has maintained Higher Education Information System (HEMIS) and publishes its Annual EMIS Report. The current publication is fourteenth in its series. The data and information presented in this Report provide information such as universities and their academic programs, student enrollment disaggregated by level, gender, faculty, province and universities; distribution of campuses of universities in each provinces; teachers, programs of faculties taught in each province; trends of student enrollment in each faculty, funding, GER and many more. There is no need to emphasize that these data are of utmost importance for improving access to and enhancing the quality of higher education and supporting stakeholders in making informed decisions. More importantly, information provided in this series help stakeholders for criteria and indicator-based allocation of resources. Despite properly functioning HEMIS and human resource devoted to this at UGC, timely update of data and publication of Annual EMIS Report largely depends upon coordination, collaboration and cooperation between UGC, Universities, Academies and other HEIs. UGC, as a coordination body, has been supporting Universities and their constituent and affiliated campuses in strengthening their Education Management Information Systems. UGC is currently in the process of developing broadband digital technology to connect UGC and

HEIs for fast and reliable collection of educational data.

This publication is at your hands and we are happy to bring this publication. In the past, we have been encouraged by inquiries and use of HEMIS data. As always, we believe that this publication benefits academicians, researchers, students, administrators. Likewise, we also think this publication to be equally useful to those engaged in educational planning and implementation, research, monitoring and other tasks related to higher education in Nepal. Finally, we would like to take this opportunity to thank all those involved and contributed in collection, compilation and preparation of this report. UGC appreciates valuable feedbacks and suggestions from readers to improve the quality and coverage of the report in the coming years.

This report has been prepared based on the data provided by Universities, Medical Academies, their campuses and several other institutions. University Grants Commission Nepal highly acknowledges their kind cooperation and support. UGC would like to express thankful appreciations to the contribution made by Mr. Mohammad Umar Tribhuvan University. Similarly, thankful appreciations go to Mr. Dhurba Rimal and Ms. Rupa from the Faculty of Management, Tribhuvan University; Mr. Shekhar Dhungana from Kathmandu University; Ms. Archana Shrestha from Patan Academy of Health Sciences; Mr. Lok Raj Dhakal from Pokhara University; Mr. Dharendra Kr. Mallick from Purbanchal University and staffs responsible for data management from Far-Western University, Mid-Western University, Agriculture and Forestry University, National Academy of Medical Sciences, Lumbini Bauddha University, Nepal Sanskrit University and BP Koirala Institute of Health Sciences. Developing and maintaining H-EMIS is a collaborative work, contribution of the participating organizations and HEIs are crucial for up keeping the data system and publication of this annual report regularly, we remain confident for continued cooperation and support of all stakeholders in future endeavors. UGC highly appreciates contributions and supports of the concerned stakeholders. UGC also appreciates the special contribution of all the concerned staffs of the commission in the publication of this report.

# EXECUTIVE SUMMARY

This annual EMIS report 2020/21, the fourteenth edition, presents the status of higher education in Nepal in year 2020/21. In year 2021 one provincial university (Gandaki University in Gandaki Province) and a medical academy (Pokhara Academy of Health Sciences in Kaski district) are established and have started courses. Twelve universities and five medical academies and their constituent and affiliated campuses are providing education on different programs of different faculties to the students.

The twelve universities are: Tribhuvan University (TU), Kathmandu University (KU), Pokhara University (PokU), Purbanchal University (PU), Nepal Sanskrit University (NSU), Lumbini Buddhist University (LBU), Far-Western University (FWU), Mid-Western University (MWU), Agriculture and forestry University (AFU), Nepal Open University (NOU), Rajarshi Janak University (RJU), and Gandaki University (GU) and five medical academies: National Academy of Medical Sciences (NAMS), B.P. Koirala Institute of Health Sciences (BPKIHS), Patan Academy of Health Sciences (PAHS), Karnali Academy of Health Sciences (KAHS), and Pokhara Academy of Health Sciences (PokAHS).

In the year 2020/21, there are altogether 1440 higher education campuses, 150 constituent (10.42 percent) campuses, 537 community (37.3 percent) campuses and 753 private (52.29 percent) campuses.

