

Flash II REPORT 2072 (2015-016)

**GOVERNMENT OF NEPAL
MINISTRY OF EDUCATION
DEPARTMENT OF EDUCATION**

Sanothimi, Bhaktapur
2016

Foreword

The Educational Management Information System (EMIS) in Nepal has been gradually evolving and demonstrably improving from the perspective of information collection, interpretation, presentation and application. Especially, EMIS has been used to derive the Flash Reports I and II.

This report (Flash Report II, 2072) compares the educational status of main categories of students (e.g. Total, Dalit, Janajati and students with disabilities) in relation to their student, retention and performance at individual grade between the Flash I (i.e. in the beginning of the school year) and the Flash II (i.e. at the end of the school year). It also assesses the participation of local people from different strata of society in SMCs and PTAs in school management and compares progress between targets and program implementation at macro level on the basis of school level data. This report presents the program indicators, including construction and other physical facilities, scholarship distribution, school grants, release of funds, school improvement plans (SIPs) and other performance related indicators.

Such measures give an indication of the effectiveness of the education system. EMIS helps to identify whether the education system is functioning well and indicates special areas where greater attention is needed. This kind of school level performance information has been instrumental in evidence based educational planning at district, regional and national levels.

In the process of preparation of this report many people and organizations have contributed in various ways. In general, this report is the result of collective and collaborative effort of EMIS core team of DOE, REDs, and DEOs officials. The constructive suggestions and feedback of the Development Partners have also significant role in this process. Therefore, I am grateful to all organizations and individuals who have contributed significantly to the overall process of this report and, thus, would like to extend gratitude for your contributions. Any suggestion and feedback for its improvement is highly appreciated.

Babu Ram Poudel
Director General
Department of Education

Acronyms:

BS	Bikram Sambat (Nepali Calendar)
CBS	Central Bureau of Statistics
CRC	Camera Ready Copy
DOE	Department of Education
ECD	Early Childhood Development
EFA	Education for All
EMIS	Education Management Information System
GPI	Gender Parity Index
HT	Head Teacher
IEMIS	Integrated Educational Management Information System
INGO	International Non-Government Organization
MOES	Ministry of Education and Sports
MOPE	Ministry of Population and Environment
NGOs	Non-Government Organizations
PHP	Pretext Hypertext Pre-processor
PPC	Pre-Primary Classes
PTA	Parent Teacher Association
RCs	Resource Centres
SIP	School Improvement Plan
SMC	School Management Committee
STR	Student Teacher Ratio
UNESCO	United Nations Educational, Scientific and Cultural Organization
UIS	UNESCO Institute of Statistics

Part: I

1. Introduction

This report is the last in the series of Flash Reports since 2004-05. It presents statistical information on the implementation of the School Sector Reform Plan (SSRP, 2009-015) in the context of achieving EFA goals and targets by 2015. With regard to departure from the SSRP to the School Sector Development Plan (SSDP, 2016-023), this report is the last, to monitor progress and highlight remaining gaps and provide recommendations for the Incheon Declaration for Education 2030 Framework for Action for Sustainable Development Goal 4 to follow in 2015: Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all.

Briefly, it reports that there has been tremendous progress since 2011; however, the country has not fully achieved Education for All despite sincere efforts by the government, non-governmental organizations (NGOs), civil society and the international community. It is particularly useful to policymakers, planners, development partners, civil society organisations and everyone interested in the development of the education sector.

Based on the UNESCO's EFA Global Monitoring Report since 2000¹, the Department of Education (DOE) started the Flash reporting process since the school year 2004-05 (B.S. 2061) under its Education Management Information System (EMIS). It collects school level educational data from all schools across the country twice a year i.e. in the beginning and the end of the school year. Based upon the collected data, the DOE produces three reports, namely the Flash Report I, the Flash Report II and the Consolidated Report of School Level Educational Statistics of Nepal annually. While the Flash I report is an assessment of the educational inputs and processes based on the school census data at the beginning of the school year, the Flash II report is an assessment of the educational outputs and outcomes based on data at the end of the school year. Finally, the Consolidated report analyzes trends on key indicators over a number of years based on data from both Flash I & II reports.

This Flash II Report 2015-016 is the twenty-third report in the series of Flash Reports produced by the DOE.

2. The Flash II report

- Compares the educational status of main categories of students (e.g. Total, Dalit, Janajati and students with disabilities) in relation to the numbers of students, retention and performance at individual grade between the Flash I (i.e. in the beginning of the school year) and the Flash II (i.e. at the end of the school year).
- Illustrates disparities in the enrolment of students from the different social backgrounds as well as the ecological belts.
- Assesses the participation of local people from different strata of society in SMCs and PTAs in school management.

¹ . The first Global Monitoring Report entitled Education for All: Is the world on track? by UNESCO came out in 2002, encouraging national governments to systematically monitor progress through establishing appropriate monitoring mechanism/s. In this respect, from the support of UNESCO Office in Kathmandu and UNESCO Regional Office in Bangkok, Thailand, Nepal established the Flash Report I, the Flash Report II and the Consolidated Report of School Level Educational Statistics of Nepal since 2004-05.

- Compares progress between targets and programme implementation at the macro level on the basis of school level data. This report presents programme indicators with regard to construction and other physical facilities, scholarship distribution, school grants, release of funds, school improvement plans (SIPs) and other performance related indicators.
- Assesses the emerging challenges, issues and impacts resulting from the two major devastating earthquakes of 25th April with 7.8 magnitudes and of 12th May 2015 with 7.3 magnitudes and series of their aftershocks. In addition to this, it also highlights the effects of the prolonged political unrest in the school education in some parts of the country.

3. Methodologies

- Based on the original records of all types and levels schools, entered by each school into its School Level Electronic Excel based IEMIS (Integrated Educational Management Information System) by the reference date of Flash II school census (on April 5, 2016) submitted to DOE from each district by August 5, 2016.
- The data submitted by the districts were compiled and aggregated at the national database into the Flash database.
- An indicator-wise analysis was undertaken by extracting appropriate information from the Flash database.
- The status of some output indicators (e.g. related to the non-formal education programme and the establishment of new ECDs) was analysed based on district-level progress reports from DEOs (i.e. not directly from schools).
- The reference date for Flash II data was 5th.April, 2016 (23 Chaitra, 2072). In Nepal, it is mandatory for all schools, including institutional (private) schools and community (public) schools to fill in the School Level Electronic Excel based IEMIS in the Flash I and II school census reporting system.
- In this report each district is taken as the unit of analysis. However, comparisons in respect to students and other specific performance of the programme related data at the school level have been analyzed between Flash I and II. The school-level data in the form of “School Profile” are available in the DoE website: www.doe.gov.np.

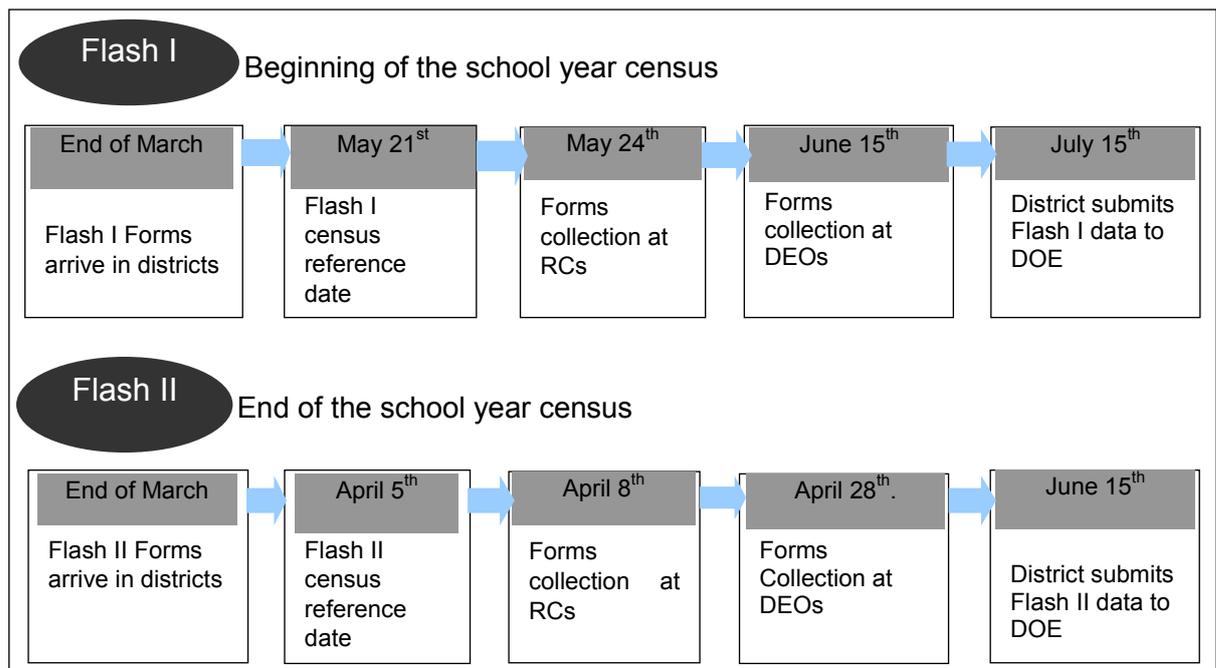

In addition to the above, since the beginning of the Flash Reporting system the DOE has initiated different mechanisms for the improvement of the school level EMIS. Those initiations are: standardized school census forms, standardized EMIS software to establish the electronic database, time-bound tasks, provisions to approve the data/information by different personnel from the schools to district education offices, building an individual school's time series database, systemic verification by Resource Persons, School Supervisors, District Education Officers and other stakeholders, linked in the school education planning, resource management, support, monitoring and evaluation system and other related themes.

In spite of these initiations, based on the practices and the different studies the DOE has realised that until and unless every school has a standardized record keeping system at the school level, the expectation of having a quality data will not be fulfilled. In this regard, with the expansion of the ICT incorporating school activities the original School Records have been converted into the standardized electronic based School Level IEMIS in the school year 2072-2073 and implemented in all districts. With the successful initiative on establishing the individual school's electronic based IEMIS by capturing the original records of the schools in 67 districts in the school year 2072-073, the DOE expanded this mechanism and made it mandatory in all 75 districts in the school year 2073-074 to strengthen the Flash Reporting System. By the last date for the submission of Flash II school census data, in total 33,676 schools (96.7% of the total 34,837 schools in the school year 2073-074) from all 75 districts submitted the electronic based IEMIS to their respective DEO. The current Flash Report II 2015-016 is prepared based on the electronic based School Level IEMIS data. As per prescribed mechanism and time line of the Flash Reporting System, the electronic based School Level IEMIS database are reported by Schools to RCs, RCs to DEOs and DEOs to DOE.

4. Timeline of Flash data collection

The Flash data collection process is implemented as shown in the following figure.

Figure: 1.1
Timeline for Flash data collection

5. Indicators covered in Flash Report II

Following indicators were covered in the Flash II school census:

1. Students currently in school by grade, gender, Dalit, Janajati and disabilities,

2. Number of participants enrolled in women literacy classes,
3. Enrollment in adult literacy classes by gender,
4. Percentage of schools receiving funds within two months of the first and second trimesters,
5. Percentage of schools with School Improvement Plan (SIP),
6. Percentage of schools disclosing statements of accounts publicly,
7. School operational calendar (including school opening days),
8. Percentage of schools that completed social audit,
9. Number of community-managed schools,
10. Number of maintenance scholarships received by students,
11. Number of new classrooms constructed and rehabilitated,
12. Number of school environment improved,
13. Number of schools that received grants,
14. Number of schools completing SIP for the first time, and
15. Teacher training related information.

