FOREWORD

Ministry of Agriculture and Livestock Development has published "*Statistical Information on Nepalese Agriculture*" annually since long reflecting current performance in Nepalese agriculture sector. It summarizes basic information on all crops, fruits, vegetables, livestock, and fishery across the districts and provinces. Chief socio-economic variables have been extracted from the publications of other national government agencies.

This publication is the outcome of the finally processed data at the Ministry primarily compiled by Agriculture Knowledge Center, Agriculture Development Office, Veterinary Hospital and Livestock Expert Service Center across the nation. Ministry of Land Management, Agriculture, and Cooperatives at each province has aggregated, checked, and verified for possible errors and inconsistencies before sharing us.

This publication is expected to serve as an official source of information for framing appropriate agriculture policy and program, tracking ongoing projects and programs together with key tools for carrying out monitoring and evaluation. Besides, it can be useful for farmers, industries, businesses, traders, and academia in order to reach evidence based decisions. Likewise, data and indicators available in this publication may help researchers as a basis for fact-based analysis.

I would like to express my sincere thanks to all agriculture and livestock development related national and sub-national offices who have shared their primary data to make this publication possible. In particular, Department of Livestock Services and Department of Agriculture deserve special thanks for their efforts in data compilation and verification. I compliment Joint Secretary and Division Chief of Planning and Development Cooperation Coordination, Dr. Hari Bahadur K.C. and Mr. Ram Krishna Regmi, Senior Statistics Office, and Ms. Padma Pokhrel, Crop Development Officer for their efforts in bringing out this publication in time.

I welcome comments and suggestions for improvement in our future publications.

PREFACE

Ministry of Agriculture and Livestock Development has been publishing Nepal's current agriculture statistics annually since long. This publication "*Statistical Information on Nepalese Agriculture 2076/77(2019/20)*" is the latest one in the series. It contains basic information on crops, fruits, vegetables, livestock, and fishery as well as some key national socio-economic indicators.

Primary data for the designated variables is first collected and compiled by corresponding local levels which are further aggregated and validated by corresponding district level Agriculture Knowledge Center and Veterinary Hospital and Livestock Expert Center. Ministry of Land Management, Agriculture and Cooperatives at province level then summarized each district level estimates and edit where necessary and shared to federal Department of Agriculture and Department of Livestock Services which is finally processed and published by Ministry of Agriculture and Livestock Development. Thus, most of the indicators are estimated at district levels as usual which are then aggregated at province and national level.

This official statistics on agriculture can be of useful tools for monitoring, evaluation and designing of agricultural and allied policies. It is believed that this issue will be helpful for public agencies, private sectors, development partners, academia, and others to make their informed decisions.

I would like to express sincere thanks to all national and sub-national offices of agriculture and livestock, who have kindly shared their primary data to make this publication possible.

I would like to acknowledge Mr Ram Krishna Regmi, Senior Statistician and Ms. Padma Pokhrel, Crop development Officer working in the Statistics and Analysis Section of the ministry for their laborious work in compiling, validating and processing of raw data to get into this shape.