TU has 1144 campuses (62 constituent and 1082 affiliated campuses). The other major universities in terms of student number are PU, PokU, and KU. PU has 118 (8.19 percent) campuses, PokU has 67 (4.65 percent) campuses, KU has 24 (1.67 percent) campuses.

In terms of the ecological belts 58.54 percent campuses located in Hill, 36.18 percent campuses in the Tarai and 5.28 percent campuses in the Mountain. In terms of the provinces, 43.61 percent campuses are located in Bagmati Province, 13.06 percent in Lumbini province, 13.75 percent in province One, 8.54 percent in Madhesh province, 10.56 percent in Gandaki province, 6.6 percent in Sudurpaschim province and 3.89 percent campuses in Karnali province.

## Enrollment in Higher Education

In year 2020/21, 460,826 students are enrolled in Higher Education. TU has 347,269 students, PokU has 34,166 students, PU has 26,896 students and KU has 16,046 students and rest of the students are enrolled in other universities and medical academies.

The enrollment proportion in terms of field of education is 79.28 percent in general programs and 20.72 percent in technical programs. Enrollment in Management, Education, Humanities and Social Sciences, Buddhism, Law, Sanskrit are 46.24 percent, 22.18 percent, 7.98 percent, 0.06 percent, 2.28 percent, 0.53 percent respectively as opposed to 8.3 percent in S&T, 5.38 percent in Medicine, 5.56 percent in Engineering, 1.03 percent in Agriculture, 0.08 percent in Ayurveda, 0.16 in Animal Science and 0.21 percent in Forestry.

The distribution of students across the ecological belts shows that 58.79 percent students are in Hill, 38.88 percent students are in Tarai and 2.33 percent students are in Mountain. In terms of the seven provinces 47.5 percent students are in Bagmati Province, 13.3 percent are in Lumbini province, 12.18 percent are in province one, 8.5 percent are in Gandaki province, 8.44 percent are in Madhesh province, 5.79 percent are in Sudurpaschim province and 4.29 percent are in Karnali province.

Among three types of campuses, constituent campuses have the highest number of students. The share of

student enrollment in the constituent campuses is 36.51 percent, community campuses is 29.09 percent, and private campuses is 34.40 percent.

### **Share of Girls in HE Enrollment**

The overall girl's enrollment in HE in Nepal is about 52.54 percent. By university, the girls' enrollment proportion of TU is 54.2 percent, KU is 46.11 percent, PokU is 43.3 percent and PU is 50.7 percent. The proportions of girls' enrollments in the medical academies are: BPKIHS is 48.8 percent, PAHS is 60.3 percent and NAMS is 68.69 percent.

In terms of campus types, the biggest share (63.11 percent) of girl's enrollment is observed in community campuses. This figure is 50.66 percent in private and 45.87 percent in constituent campuses.

The proportion of girls' enrollment is 62.6 percent in education faculty, 61.03 percent in Medicine, 44.5 percent in humanities, 57.4 percent in management. The percentage of girls in total enrollment at various levels of education is as follows: 53.79 percent in bachelor and 43.44 percent in master.

### **Gender Parity Index (GPI) of Gross Enrollment Ratio (GER)**

GPI of HE in year 2020/21 is 0.9.

### **Pass Percent**

The pass rate of TU is 41 percent in the bachelor level of education in the annual programs, PU is 69 percent, FWU is 82 percent, LBU is 51.98 percent, MWU is 39.48 percent and PAHS is 100 percent.

### **Graduates**

The figure about the number of graduates included in this report is based only on the number of students included in the grace list prepared by the related universities for the convocation programs. Following universities: PU, BPKIHS, PAHS, TU and PokU have provided data about graduates this year and the total number of graduates is 37619.

### **Gross Enrollment Ratio (GER) in Higher Education**

Gross enrollment ratio for higher education stood at 17.77.

### **Financing**

The universities have been receiving block grants (i.e. regular and development grants) and the community campuses get small token grants in the form of regular and physical grants. In case of medical academies, the funds are made available directly through the Ministry of Health and Population. The grants provided to the universities and community campuses in year 2020/21 are 13.8 billion rupees and 1.35 billion rupees respectively.