VDC/District level information

1. Number of new ECD/PPCs opened and running,
2. Number of Women's Literacy Classes delivered, and
3. Number of Adult literacy classes delivered and other relevant activities.

6. Reliability of data

The responsibility for completing the electronic based school level IEMIS lies with each individual school in consultation with the School Supervisor and Resource Person. The Head Teacher (HT), the School Management Committee (SMC) Chairperson and the School Supervisors/Resource Persons scrutinize the completed electronic based school level IEMIS before submitting it to the DEO. Before approving the electronic based school level IEMIS, it is their responsibility to check the reliability of the data. However, regarding the issue of assuring data-quality, it has been observed that since the electronic based school level IEMIS capture the original records of the schools by individual students, teachers, etc; appropriate changes are required for more robust, consistent and reliable data than in the previous years.

In order to minimize the reporting errors, maintaining the data quality and preventing inconsistency in the data, basic validation rules (such as to ensure that the students related to Dalit and Janajati and number of scholarship recipients, etc; do not exceed the total students) are used in the Flash data entry software at each DEO and electronic based school level IEMIS as well.

7 Flash II Report 2071 Key findings and the Effects of the Earthquake based on the selected indicators

- Out of the total 35,603 recorded ECD/PPCs in the beginning of the school year, 33,613 (93.4%) ECD/PPCs are reported at the end of the school year 2015-016 by the reference date (5th.April 2016)
- Compared to the 977,365 total numbers of children in ECD/PPCs at the beginning of the school year 944,392 children were reported at end of the school year 2015-016. Of the total non-reported schools, the highest percentage of non-reported ECD/PPCs was found in the Terai eco-belt.
- The average School Student Ratio at primary level is 1:118 (i.e. 1:123 in the beginning of the school year), at the lower secondary level it is 1:125, at the secondary level (Grades 9-10) it is 1:104 and at the higher secondary level 1:138 respectively in the end of the school year.
- The total number of students reported in Flash II school census 2015-016 at primary, lower secondary and basic levels are: 3,942,354; 1,840,772 and 5,783,126 respectively. Compared to the beginning of the school year 2015-016 there are 25 districts, which have shown a decrease in enrolment at primary level by more than 3 percentage points,
- Compared to the beginning of the school year 2015-016 at secondary level there are slight changes in the grade wise composition of students in the end of the school year 2015-016.
- Of the total students, there are 91,351 at primary level, 2,065 at lower secondary level and 387 at the secondary level students are reported in the religious schools.
- Compared to the total students in the beginning of the school year 2072, in total 92.1% (compared to 92.2% in the last school year) of students at the primary level appeared in the 2072 final examination.
- At the lower secondary level, out of the total number of students in the beginning of the school year, in total 92.4% (compared to 93.7% in the last school year) appeared in the final examination in the end of the school year 2015-016.
- Overall, out of the total number of students appeared in the final exam at the secondary level is 93.8% (compared to 95.1% in the last school year) in the school year 2015-016.
- The students average attendance days in the school year 2015-016 is 178 for primary level, 185 days for lower secondary level and 186 days for secondary levels' students. Compared to other grades the lowest attendance days is for Grade 1 with 168 days. In the percentage these days are lower than in the last school year.
- Out of the total 29,014 community schools, 10.2% schools in the first trimester and 42.9% in the second trimester received the government funds within two months of each trimester. The majority of the schools received the government funds in the third month of the both trimesters.
- Out of the total community schools, 98.5% (compared to 94.3% in the last school year) of schools reported that they have a School Improvement Plan (SIP) for their schools.
- By the reference date (April 5, 2016) of Flash II data collection, out of the total community schools with the SIPs, 97.9% (compared to 96.6% in the last school year) schools received all types of government grants for the school year 2015-016.
- The percentage of schools that performed disclosed a statement of accounts (income and expenditure reports) is 89.3% (compared to 85.4% in the last school year).

- In total 93.8% (compared to 91.9% in the last school year) schools performed the social audit regarding all of their academic, administrative, financial and other school level activities during the school year 2015-016.
- In total 92.9% (compared to 91.4% in the last school year) schools prepared a school operational calendar.
- Compared to the 226 planned days of school opening days for overall school activities, the average number of actual school opening days was 211 days (226 days in the last school year) in the school year 2015-016.
- Out of total 211 (compared to 226 days in the last school year) actual days for the activities performed at schools, it can be seen that on an average 174 (compared to 186 days in the last school year) days were spent for teaching and learning activities; 24 days were spent on examinations and 15 days for extracurricular and other activities.
- On an average the schools were monitored by Resource Persons 2.5 times, almost 1.5 times by the School Supervisor and 1.3 times by other persons.
- Out of the total schools, 98.6% (98.2% compared to last school year) of schools responded that they have formed their SMC. A similar percentage i.e. 97.7% (96.5% compared to last school year) of schools have formed their PTA.
- The participation on SMC by sex, Dalit and Janajati shows 22.1% (21.1% compared to last school year) female members, 11.7% (11.6% compared to last school year) Dalit members and 36.7% (36.6% compared to last school year) are Janajati members.
- The participation on PTA by sex, Dalit and Janajati is 29.1% (28.3% compared to last school year) female members, 14.3% (14.1% compared to last school year) Dalit members and 40.9% (39.7% compared to last school year) are Janajati members.
- Out of total SMCs and PTAs, 89.5% of SMCs (compared to the last school year 88.5%) and almost 90.2% of PTAs (compared to the last school year 88.9%) are formed by common consensus and the rest by an election process.
- Out of total 29,133 community schools 1-6 times meetings were held in 11,060 (38.2%) schools, 7-12 times meetings held in 11,161 (38.5%) schools, 13-18 times meetings held in 2,971 (10.2%) schools, and more than 18 times meetings held in 992 (3.5%) schools.

7.1 The Effects of the Earthquake based on the selected indicators in the school year 2015-016

As stated earlier, since this Flash Report II 2015-016 is the series of last Flash I Report 2015-016, which captured the status of the activities in last school year. In this regards, the DOE has captured the schools information of the last school year 2015-016 through the Flash II school census 2015-016. Of the total schools of the most affected 14 districts, almost 80% of the schools and classrooms were completely/partially damaged, which caused closure of schools for almost 2 months. Considering the effects of the devastating earthquake on education infrastructure as well as on social and economic aspects, it has seen in this report that there was low attendance of students, decreased in school opening and teaching learning days, increase in number of repetition and drop-out children and other important aspects of the school education.

Part: II

1. Data analysis

This section presents statistical information on the following Flash II indicators with tables, graphs/figures and maps in regards to different aspects of school education.

- Status of ECD/PPCs compared to the Flash I, 2072 records,
- School information by grade and level compared to the Flash I, 2072 records,
- Student by grade, gender compared to the Flash I, 2072 records,
- Student appearing in the final examination and retention during the school year,
- Scholarship,
- Involvement of local people in school management by social category,
- Functioning of schools,
- Physical and financial support to schools,
- Teacher training information, and
- Others.

The indicators are analyzed based on the data of the total number of schools that reported to the Flash II school census. The presentation compares progress between 5 development regions, 4 eco-belts, including the Kathmandu valley and 75 districts within a school year.

2. Flash II indicators and analysis

2.1 Early Childhood Development and Pre-Primary Classes (ECD/PPCs)

The EFA goal regarding the Early Childhood Development (ECD) and pre-school activities is in line with the Dakar Framework for Action for EFA (2001-015)². The ECD/PPC is instrumental for the social, emotional, intellectual and physical development of children. As such it helps to improve the internal efficiency of basic and primary education. Since 2004, with the implementation of the EFA 2004-09 and the SSRP 2009-15 it has been one of the main strategies taken to achieve the EFA goal to increase the number of ECD centers to ensure access for the most vulnerable and marginalized children by the government of Nepal. The various forms of ECD/PPCs institutions include school-based ECD centers and pre-primary classes, community-based ECD centers and privately managed pre-primary education with different names such as Nursery, Kindergarten, Montessori, etc.).

2.1.a) Number of Early Childhood Development and Pre-primary Classes (ECD/PPCs)

Table 2.1 and Figure 2.1 below show that out of the total 35,991 recorded ECD/PPCs in the beginning of the school year, 33,613 (93.4%) ECD/PPCs especially from both the community based and school based ECD/PPCs are reported at the end of the school year 2015-016 by the reference date (5th.April 2016) of Flash II school census (See Annex: I). The rest of the ECD/PPCs (in total 2,378 ECD/PPCs) especially community-based ECDs and PPCs from the institutional schools (6.6%) are not reported by the reference date of Flash II school census 2015-016, which are not analyzed in this report, but their status will be incorporated in the

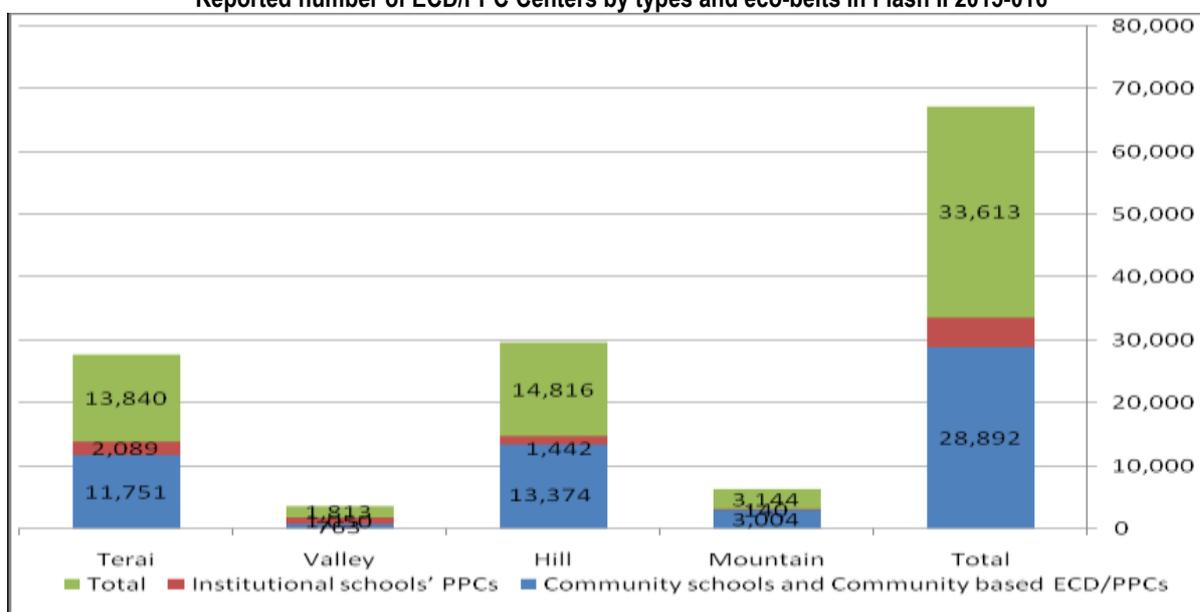

². *The Dakar Framework for Action is a collective commitment to action. Governments have an obligation to ensure that EFA goals and targets are reached and sustained.*

final report. Practically, some of the community-based ECDs are not linked with the mother schools and also have delayed to report their information, which caused under reporting of ECDs through the Flash II school census within the prescribed time and date. Although the data shows a low involvement of the private (institutional) sector in providing ECD/PPC services, the contribution of Pre-primary classes has been very important in the urban areas of the country, especially of the total institutional ECD/PPCs more than almost 21% of ECD/PPCs have been organized by private sectors in the Kathmandu valley. Among the 75 districts there are 21 districts (from the central, Terai districts including Saptari and other districts) with a rate of more than 10% of non-reported ECD/PPCs at the end of the school year 2015-016 by the reference date (5th.April 2016) of Flash II school census (See Annex: I). The reporting status of the ECD/PPCs suggests that although there is some problem in co-ordination between the mother schools and the respective community based ECDs and also RCs with the Institutional schools at district and local level; the DEOs, RCs and schools should be more pro-active in the future.