### **Teachers**

In year 2020/21, the total numbers of teaching staffs (including instructors) is 10,554, among them, 5,353 are Lecturers, 2,552 are Readers and 945 are Professors.

### **Student-Teacher Ratios**

The overall average student-teacher ratios (number of students per teacher) are as follows:

TU (15.82:1), KU (32.55:1), MWU (31.55:1), FWU (22.24:1) PokU (28.23:1), BPKIHS (1.38:1), PAHS (1.14:1), NAMS (1.95:1) and LBU (20.96:1)

## INTRODUCTION

The higher education refers Bachelors, Post Graduate Diploma, Masters, M. Phil., and Ph.D. The status of the higher education in the consolidated form is published by University Grants Commission annually in the form of EMIS report. The EMIS report presents information about higher education in Nepal through disaggregated and comprehensive data.

UGC established an Education Management Information System under the Second Higher education Project (SHEP, 2007-2014) with support from The World Bank, to ensure quality of the data regarding higher education by standardizing the process of data collection, their effective management and timely publication. Accordingly, a set of EMIS indicators have been prepared.

This is our Fourteenth attempt to bring out a comprehensive report about the higher education. The main purpose of this report is to provide adequate, accurate, timely and reliable data to the education stakeholders.

This EMIS Report on the higher education has covered a broad range of topics that include information about the higher education institutions (universities, medical academies and their campuses), student enrollment, gross enrollment ratios, pass rates, gender parity index, graduates, teachers, financing, higher education system, trend analysis and academic programs.

### 1.1 Organization of the Report

There are twelve sections in the report: the first section provides introduction to the report, the second provides number of universities, number of their campuses, distribution of the campuses by the provinces and the third gives university-wise information on enrollment status, type of campuses, location, and level of education. Section four provides data on pass rates of the universities. Section five presents information distribution of graduates by university. Section six provides information about Gross Enrollment Ratio.

Section seven presents information on the government financing for universities channeled through the UGC. Information on teachers is presented in section eight. Section nine lists the average student/teacher Ratio (STR) in the constituent campuses of the universities. Section ten shows number of campuses in the number of specified size of campuses. The section eleven analyses the trends of total campuses, enrollment, graduates, and financing. The twelve chapter provides information about foreign university affiliated campuses.

There are seven annexes. Annex one provides definitions of levels used in the report. The second provides a brief description of the higher education system in Nepal and the third annex presents brief descriptions of the universities and academies. Annex four contains information about report preparation. Annex five contains the detailed enrollment information of various campuses based on the provinces, in various faculties, programs and levels. The remaining two annexes sixth and seventh present EMIS indicators and a brief introduction of the UGC.

## **1.2 Methodology**

This report is prepared through contributions of the concerned universities through their planning divisions, Office of the Controller' of Examination (OCE) and Dean's Offices, Central Bureau of Statistics (CBS).

### **1.2.1 Data Collection**

Data is collected from the OCE, Dean's offices of the universities and medical academies in the spread sheet. Data is collected using emails; phone calls are also made to the concern universities/medical academies to provide data.

### **1.2.2 Data Processing:**

The EMIS section has created a simple database system to store and manage the data of campuses of the universities. The collected data were preprocessed and transformed to the format required by the data analysis software modules. The system is maintained carefully so as to have control over the collected data, their coding, entry and verification.

## **1.3 Scope and Limitations**

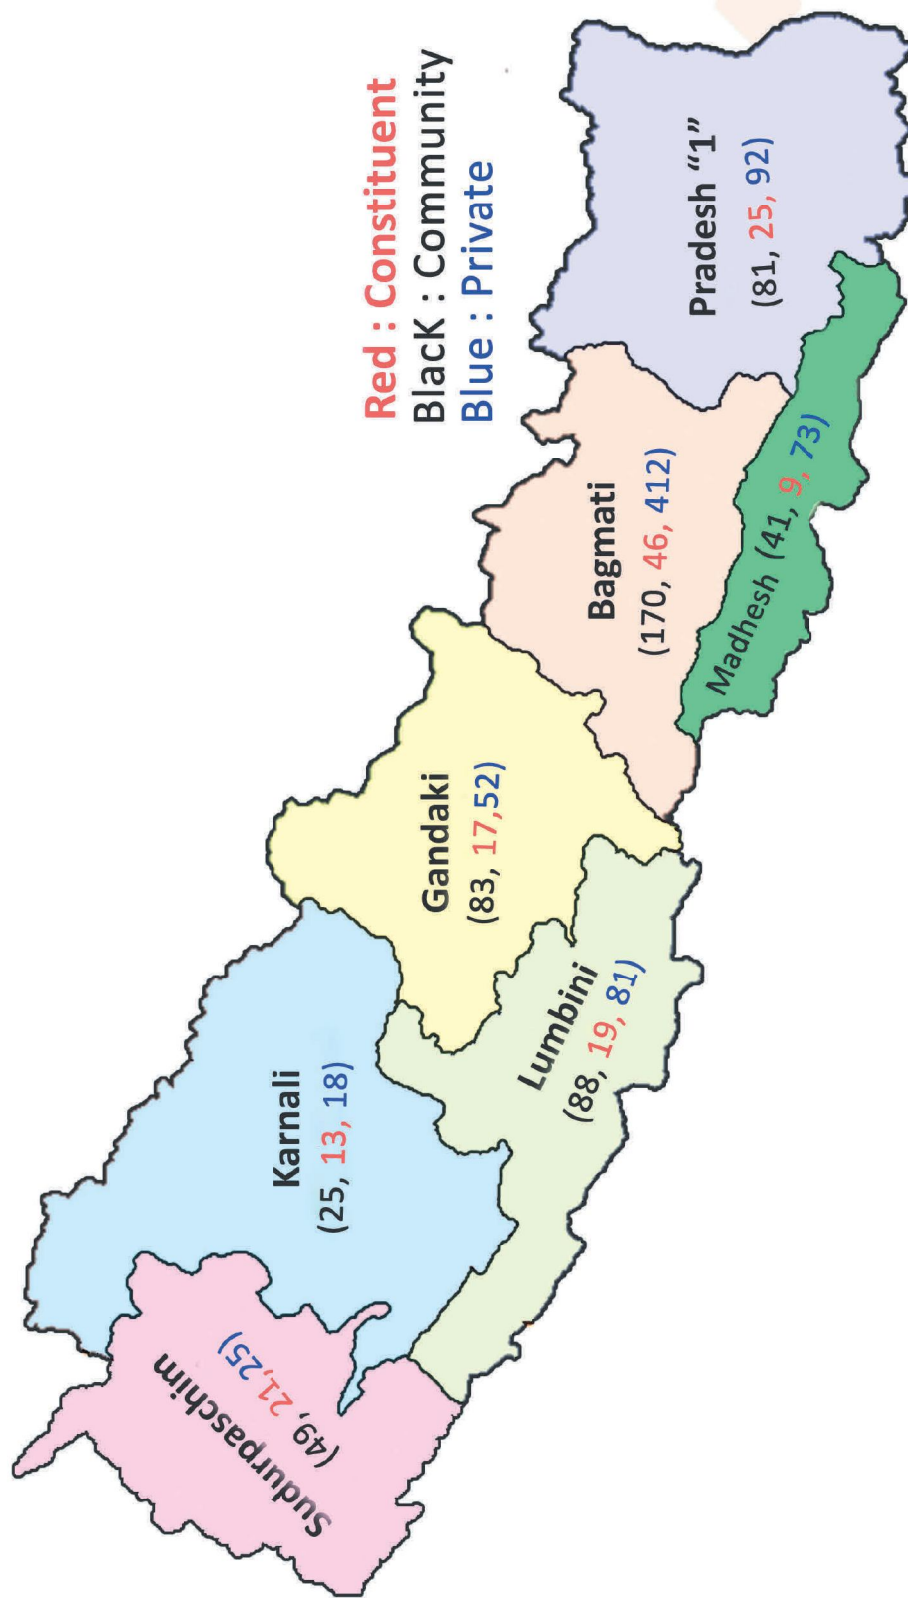

Data collection process is still a very time-consuming process as all of the universities have not maintained proper computerized information system. The proper implementation of the academy calendar has been a challenge for some of the big universities, that has made the data collection process even difficult.