Table 2.1
Total number of recorded and reported ECD/PPCs by types and eco-belts

Eco-belts	Number of recorded ECD/PPCs in the beginning of the school year, 2015-016			Number of reported ECD/PPCs in the end of the school year, 2015-016				Number of non-reported ECD/PPCs in Flash II
	Community schools and Community based ECD/PPCs	Institutional schools' PPCs	Total number of ECD/PPCs in 2015-16	Community based ECD/PPCs	Community schools based ECD/PPCs	Institutional schools' PPCs	Total	
Mountain	3,211	201	3,412	298	2,706	140	3,144	268
Hill	13,926	1,745	15,671	2,012	11,362	1,442	14,816	855
Kathmandu Valley	795	1,184	1,979	106	657	1,050	1,813	166
Terai	12,516	2,413	14,929	2,561	9,190	2,089	13,840	1,089
Total	30,448	5,543	35,991	4,977	23,915	4,721	33,613	2,378

Figure 2.1
Reported number of ECD/PPC Centers by types and eco-belts in Flash II 2015-016

2.1. b) Number of children enrolled in ECD/PPCs

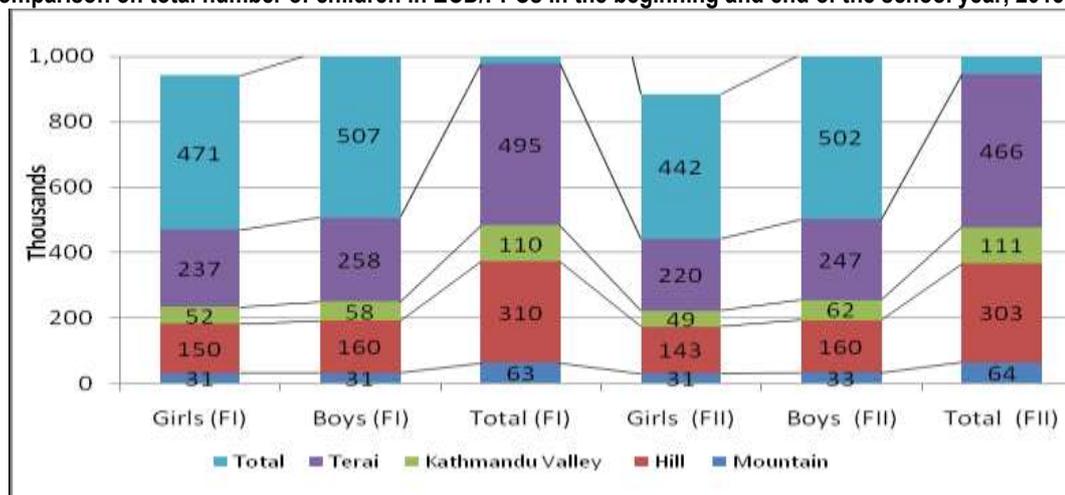

Table 2.2 and Figure 2.2 below compare the total numbers of children in ECD/PPCs between the beginning and the end of the school year 2015-016 by eco-belt and gender. The comparison shows that in total there were 977,365 children in 35,991 ECD/PPCs in the beginning of the school year that came down to 944,392 from the 33,613 reported ECD/PPCs within the prescribed time and date of the Flash II school census. It shows, due to the 2,378 non-reported ECD/PPCs within the prescribed time, the number of children decreased by 3.4% at the end of the school year. The highest number of decrease in enrolment is observed in the Terai eco-belt as compared to other eco-belts.

The ECD/PPC and children ratio analysis shows that at the beginning of the school year, the ratio of ECD/PPCs and children was 1:27, whereas it is 1:28 at the end of the school year. This suggests that at the end of the school year if we apply the ratio of ECD/PPCs and children for the non-reported ECD/PPCs then the number of children will be more than in the beginning of the school year 2015-016, which indicates due to the effects of the earthquake in the beginning of the school year 2015-016 some children enrolled late. This resulted into increased number of children in Mountain and Kathmandu Valley in the end of the school year 2015-016. The composition of children by gender shows that there is a slight change in the share of girls in the total children at the end of the school year. The highest share of girls is in the Mountain eco-belt in both Flash I&II school censuses (See Annex: I).

Table 2.2
Total children in ECD/PPCs by eco-belts in the beginning and end of the school year, 2015-016

Eco-belts	Number of children in ECD/PPCs in the beginning of the school year, 2015-016			Number of children in ECD/PPCs in the end of the school year, 2015-016			% of change in the beginning and end of the school year, 2015-016		
	Girls	Boys	Total	Girls	Boys	Total	Girls	Boys	Total
Mountain	31,036	31,483	62,519	30,581	33,293	63,874	1.5	-5.7	-2.2
Hill	150,445	159,848	310,293	142,713	159,891	302,604	5.1	0.0	2.5
Kathmandu Valley	51,688	57,878	109,566	49,234	62,226	111,460	4.7	-7.5	-1.7
Terai	237,351	257,636	494,987	219,917	246,537	466,454	7.3	4.3	5.8
Total	470,520	506,845	977,365	442,445	501,947	944,392	6.0	1.0	3.4

Figure 2.2
Comparison on total number of children in ECD/PPCs in the beginning and end of the school year, 2015-016

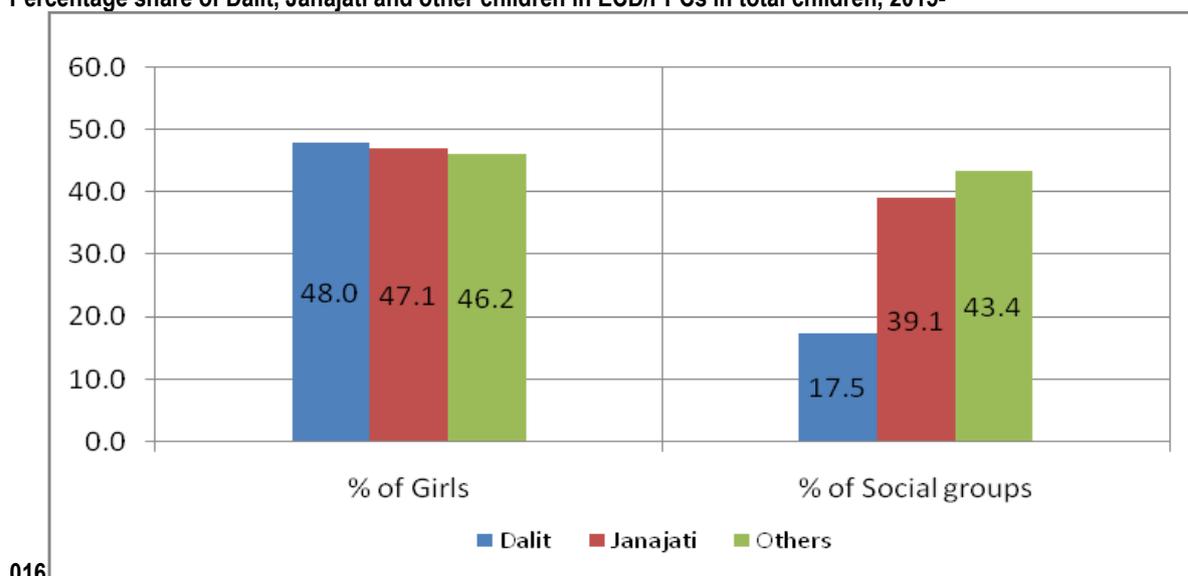

In addition, the PPCs organized by private institutions mostly include three years' programme, such as Nursery classes, Lower K.G. and Upper K.G. etc; whereas the ECD centers run by the community and community schools include one-year programme. This explains why Kathmandu Valley has the highest ECD/PPC and children ratio among the stated eco-belts. The figure 2.2 above depicts the status of total children by the eco-belt and gender in the end of the school year 2015-016.

Table 2.3 below shows that out of the total children (944, 392) in ECDs/PPCs in the end of the school year 2015-016, in total 17.5% with 18.0% girls and 17.1% boys are Dalit and 39.9% with 39.3% girls and 38.9% boys are Janajati. Based on the share of girls and boys in ECD/PPCs, the GPI with regard to Dalit and Janajati children are 1.05 and 1.01 respectively, which shows a higher level of participation of Dalit as well as Janajati girls. Thus, the data suggests that the gender parity is almost achieved among the Dalit and Janajati children. (See Annex: I). Figure 2.3 below presents the share of of children in ECD/PPCs by gender and social groups, including the proportion of Dalit, Janajati and other children in total.

Table 2.3
Number of Dalit, Janajati and other children in ECD/PPCs, 2015/16

Children	Number of children in ECD/PPCs				Percentage share of Dalit, Janajati and other children in ECD/PPCs			
	Total	Dalit	Janajati	Other	Total	Dalit	Janajati	Other
Girls	442,445	79,573	173,766	189,106	46.8	18.0	39.3	42.7
Boys	501,947	86,077	195,215	220,655	53.2	17.1	38.9	44.0

016

2.2 School education

Broadly, since the implementation of SSRP (School Sector Reform Programme) in 2009, the school education system in the country consists of basic (Grades 1-8) and secondary (Grades 9-12) education levels. The primary and lower secondary levels are included in the basic education and the secondary and higher secondary levels are included in the secondary education. Primary level provides grade one to five years of education, whereas lower secondary level provides further three years of education. Secondary level offers two more years of education, while higher secondary level also offers two more years of education after SLC. As described previously, early childhood development (ECD)/pre-primary classes (PPCs) are offered for the holistic development of children and as preparation for grade one. The prescribed age groups for different levels of school education are 4 years for ECD/PPC, 5-9 years for primary, 10-12 years for lower secondary, 13-14 years for secondary and 15-16 years for higher secondary education.

Since 2009 the government of Nepal has begun to implement the School Sector Reform Programme (SSRP), which aims at restructuring school education with basic education (consisting of Grades 1-8) and secondary education (consisting of Grades 9-12). The majority of schools in the country include separate primary level (Grades 1-5). In addition, most of the lower secondary, secondary and higher secondary schools operate primary level. Very few of them offer only Grades 6-8 (lower secondary level) or only Grades 9-10 (secondary level). At the higher secondary level it is more common that some schools offer only Grades 11-12 (See Annex III).