## **1.4 Data in Maps**

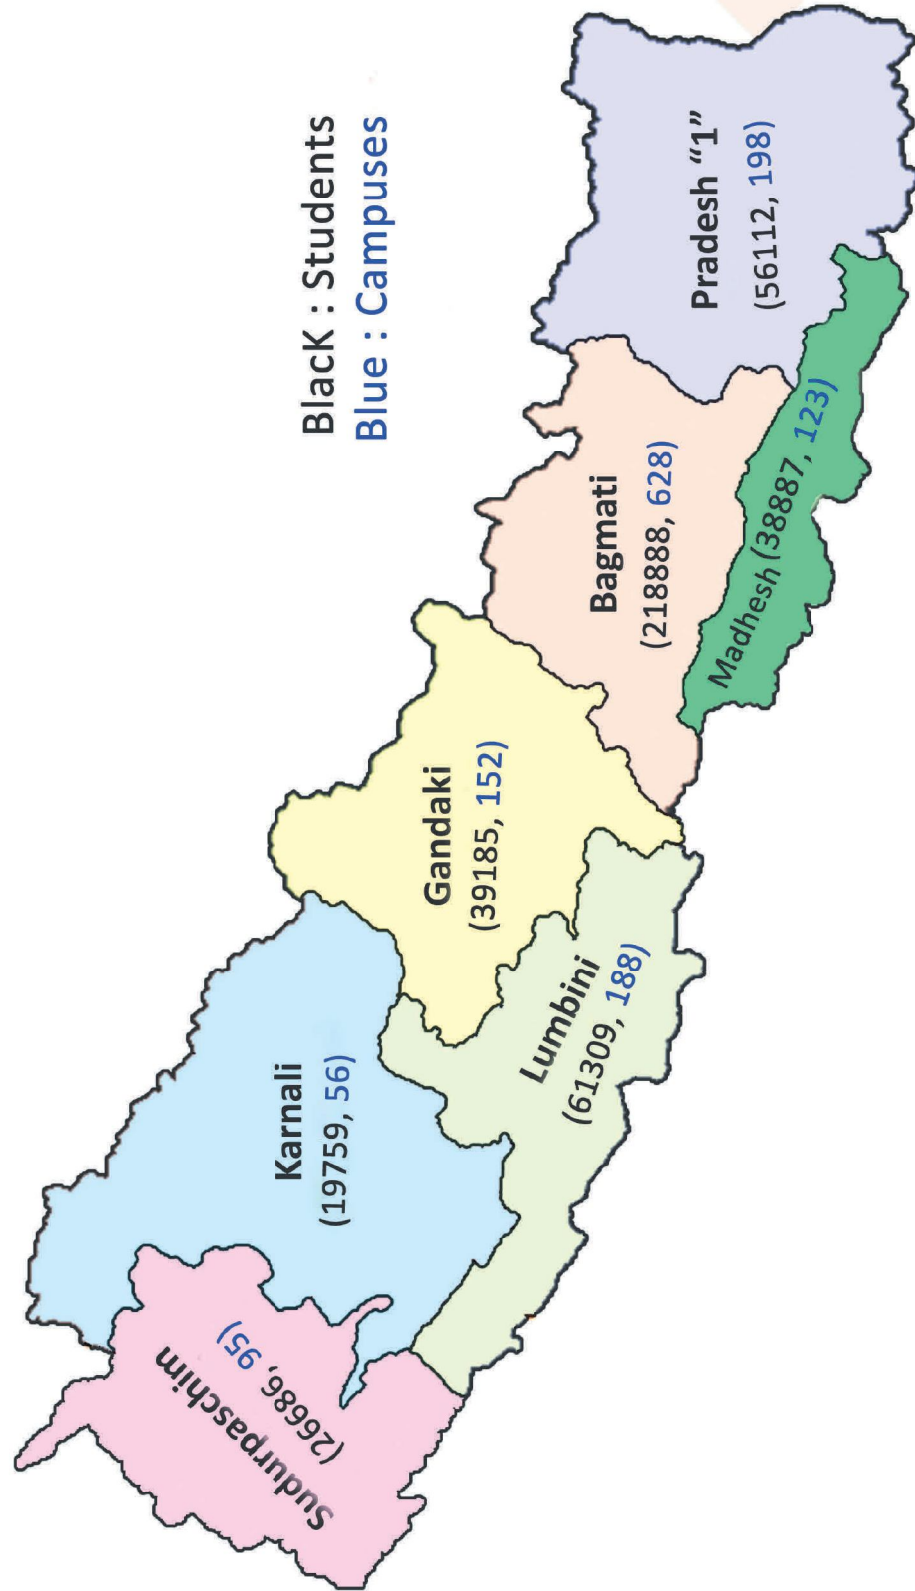

Four maps are developed for the pictorial representation of the distribution of campuses, students in provinces, medical faculties, and technical and non-technical programs.

## MAP - 1

## MAP -2 Number of Students and Campuses in Each Province

## SECTION - 2

### Universities and Campuses

Currently twelve universities, and five medical academies are providing higher education in Nepal. These universities have different faculties, several programs are designed in those faculties; central departments, constituent campuses and affiliated campuses teach those programs.

The universities are Tribhuvan University (TU), Nepal Sanskrit University (NSU), Kathmandu University (KU), Pokhara University (PokU), Purbanchal University (PU), Lumbini Buddhist University (LBU), Agriculture and Forestry University (AFU), Mid-Western University (MWU), Far Western University (FWU), Nepal Open University (NOU), Rajarshi Janak University (RJU) and Gandaki University (GU). Gandaki University is a provincial university and has started classes from year 2078. The medical academies are National Academy of Medical Sciences (NAMS), Patan Academy of Health Sciences (PAHS), BP Koilara Institute of Health Sciences (BPKIHS), Karnali Academy of Health Sciences (KAHS) and Pokhara Academy of Health Sciences (PokAHS).

Table 2.1 shows the number of campuses for each university. Altogether there are 1,440 campuses and 460,826 students. Among 1,440 campuses 150 are constituent, 537 are community and 753 are private. Only three universities: TU, PU and NSU have campuses of all three types.

Universities have different institutions/schools/faculties. Faculties offer several programs/courses. Those programs/courses are taught at the central department, constituent campuses and affiliated campuses. Faculties are controlled by the respective dean's office of the university; for each faculty there is one Dean's office. Bachelors and Masters are the two major levels of study (education) offered by the universities. Some of the universities offer PhD programs in their constituent campuses. Most of the Bachelor's programs are of four years though some programs such as medical programs are of five years. Master's level programs are of two years.