Generally, schools are categorized into two types – community (public) schools and institutional (private) schools. Community schools have three categories such as community-aided (schools, which are fully supported by the government for teachers' salary and other expenses), community-managed (schools, which are fully supported by the government for teachers' salary and other funds but their management responsibility lies with the community), and community-unaided (schools, which are either getting partial support or no support from the government). Institutional schools are supported by parents and trustees. In addition to the above categories, there are some schools running as religious schools such as Madarasa, Gumba/Vihar and Ashram/Gurukul, which have received support from the government when they have been mainstreamed into the formal education system by registering with the DEO and following the Education Act and Regulation.

2.1.1 Reporting status and comparison of schools between FI 2015-016 and FII 2015-016

Table 2.4 and Figure 2.4 below present the total number of schools by unit and levels registered at DEOs' database throughout the country in the beginning of the school year 2015-016. Of the total 34,837 schools, 34,362 are primary levels, 15,091 are lower secondary and 34,537 are basic levels of schools. Likewise, there are 8,968 secondary levels (Grades 9-10); 3,656 are higher secondary levels (Grades 11-12) and 9,263 are comprehensive secondary levels with Grade 9-12. Of the total recorded schools in the beginning of the school year 2015-016 in total 33,679 (95.7%) schools with 33,496 primary levels, 14,696 lower secondary levels and 33,657 basic levels, 8,977 secondary levels, 3,226 higher secondary levels and 8,994 comprehensive secondary levels are reported at the end of the school year 2015-016 by the reference date (5th.April 2014) of Flash II school census (See Annex: II). In total 1,158³ (3.3%) non-reported schools (especially institutional schools) within the prescribed time are also

³ The status of reported beyond the time-line will be incorporated in the final version of this report.

reported beyond the prescribed data of Flash II school census, which are not analyzed in this report. The status of reporting shows that the lowest reporting (82.7%) has been observed in the Kathmandu valley compared to other eco-belts. This indicates that each individual school, RC and DEO should put more efforts to encourage and strengthen schools to report their data within the given time table in the future (See Annex: II).

The Figure 2.4 below presents the percentage distribution of schools by level. Among the eco-belts, the highest percentage of primary level is in the Hill and the lowest is in the Kathmandu valley, which shows that compared to the number of students at primary level the distribution of primary level school is less in the Terai eco-belt.

Table 2.4
Number of schools by eco-belts (in unit and levels in Flash I & II, 2015-016)

School by level and unit	School census	Number of schools by unit and levels				
		Mountain	Hill	Kathmandu Valley	Terai	Total
Total School (Units)	Flash I	4,222	17,571	2,200	10,844	34,837
	Flash II	4,184	17,326	1,819	10,350	33,679
Primary level (Grades 1-5)	Flash I	4,184	17,432	2,064	10,682	34,362
	Flash II	4,153	17,236	1,806	10,301	33,496
Lower secondary level (Grades 6-8)	Flash I	1,613	6,911	1,686	4,881	15,091
	Flash II	1,556	6,969	1,447	4,724	14,696
Basic level (Grades 1-8)	Flash I	4,215	17,519	2,078	10,725	34,537
	Flash II	4,184	17,316	1,816	10,341	33,657
Secondary level (Grades 9-10)	Flash I	802	3,937	1,360	2,869	8,968
	Flash II	785	4,238	1,225	2,729	8,977
Higher secondary level (Grades 11-12)	Flash I	320	1,628	438	1,270	3,656
	Flash II	305	1,650	246	1,025	3,226
Secondary level (Grades 9-12)	Flash I	809	3,988	1,479	2,987	9,263
	Flash II	785	4,247	1,225	2,737	8,994

Figure 2.4
Percentage distribution of schools by eco-belts and levels (in total unit and level)

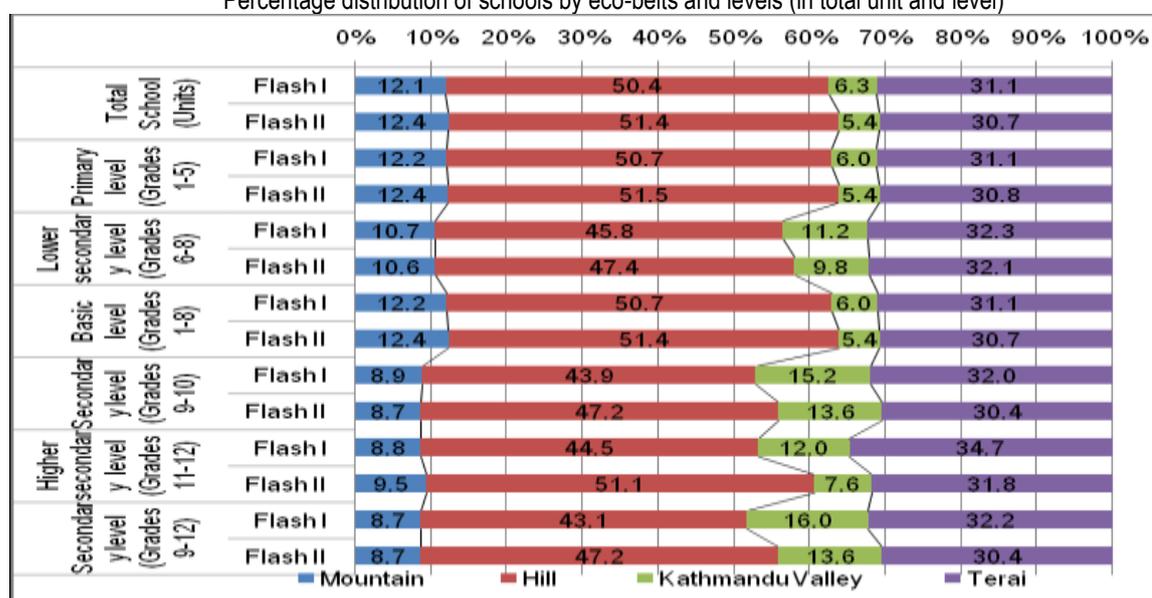

Table 2.5 below presents the matching of each individual school in the beginning of the school year 2015-016 with the school reported in the end of the school year 2015-016. Of the total 34,806 schools in the beginning of the school year, 33,072 (95.0%) schools reported both in the Flash I and II school census. Corresponding with the schools recorded in the Flash I school census 2015-016; almost 4.6% of the same schools didn't report by the reference date of Flash II school census. Among the 4 eco-belts the highest percentage of non-reported schools were found in the Kathmandu Valley. Mostly, the institutional schools did not report their information in time, which caused the under reporting of students and other relevant information.

Table 2.5
Comparison on reported schools in Flash II school census with the recorded schools in Flash I school census 2015-016

Eco-belts	Total number of recorded schools in the school year 2015-016	Number of schools reported both in Flash I & II 2015-016	Number of schools which reported in Flash I but not in Flash II 2015-016	% of non- reported schools in Flash II 2015-016
Mountain	4,222	4,184	38	0.9
Hill	17,571	17,326	245	1.4
Kathmandu Valley	2,200	1,819	381	17.3
Terai	10,844	10,350	494	4.6
Nepal	34,837	33,679	1,158	3.3

Table 2.6 below shows the number of religious schools by types and level. Since the beginning of the school year 2006-07 the DOE initiated to mainstream the religious schools in the country. To this effect, all religious schools need to report to DEOs in the same way as any other recognized schools have been reported both in the Flash I and II school censuses. In consequence, DEOs provide support to these religious schools in the same way as other schools in the country.

A total of 800 religious schools (compared to 895 recorded religious schools in the beginning of the school year 2014-015) reported to Flash II school census at the end of the school year, which is lower than the total number of religious schools in the beginning of the school year. Out of them 793 school levels are primary level, 41 lower secondary levels, 18 secondary levels and 5 are higher secondary levels. The Madarasa schools are mainly found in the Terai belt, Gumbas mainly in Hill and Mountain belts and Ashram mainly in Hill and Terai belts (See Annex: IV).

Table 2.6
Number of reported religious schools by type and level, Flash II 2015-016

Religious Schools	Total (in unit)	Primary level	Lower Secondary level	Basic level	Secondary level	Higher Secondary level	Secondary level
Madarasa	683	683	22	683	10	3	10
Gumba/Vihar	64	64	5	64	1	0	1
Ashram/Gurukul	53	46	14	46	7	2	7
Total	800	793	41	793	18	5	18

Table 2.7 and Figure 2.5 below show the School Student Ratio (SSR)⁴ by levels and eco-belts at the end of the school year 2015-016. This indicator presents the extent of schools' capacity to accommodate the students for the regular teaching learning activities. The national average

⁴ This indicator is calculated by taking the total number of schools by level and total number of students in the respective school level.

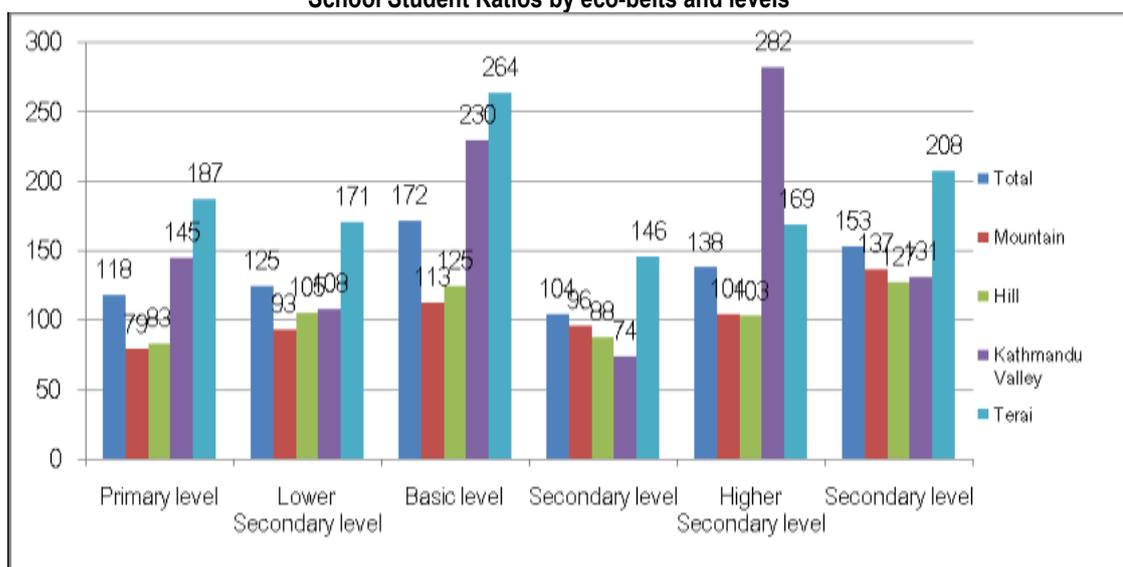

of School Student Ratio at primary level is 1:128, which is almost 2 percent points higher than the School Student Ratio in the beginning of the school year (i.e. 1:126). That is, on average, a primary level school is serving 128 students. Similarly, the School Student Ratio at lower secondary level is 1:124 and at basic education level it is 1:179. Likewise, the School Student Ratio at secondary level (Grades 9-10) is 1:104, at the higher secondary level 1:130 and at the secondary level (Grades 9-12) it is 1:153. Compared to the beginning of the school year 2015-016, the School Student Ratios are higher in all levels in the end of the school year 2015-016, indicating, among others, the effects of earthquake on schools to delayed reporting.

Table 2.7
School Student Ratios by eco-belts and levels

Eco-belts	Primary level	Lower Secondary level	Basic level	Secondary level	Higher Secondary level	Secondary level
Mountain	79	93	113	96	104	137
Hill	83	105	125	88	103	127
Kathmandu Valley	145	108	230	74	282	131
Terai	187	171	264	146	169	208
Total	118	125	172	104	138	153

Figure 2.5 below depicts the status of School Student Ratios by level and eco-belts in the end of the school year 2015-016. The highest School Student Ratios are found in the Terai at all levels except the higher secondary level in which Kathmandu Valley has the highest SSR (for instance, 282 in the Valley compared to 169 in the Terai). Terai is the only eco-belt which has higher rates than the national average at all levels. The lowest School Student Ratios vary by level within the eco-belts.

Figure 2.5
School Student Ratios by eco-belts and levels

2.3. Student

Indicator 1: Students currently in schools by grade and gender

a) Student at basic level by grade and gender

Both Table 2.8 and Figure 2.6 below show the grade-wise composition of enrolment at primary, lower secondary and basic levels in the beginning of the school year 2015-016. The grade-wise enrolment at the primary level shows that the trend of the highest share of Grade One in total enrolment is continuing. However, the grade-wise composition of enrolment shows a positive sign, indicating that the difference in shares within the primary level's grades is narrowing down (i.e. 24.7% in Grade One and 17.6% in Grade Five in the current school year compared to 33.8% in Grade One and 14.4% in Grade Five in 2004-05). The continuous progress in the internal efficiency of primary education with regard to grade-wise higher promotion, and lower repetition and drop-out rates appears to contribute to narrowing the gaps in the share of enrolment among all grades of primary level.

Table: 2.8
Grade-wise composition of enrolment at the basic level in the beginning of the school year, Flash I 2015-016

Grade	Girls	Boys	Total	Share of girls by grades and levels	Grade-wise share in total enrolment by levels	Grade-wise share in total enrolment of basic education
Grade 1	530,176	523,648	1,053,824	50.3	24.7	17.2
Grade 2	441,675	430,137	871,812	50.7	20.4	14.2
Grade 3	417,718	399,481	817,199	51.1	19.2	13.3
Grade 4	392,095	379,661	771,756	50.8	18.1	12.6
Grade 5	383,722	366,629	750,351	51.1	17.6	12.2
Grades 1-5	2,165,386	2,099,556	4,264,942	50.8	100.0	69.6
Grade 6	324,766	321,774	646,540	50.2	34.7	10.6
Grade 7	308,237	299,326	607,563	50.7	32.6	9.9
Grade 8	311,813	296,957	608,770	51.2	32.7	9.9
Grades 6-8	944,816	918,057	1,862,873	50.7	100.0	30.4
Total (G. 1-8)	3,110,202	3,017,613	6,127,815	50.8		100.0

Out of total enrolment at basic level (Grades 1-8) 17.2% of students are in Grade One and 14.2% in Grade Two. Likewise, 12.2% and 9.9% of students are in Grades Five and Eight respectively. The grade-wise composition at the basic level shows that almost 31% (compared to 32% in the last school year) of the total numbers of students are in Grades One and Two. From a gender perspective, the composition of grade-wise enrolments is fairly balanced and the data shows that gender parity has been achieved in all grades at the basic level (See Flash I 2015-016 Annex: VI & XXX).

However, it is still a huge challenge to improve the progression rates so that all children admitted in Grade One are retained, progress through the grades efficiently and complete the basic education with an acceptable level of learning as stated in the basic level curriculum,

contributing to achieve universal basic education (UBE) within the specified/stipulated time period.

Figure 2.6
Grade wise composition of enrolments at basic level

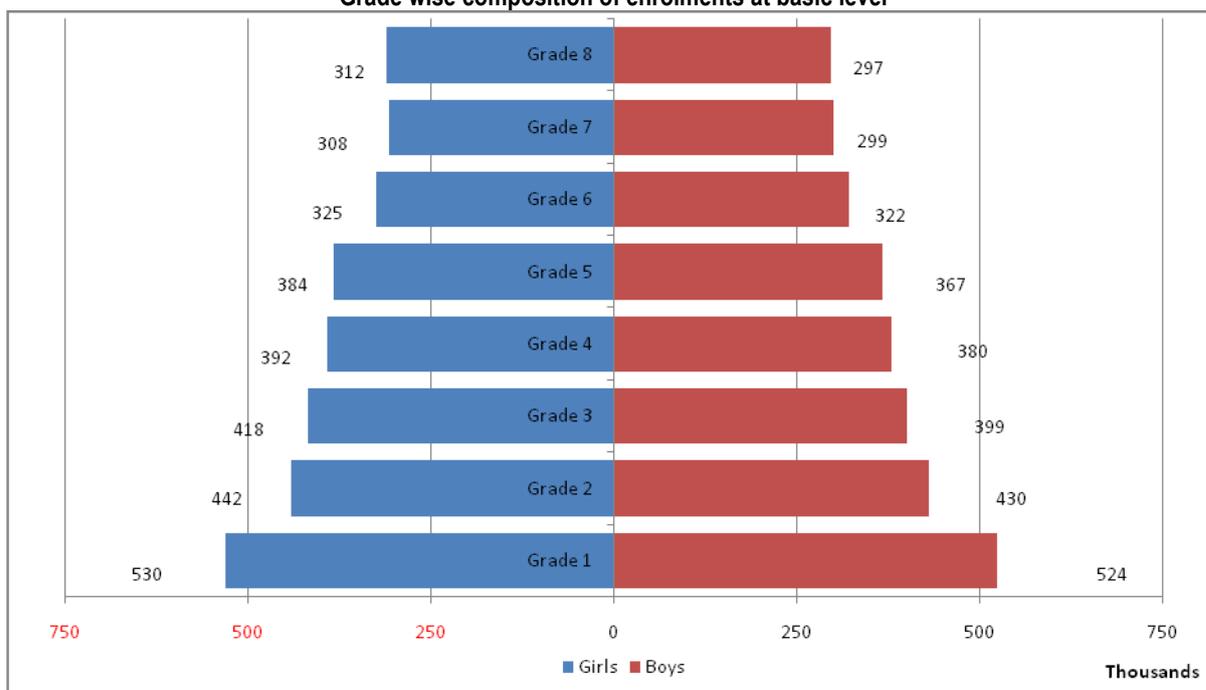

Table 2.9 and Figure 2.7 below show the grade-wise composition of students at primary, lower secondary and basic levels in the end of the school year 2015-016. The total number of students reported in Flash II school census 2015-016 at primary, lower secondary and basic levels are: 4,217,697; 1,731,504 and 5,949,201 respectively. Compared to the beginning of the school year 2015-016 there are 25 districts, which have shown a decrease in enrolments at the primary level by more than 3 percentage points, of these the districts namely; Manang, Siraha, Saptari, Surkhet, Jumla, Taplejung and Parsa have shown a decrease in primary level students by more than 9 percentage points at the end of the school year 2015-016.

In addition to this analysis, the school wise comparative analysis on enrolment in the beginning of the school year (Flash I school census 2015-016) and the end of the school year (Flash II school census 2015-016) depicts that there are 6,306 schools which have slight increase in enrolment, whereas there are 11,409 schools with no change in the enrolment and 15,159 schools which have decreased enrolment at the end of the school year.

The grade-wise student at primary level reveals that the trend of highest share in Grade 1 in total student is continuing. But as it is stated in Table 2.8 and Figure 2.6, the difference of shares within the primary level's grades is narrowing down. The continuous progress on grade-wise higher retention rates at the end of the school year seems to contribute to narrow the gaps in the share of students in all grades for primary level (See Annex: V). At the lower secondary level also, same pattern is observed in the grade-wise share of student in total (See Annex: XII).

Out of total students in basic level (Grades 1-8) over one fifth (17.3%) of students is in Grade one and 14.3% in grade two. Likewise, 12.5% and 9.5% of students are in grades five and eight respectively, i.e. almost one third of the total numbers of students are in grades one and two. From a gender perspective the composition of grade-wise students is fairly balanced at all levels (See Table 2.9).

Table 2.9
Grade-wise composition of students at basic level at the end of the school year, Flash II, 2015-016

Grades	Girls	Boys	Total	Share of girls by grade and level	Grade wise share in total students at primary and lower secondary levels	Grade wise share in total students at Basic level
Grade 1	460,527	467,466	927,993	49.6	23.5	16.0
Grade 2	396,301	392,086	788,387	50.3	20.0	13.6
Grade 3	388,849	382,630	771,479	50.4	19.6	13.3
Grade 4	372,842	358,434	731,276	51.0	18.5	12.6
Grade 5	369,656	353,563	723,219	51.1	18.3	12.5
Grade 1-5	1,988,175	1,954,179	3,942,354	50.4	100.0	68.2
Grade 6	306,652	306,502	613,154	50.0	33.3	10.6
Grade 7	308,000	299,046	607,046	50.7	33.0	10.5
Grade 8	315,041	305,531	620,572	50.8	33.7	10.7
Grade 6-8	929,693	911,079	1,840,772	50.5	100.0	31.8
Total (Grade 1-8)	2,917,868	2,865,258	5,783,126	50.5		100.0

Figure 2.7
Grade wise composition of students at basic level at the end of the school year 2015-016

Tables 2.10, 2.11 and Figure 2.8 below show the number of Dalit and Janajati students reported in the Flash II school census 2015-016 and the comparison on the grade-wise share of students between the beginning and the end of the school year 2015-016 in view of total students at basic level. Overall, the share of Dalit students in total students at primary level has slightly changed at the end of the school year as compared to the beginning of the school year 2015-016 (i.e. from 19.9% in Flash I to 19.1% in the Flash II 2015-016), whereas there is also slight decrease in the share of Janajati students both in primary and lower secondary levels by 0.3% and 0.7% at the end of the school year. As stated earlier (See Table 2.9), the decrease in students at primary level is more in other students' category than in the Dalit and Janajati students' categories.