The constituent campuses are managed directly by concerned university and are the part and parcel of the universities. Affiliated campuses are controlled and managed by non-governmental organizations and their academic programs are affiliated to universities. The affiliated campuses work under the jurisdiction of respective affiliating universities. The affiliating campuses teach courses developed by their universities; exams of such campuses are conducted and evaluated by the affiliating university.

Affiliated campuses are further categorized into private and community; private campuses are controlled and managed by private organizations under the rules and regulations of the concerned university, where as community campuses are controlled and managed by the stakeholders of the community with non-profit motive as per the rules and regulation of the concerned university. Campuses with foreign university affiliations are also opened in Nepal. More than nineteen thousand students are enrolled in those campuses. These campuses are teaching bachelor and master programs in faculties like management, Science and technology.

The number of private campuses is 753, number of constituent campuses is 150 and number of community campuses is 537 respectively. Only three universities have all three types of campuses. Most of the community and private campuses belong to TU. PU and PokU are the two universities with many private campuses after TU.

## Section - 3

### Enrollment in Higher Education

This section presents information on the number of students enrolled in universities, faculties, level of education (study) offered, types of campuses, provinces and ecological belts. In year 2020/21, 460,826 students are enrolled in 1440 campuses of twelve universities and five medical academies.

Table 3.1 shows the distribution of students in the twelve universities and five medical academies. The sixth column of the table shows the share of student population among the universities. Tribhuvan University (TU) has 75.36 percent students, Pokhara University (PokU) has 7.41 percent, Purbanchal University (PU) has 5.84 percent and Kathmandu University (KU) has 3.84 percent students. Rest of the medical academies and universities has less than 3 percent students of the total students.