Table 2.10
Dalit students at basic level by grade and gender in Flash II 2071 and percentage of grade-wise Dalit students in total students in Flash I and Flash II school census 2015-016

Grade	Student in Flash II 2015-016			Share of Dalit in total Student	
	Girls	Boys	Total	In Flash I	In Flash II
Grade 1	101,166	99,321	200,487	21.7	21.6
Grade 2	80,953	78,677	159,630	20.5	20.2
Grade 3	76,659	73,832	150,491	19.6	19.5
Grade 4	69,525	65,469	134,994	18.6	18.5
Grade 5	64,395	60,767	125,162	17.2	17.3
Grade 1-5	392,698	378,066	770,764	19.7	19.6
Grade 6	49,311	47,531	96,842	15.8	15.8
Grade 7	44,882	42,127	87,009	14.3	14.3
Grade 8	41,233	39,451	80,684	13.1	13.0
Grade 6-8	135,426	129,109	264,535	14.4	14.4
Total (Grade 1-8)	528,124	507,175	1,035,299	18.1	17.9

Table 2.11
Janajati students at basic level by grade and gender in Flash II 2071 and percentage of grade-wise Janajati students in total students in Flash I and Flash II school census 2015-016

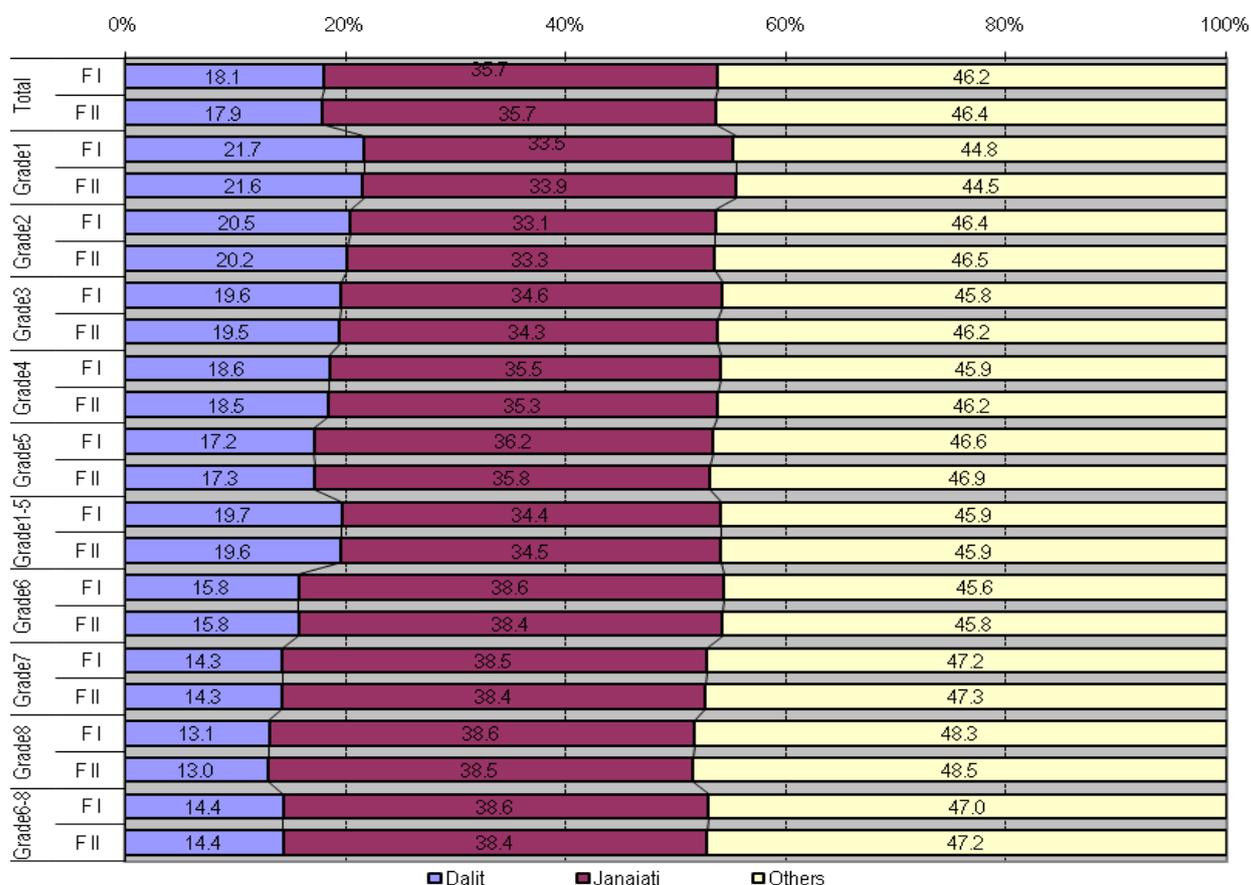

Grade	Student in Flash II 2015-016			Share of Janajati in total student	
	Girls	Boys	Total	In Flash I	In Flash II
Grade 1	155,303	159,650	314,953	33.5	33.9
Grade 2	129,535	132,662	262,197	33.1	33.3
Grade 3	132,587	132,341	264,928	34.6	34.3
Grade 4	129,574	128,416	257,990	35.5	35.3
Grade 5	131,327	127,690	259,017	36.2	35.8
Grade 1-5	678,326	680,759	1,359,085	34.4	34.5
Grade 6	120,164	115,483	235,647	38.6	38.4
Grade 7	120,988	111,824	232,812	38.5	38.4
Grade 8	125,499	113,648	239,147	38.6	38.5
Grade 6-8	366,651	340,955	707,606	38.6	38.4
Total (Grade 1-8)	1,044,977	1,021,714	2,066,691	35.7	35.7

The district level analysis shows variation in the numbers of Dalit and Janajati students by district to district. Compared to the beginning of the school year, there are 10 districts –Humla, Bajhang, Achham, Banke, Rasuwa, Bardiya, Doti, Parsa, Taplejung, and Jumla, which show a decrease in the share of Dalit students by more than 12% points at the primary level and 9 districts-Sindhupalchok, Mugu, Dailekh, Morang, Rolpa, Taplejung, Banke, Dolpa and Bardiya show a decrease in Dalit enrolment at lower secondary level by 13% points at the end of the school year.

Similarly, altogether 10 districts: Manang, Jajarkot, Bajhang, Bajura, Bardiya, Parsa, Gulmi, Rupandehi, Jumla and Taplejung show a decrease in the share of Janajati students by more

than 8% points at the end of the school year in total students at the primary level. likewise, 7 districts- Kanchanpur, Banke, Sarlahi, Rukum, Palpa, Syangja and Kavrepalanchok show a decrease in lower secondary level students by more than 15% points at the end of the school year 2015-016 (See Annex: V, VI, VII, XII, XIII & XIV).

Figure 2.8
Grade-wise Share of students by Dalit and Janajati students in total students at basic level, Flash I and Flash II school census 2015-016

Similarly, the Figure 2.8 above shows the percentage of Dalit and Janajati students in total students by grade at the end of the school year 2015-016. Compared to the percentage of Dalit and Janajati students in total students in the beginning of the school year, the percentage of Dalit and Janajati students in total students has slightly changed at the end of the school year at all levels (See Annex: XI_A&B).

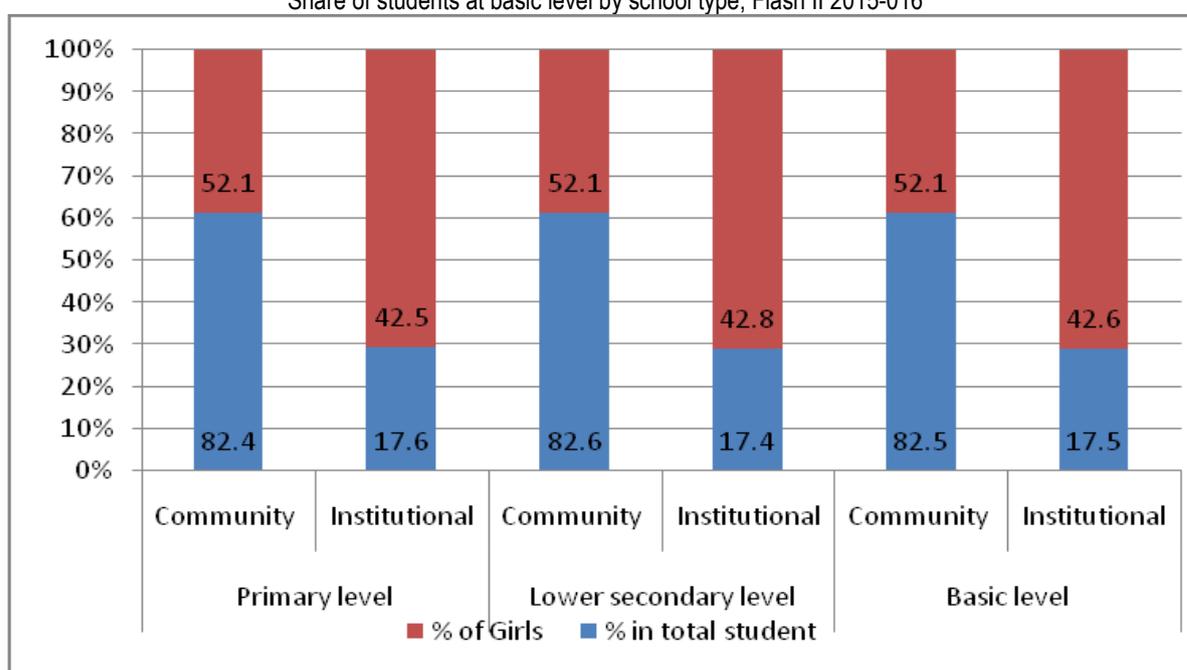

Table 2.12 and the Figure 2.9 below present the number and percentage of students enrolled by type of schools at the end of the school year at primary, lower secondary and basic levels. The shares of students in community schools and institutional schools at primary level are 86.8% and 13.2% respectively. Similarly, at the lower secondary level the share of students in community schools is 83.7%; while it is 16.3% in institutional schools in the total number of students. Overall, at the basic level the share of students in community schools is 85.9%; whereas it is 14.1% in institutional schools in the total number of student. Compared to the beginning of the school year, the shares of students in the institutional schools have slightly decreased at primary and basic level, whereas it has slightly increased at the lower secondary level at the end of the school year. Compared to the boy students, the share of girl students is higher in community schools, whereas the share of girls is low in institutional schools. This low share of girls in institutional schools is also observed at the beginning of the school year.

The share of students in institutional schools at the end of the school year has slightly changed as compared to the beginning of the school year. It shows the under reporting of institutional schools in many districts at the end of the school year (Flash II 2015-016), resulting in the decrease of students in this type of schools (See Annex V, VIII, IX, XII, XV and XVI).

Table 2.12
Number and percentage of students at basic level by school type and gender, Flash II 2015-016

Students	Primary level			Lower secondary level			Basic level		
	Community	Institutional	Total	Community	Institutional	Total	Community	Institutional	Total

Figure 2.9
Share of students at basic level by school type, Flash II 2015-016

The Table 2.13 below shows the number of students by types of religious schools (Madarasa, Gumba and Ashram) at primary, lower secondary and basic levels based on reporting in the Flash II school census 2015-016. In total 91,351 at primary level, 2,065 at lower secondary level and 93,416 students at basic level are reported in all types of religious schools at the end of the school year 2015-016; of this, at the basic level 88,262 students are in Madarasa schools, 2,399 students are in Gumba schools and 2,755 students are in Ashram schools at the end of the school year (See Annex: X_A-B and XVII_A-D).

A notable statistic is the uneven share of girls in these types of schools with 54.8% girls in Madarasa schools, 39.6% in Gumba schools and 29.9% in Asharam schools at the basic level. The share of students in total students in these types of schools is higher at primary level and lower is at lower secondary level. Furthermore, the share of students in religious schools in total is 2.2% at primary level, 0.1% at lower secondary level and 1.6% at basic level respectively.