Most of the universities have more than one faculty. The major faculties of the universities are Management, Education, Humanities and Social Sciences, Science and Technology. Engineering, medicine, agriculture, forestry, Animal Science, Law, Buddhism, and Sanskrit are other faculties of which programs are taught in the institutions but these faculties have a very few number of students compared to Management, Education and Humanities and Social Sciences.

### Pass Rate

The pass rate is calculated using the data provided by the Office of the Controller of Examinations (OCE) of the universities. Tribhuvan University (TU) has the biggest share of students in all level of education. Pass rate of TU in the bachelor level of education in the annual programs in year 2020/21 stood at 41 percent.

In the following table pass rates of two universities and a medical academy are shown.

### Graduates

This section shows the number of graduates of the universities and medical academies which have provided data to us. Patan Academy of Health Sciences, B.P. Koirala Institute of Health Sciences, Pokhara University, Tribhuvan University, and Purbanchal University have provided data about the graduates. The number of graduates is based on the number of applications for convocation, which is usually lower than the actual numbers of graduates.

### Gross Enrollment Ratio (GER)

“The United Nations Educational, Scientific and Cultural Organization (UNESCO), describes ‘Gross Enrollment Ratio’ as a number of students enrolled in a given level of education, regardless of age, expressed as a percentage of the official school-age population corresponding to the same level of education. For the tertiary level, the population used is the 5-year age group starting from the official secondary school graduation age (UNESCO).”

The Gross Enrollment Ratio gives information on the access and participation of the population of particular age groups in the education. In this context, five-year age group span (19-23) is used to determine the GER for higher education.

The preliminary result of the census report 2020/21 has shown a decline in the growth rate of the population of Nepal from 1.35 (growth rate in year 2011) to 0.93. As a result, the population size of people belonging to the age group 19-23 has decreased compared to the previous years’ population. This has resulted in increase in the overall GER of the higher education in year 2020/21 from 15 (in year 2019/20) to 17.77.

**Table 6.1 –Higher Education GER**

	Overall GER
Enrollment	460,826
Population	25,93,523
GER	17.77

### Gender Parity Index (GPI) of Gross Enrollment Ratio (GER):

According to United Nations Statistics Division, “the Gender Parity Index (GPI) is calculated by dividing the female Gross Enrollment Ratio by the male Gross Enrollment Ratio for the given level of education. It is one of the most important indicators used to measure the participations of girls in the higher education.

**Table 6.2 GPI of GER**

	Higher Education		
	Female	Male	Total
Enrollment	242,103	218,723	460,826
Population	1,428,456	1165067	2,593,523
GER	16.95	18.77	17.77

Gender Parity Index of Gross Enrollment Ratio is 0.9.

### FINANCE FOR HIGHER EDUCATION

Universities of Nepal receive financial support from the government through the Ministry of Education and it is channelized via the University Grants Commission. However, the medical academies receive the financial support for higher education directly from the Ministry of Health and Population. The grants released to the universities, however, depends on the nature of the university. UGC provides grants to community campuses also.

### Teachers in Higher Education

This section provides information about the number of teachers in the constituent campuses of the universities. The universities have categorized teachers in different levels according to the experience, research publications, and educational qualifications. The major categories of teachers in the order of decreasing status are:

- Professors
- Readers/Associate Professors
- Assist. Prof/Lecturer
- Assistant Lecturers
- Others (Including Instructors)

Some variation exists in the category of teacher between the universities.

### Student – Teacher Ratios

Student-Teacher ratio (STR) measures the average number of students per teacher. It is calculated by total number of students divided by total number of teachers.

In this section, Student to Teacher ratio of the constituent colleges of Universities is shown.

### Brief Description of Higher Education System of Nepal

Education imparted after the higher secondary level or the 12th standard or PCL is considered as Higher education in Nepal. At present, there are twelve universities–TU, NSU, KU, PU, PokU, LBU, FWU, MWU, AFU, NOU, RJU, GU and five autonomous academic institutions–NAMS, BPKIHS, PAHS, KAHS, and PokAHS that offer higher education in Nepal. The universities have two types of campuses: constituent campuses – campuses directly managed and administered including financial management by the concerned university; and affiliated campuses – campuses whose academic programs are affiliated to a university, but managed and administered including financing either by private individual/organization (private campuses) or by local community stakeholders (community campuses). The academic activities of both types of campuses are governed by the rules and regulations of the concerned university. There are altogether, 1440 campuses in 2020/21 (150 constituent, 537 community, and 753 private) with 460,826 students enrolled in different academic programs in higher education.

The campuses follow the courses designed by the affiliating universities and examinations are conducted and processed by OCE of the respective universities<sup>1</sup>. The academic calendar for student enrollment, schedule of exam, publication of results, courses offered and class hours may vary from university to university. The institutions of higher education are at present providing courses on science and technology, education, management, social sciences and humanities, law, engineering, forestry, medicine, agriculture and animal sciences, Ayurveda and Sanskrit. They run their academic programs with annual or semester systems at the bachelor, master, M. Phil., and Ph.D. levels, but some universities also offer programs like post-graduate diploma (PGD). Depending upon the stream and subject, bachelor level programs are of four to five years duration; master level programs of two years.

## Report Preparation

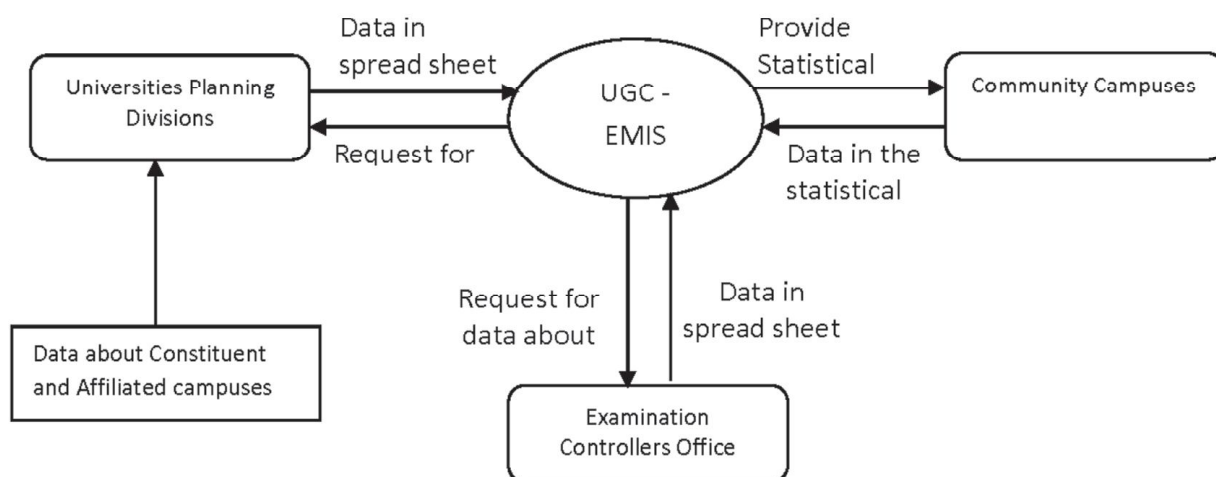

To prepare this report required data were collected from different sources: Universities, Office of the Controller of Examination, campuses etc. Tools used to collect data included:

- Statistical forms
- Emails
- Phone calls
- Personal visit to sources

The provided data were in tabular format in paper or in spread sheet.

- Those data were inserted into the standard UGC spread sheet format.
- From spread sheet those data were uploaded to database using database tool. (Data from spread sheet were uploaded to database as there was not software developed to insert data to the database.)
- As there were noise, redundancies in data, effort to clean those noise and redundancy were made as much as possible, but even how much effort were used still there remained some redundancies. After cleaning data, aggregated table was generated (one campus was having more than one program, different number of students in each program so it was necessary to sum total number of students for each campuses).
- Then from that aggregated table, summary tables required to prepare this report is generated.
- Those summary tables were then analyzed and described manually and incorporated into the report.