Table 2.13
Students in Madarasa, Gumba and Aashram schools at basic level, Flash II 2015-016

Types of religious schools	Primary level			Lower secondary level			Basic level		
	Girls	Boys	Total	Girls	Boys	Total	Girls	Boys	Total
Madarasa	47505	39334	86839	888	535	1423	48393	39869	88262
Gumba	936	1403	2339	13	47	60	949	1450	2399
Ashram	745	1428	2173	80	502	582	825	1930	2755

% in total student	2.3	2.0	2.2	0.1	0.1	0.1	1.7	1.5	1.6

b) Student at secondary and higher secondary levels by grade and gender

The student figures related to the secondary level (Grades 9-12) with the disaggregation of secondary level (Grades 9-10) and higher secondary level (Grades 11-12) presented in this report are based on the reported schools at the end of the school year to Flash II school census 2015-016. In total, at the end of the school there are 935,410 students at the secondary level (Grades 9-10), 443,868 students at the higher secondary level (Grades 11-12) and altogether 1,379,278 students at the secondary level (Grades 9-12) are presented in the following Table 2.14 and Figure 2.10. Compared to the beginning of the school year 2015-016 there are slight changes in the grade wise composition of students at the end of the school year 2015-016. The student pattern in Flash I and II is almost same at both levels (See Annex: XII).

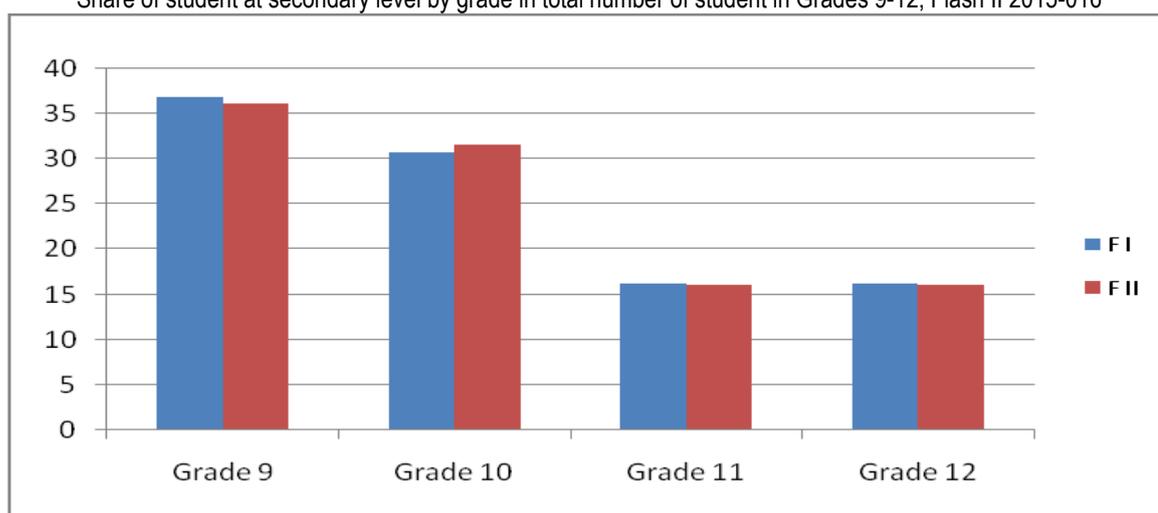

Table 2.14
Total student at secondary and higher secondary levels by grade and gender in Flash II and the percentage of grade wise student in total student, Flash I 2015-016 and Flash II 2015-016

Grade	Student in Flash II 2015-016			Share of student in total student, Flash I 2015-016		Share of student in total student, Flash II 2015-016	
	Girls	Boys	Total	Flash I by level	Flash I in secondary level (Grade 9-12)	Flash II by level	Flash II in secondary level (Grade 9-12)
Grade 9	256,324	243,010	499,334	54.5	36.8	53.4	36.2
Grade 10	226,906	209,170	436,076	45.5	30.7	46.6	31.6
Grade 9-10	483,230	452,180	935,410	100.0	67.6	100.0	67.8
Grade 11	111,286	110,718	222,004	50.0	16.2	50.0	16.1
Grade 12	113,491	108,373	221,864	50.0	16.2	50.0	16.1
Grade 11-12	224,777	219,091	443,868	100.0	32.4	100.0	32.2
Grade 9-12	708,007	671,271	1,379,278	-	100.0		100.0

Furthermore, the analysis shows that in the beginning of the school year at secondary and higher secondary levels, the school student ratio was 1:102 and 1:116 respectively, where as these ratios are 1:104 and 1:130 in the end of the school year (See Table: 2.7). It indicates the school student ratio in both levels has increased in the end of the school year. Overall, due to the delay on reporting of 810 secondary and higher secondary schools (especially institutional schools) almost 6.3% student in secondary level and 13.2% student in higher secondary level have decreased in the end of the school year.

Figure 2.10

Share of student at secondary level by grade in total number of student in Grades 9-12, Flash II 2015-016

The Table 2.15 below shows the share of Dalit students at secondary and higher secondary levels in the beginning and end of the school year 2015-016 in total students. Compared to the beginning of the school year the share of Dalit students at secondary level has decreased by 0.1%, whereas at the higher secondary level it has remained almost similar at the end of the school year. Overall, compared to the beginning of the school year the grade wise shares of Dalit students in total students at the both secondary and higher levels have remained almost same at the end of the school year 2015-016 (See Annex XII, XIII & XVIII).

Table 2.15

Dalit student at secondary and higher secondary levels by grade in Flash II 2015-016 and the percentage of grade wise Dalit student in total student in Flash I 2015-016 and Flash II 2015-016

Grade	Student in Flash II 2015-016			Share of Dalit in total student	
	Girls	Boys	Total	In Flash I	In Flash II
Grade 9	28,884	28,737	57,621	11.6	11.5
Grade 10	22,356	22,374	44,730	10.3	10.3
Grade 9-10	51,240	51,111	102,351	11.0	10.9
Grade 11	6,938	7,971	14,909	6.7	6.7
Grade 12	6,654	7,675	14,329	6.5	6.5
Grade 11-12	13,592	15,646	29,238	6.6	6.6
Grade 9-12	64,832	66,757	131,589	9.6	9.5

Similarly, the Table 2.16 below shows the status of Janajati students at secondary and higher secondary levels in the beginning and end of the school year 2015-016. Compared to the beginning of the school year, the number of students at the end of the school year has decreased by merely 0.1 percent point at the end of the school year 2015-016 (See Annex XII, XIV & XVIII). Like Dalit students, the share of Janajati students in total students at both secondary and higher secondary levels have remained same in all grades (Grades 9 to 12) at the end of the school year.

Table 2.16

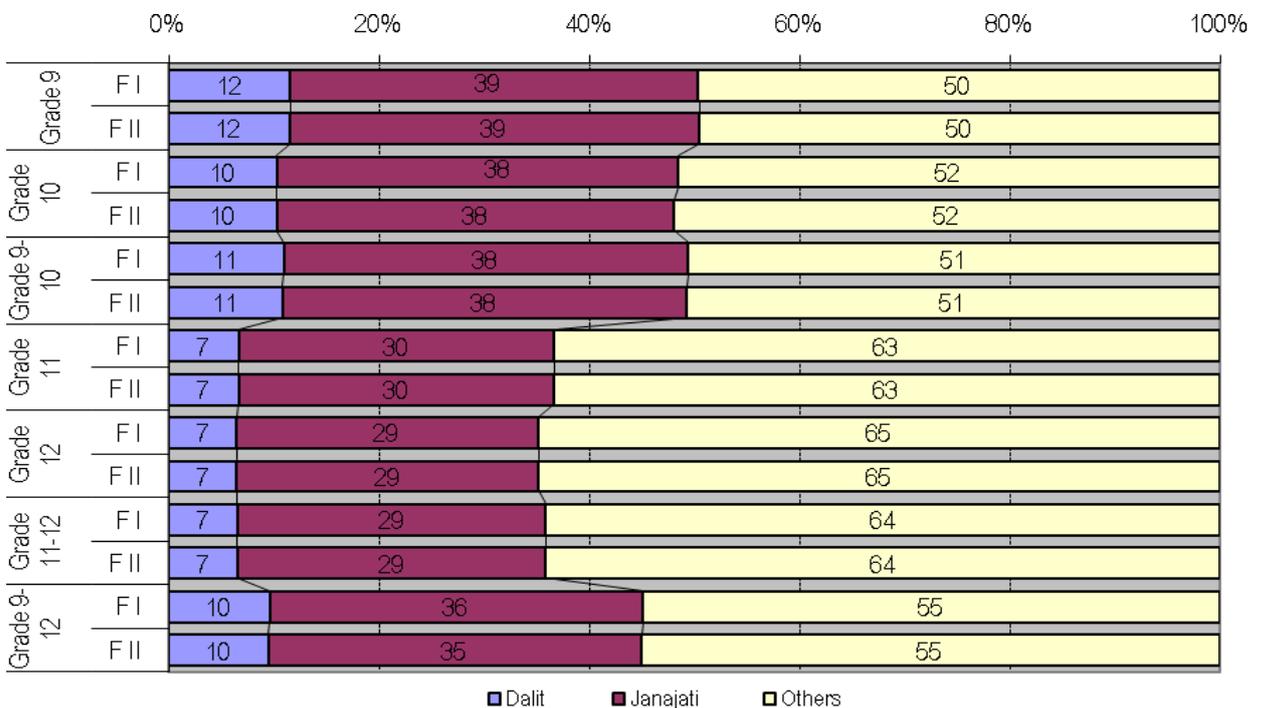

Janajati students at secondary and higher secondary levels by grade in Flash II 2015-016 and the percentage of grade wise Janajati students in total students in Flash I 2015-016 and Flash II 2015-016

Grade	Students in Flash II 2015-016			Share of Janajati in total student	
	Girls	Boys	Total	In Flash I	In Flash II
Grade 9	102,431	91,583	194,014	38.7	38.9
Grade 10	88,738	75,773	164,511	38.1	37.7
Grade 9-10	191,169	167,356	358,525	38.4	38.3
Grade 11	34,620	31,823	66,443	29.9	29.9
Grade 12	34,005	29,581	63,586	28.6	28.7
Grade 11-12	68,625	61,404	130,029	29.3	29.3
Grade 9-12	259,794	228,760	488,554	35.5	35.4

Overall, due to the delay on reporting of 810 secondary and higher secondary schools (especially institutional schools) 4.5% student at secondary level and 2.7% student at higher secondary level have decreased in the end of the school year (See Table 2.14), whereas the shares of Dalit and Janajati students in total students have remained almost same as in the beginning of the school year. The analysis of the students by social categories illustrate that, compared to the community schools the share of Dalit and Janajati students in institutional schools are low, indicating the decrease in total students due to the other category than the Dalit and Janajati categories.

Likewise, the Figure 2.11 below shows the comparison on shares of students by Dalit and Janajati at secondary and higher secondary levels in Flash I and Flash II 2015-016 in total students (See Annex: XVIII).

Figure 2.11
Share of student at secondary and higher secondary levels by Dalit and Janajati in total student, Flash I 2015-016 and Flash II 2015-016

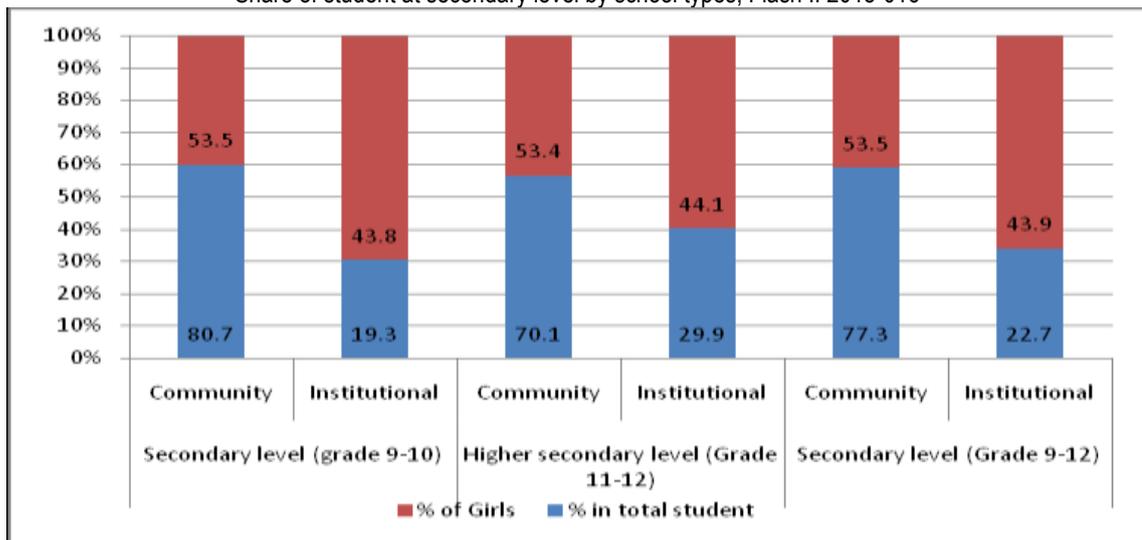

The Table 2.17 and the Figure 2.12 below present the number and percentage of students in total student by types of schools at secondary and higher secondary levels at the end of the school year 2015-016. The share of students in community schools and institutional schools at secondary level is 80.7% and 19.3% respectively. Similarly, at the higher secondary level the share of student is 70.1% and 29.9% in community schools and institutional schools (See Annex XII, XV, XVI & XVIII).

As compared to the share of student in institutional schools at the both levels in the beginning of the schools year 2015-016, the shares of students in the institutional schools have increased. Compared to the institutional schools, the share of girl students is higher in community schools. This low share of girls in institutional schools is same as in the beginning of the school year.

Table 2.17
Number and percentage of student at secondary level by school type and gender, Flash II 2015-016

Students	Secondary level (Grades 9-10)			Higher secondary level (Grades 11-12)			Secondary level (Grades 9-12)		
	Community	Institutional	Total	Community	Institutional	Total	Community	Institutional	Total
Girls	404,240	78,990	483,230	166,268	58,509	224,777	570,508	137,499	708,007
Boys	350,758	101,422	452,180	145,033	74,058	219,091	495,791	175,480	671,271

Figure 2.12
Share of student at secondary level by school types, Flash II 2015-016

The Table 2.18 below shows the number of students by types of religious schools (Madarasa, Gumba and Ashram) at secondary and higher secondary levels. Overall 407 students are reported at the secondary level (Grades 9-12), of these 387 students at secondary level in all types of religious schools, whereas it is only 20 students at the higher secondary level at the end of the school year 2015-016. Out of the total students at secondary level (Grades 9-10) there are 161 students in Madarsa and 246 students are in Ashram schools, whereas there is not

any students reported in Gumba schools at both secondary and higher secondary levels (See Annex X_A-B).

Table 2.18
Student in Madarasa, Gumba and Aashram schools at secondary and higher secondary levels, Flash II 2015-016

Types of religious schools	Secondary level (Grades 9-10)			Higher secondary level (Grades 11-12)			Secondary level (Grades 9-12)		
	Girls	Boys	Total	Girls	Boys	Total	Girls	Boys	Total
Madarasa	83	78	161	0	0	0	83	78	161
Gumba	0	0	0	0	0	0	0	0	0

% in total student	0.03	0.06	0.04	0.00	0.01	0.00	0.02	0.05	0.03

Indicator 2: Students appearing in the final examinations

The main purpose of this indicator is to assess the effectiveness and performance of the school education system by analysing its performance in terms of students' retention through a full school year and the number of students appeared in the final examination.

Table 2.19 below shows the percentage of students, who appeared in the final examination at the end of the school year compared to the total number of students who still attended schools at the end of the school year 2015-016 at primary and lower secondary levels. The table shows that in total 92.2% (compared to 89.3% in the last school year) of students at the primary level appeared in the final examination (See Annex XIX).

Table 2.19
Percentage of students appeared in the final exam at primary and lower secondary levels, Flash II, 2015-016

Grade	% of students appearing in the exam		
	Girls	Boys	Total
1	85.3	83.9	84.6
2	92.2	93.1	92.7
3	94.5	93.6	94.1
4	94.8	93.8	94.3
5	94.9	94.5	94.7
Total in 1-5	92.4	91.8	92.1
6	93.0	92.1	92.5
7	92.6	91.3	92.0
8	93.2	92.2	92.7
Total in 6-8	92.9	91.9	93.4

The examination appearance rate for Grade one is 84.8% (compared to 82.7% in the last school year) (See Table 2.19), which is more than 2.0% percent points higher than in the last school year. However, it is noticeably lower than the examination appearance rates of other grades. Hence, almost 15.0% of the students or almost one among every seven students enrolled in grade one did not appear in the final examination at the end of school year. This has obvious implication on the internal efficiency of school education. In order to achieve the universal primary/basic education, this underlines the need of all students enrolled in grade one to continue for eight years and complete basic education with reasonable learning outcomes. In particular, it is essential to focus on improving the performance and internal efficiency of each school by enabling schools to track each child in grade one to ensure that every child graduates from primary/basic school well prepared for secondary school, with a vision for EFA 2015 and beyond.

Similarly, at the lower secondary level (Table 2.19), out of the total number of students in the beginning of the school year, in total 93.7% (compared to 92.4% in the last school year) with 94.3% girls and 93.1% boys appeared in the final examination in the end of the school year 2015-016 (See Annex XXII). Overall, at the lower secondary level the percentage of students appeared in the final examination is slightly increased than in the last school year 2013-014.

Hence, almost one student out of every 13 students did not appear in the final examination. In both primary and lower secondary levels, it is worth mentioning that the percentage of students appeared in the final examination is higher for the girls than the boys. The analysis shows that in terms of retention, with 93.7 percent in grades VI-VIII and 92.2 percent in grades I-V appearing in the final examination, the effectiveness of the students' performance is more pronounced for students in lower secondary level as compared to students in primary level. The analysis on the percentage of students appeared in the final exam at primary level shows that compared to the national average (92.2%) the highest percentage (95.8%) of students appeared in the final examination in the Kathmandu Valley, whereas the lowest percentage (91.3%) of students appeared in the final examination in the Mountain eco-belt.

Table 2.20 below shows the percentage of Dalit students who appeared in the final examination at the end of the school year compared to the total number of students who still attended school at the end of the school year at primary and lower secondary levels. The Table shows that in total 88.9% (compared to 86.5% in the last school year) of all students appeared in the final examination at primary level (See Annex XX). The examination appearance rate for grade one is 82.1% (See Table 2.20), which is 1.3% points higher than in the last school year but it is markedly lower than the exam appearance rate for the other grades and total students. Hence, as in the total students almost 18% of the students – or almost one of every five Dalit students - enrolled in grade one did not appear in the final exam at the end of school year.

Similarly, at the lower secondary level, out of the total number of students in the beginning of the school year in total 89.9% (compared to 88.2% in the last school year) with 90.1% girls and 89.7% boys appeared in the final examination at the end of the school year 2015-016 (See Annex XXIII). Overall, at the lower secondary level the percentage of students appeared in the final examination has increased than in the last school year 2013-014 (88.2%). Hence, more than one student out of every 10 students did not appear in the final examination. In both primary and lower secondary levels, the percentage of Dalit students appeared in the final examination is lower than the percentage of students appeared in the final examination for total students. It is imperative to enable each school to perform far better with a goal to

achieve equality in education by ensuring that no child drops out or repeats, rather all children learn well and complete basic education with a satisfactory level of outcomes/results.

Table 2.20
Percentage of Dalit students appeared in the final exam at primary and lower secondary levels, Flash II 2015-016

Grade	% of students appearing in the exam		
	Girls	Boys	Total
1	83.4	81.9	82.6
2	89.5	90.3	89.9
3	90.7	90.2	90.5
4	92.1	90.6	91.4
5	90.4	90.4	90.4
Total in 1-5	89.2	88.7	89.0
6	89.3	88.8	89.1
7	88.4	87.8	88.1
8	90.1	90.3	90.2
Total in 6-8	89.3	89.0	89.1

Table 2.21 below shows the percentage of Janajati students who appeared in the final examination at the end of the school year compared to the total number of students who retained up to the end of the school year at primary and lower secondary levels. The table shows that in total 91.0% (compared to 89.6% in the last school year) of all students appeared in the final examination at primary level (See Annex XXI). The exam appearance rate for Grade one is 84.7% (Table 2.21), which is almost 0.2% points higher than in the last school year and also it is markedly lower than the exam appearance rate for the other grades. Hence, as in the total students almost 15% of the students enrolled in Grade one did not appear in the final exam at the end of school year. It is a huge challenge to ensure that every classroom, especially grade one has the best teacher to foster a child friendly and inclusive environment to achieve universal primary/basic education.

Table 2.21
Percentage of Janajati students appeared in the final exam at primary and lower secondary levels, Flash II, 2015-016

Grade	% of students appearing in the exam		
	Girls	Boys	Total
1	85.0	83.6	84.3
2	90.9	91.4	91.2
3	93.1	92.1	92.6
4	92.8	91.4	92.1
5	92.9	91.7	92.3
Total in 1-5	91.0	90.0	90.5
6	91.3	90.0	90.7
7	91.0	89.3	90.2
8	92.2	91.5	91.9
Total in 6-8	91.5	90.3	90.9

Similarly, at the lower secondary level (Table: 2.21), out of the total number of Janajati students in the beginning of the school year in total 90.9% (compared to 90.3% in the last

school year) with 91.5% girls and 90.3% boys appeared in the final examination at the end of the school year 2015-016 (See Annex XXIV). Overall, at the lower secondary level the percentage of students appeared in the final examination is slightly increased than in the last school year 2013-014 (90.3%). At the primary level the percentage of Janajati students appeared in the final examination is higher than the percentage of students appeared in the final examination for Dalit students (89.1% - Table 2.20).

Table 2.22 below shows the percentage of students appearing in final examination at the secondary level (Grades 9-10) at the end of the school year 2015-016. Overall, out of the total number of students still in school at the end of the school year is 93.8% (compared to 93.6% in the last school year), with 93.8% girls and 93.9% boys at the secondary level appeared in the final examination. At the secondary level out of total students in the beginning of the school year, the percentage of girls appeared in the final examination is higher than the percentage of boys appeared in the final examination at the end of the school year in all grades (See Annex XXII). The analysis shows that the school education system is more successful for the retention of students at the secondary level as compared with students in primary and lower secondary levels.

Table 2.22
Percentage of students appeared in the final exam at secondary level, Flash II, 2015-016

Grade	% of students appearing in the exam		
	Girls	Boys	Total
9	93.2	92.7	92.9
10	94.4	95.1	94.7
Total in 9-10	93.8	93.9	93.8

Compared with the average exam appearance rate of all students at secondary level (93.8%), the exam appearance rate of Dalit students is 90.2% with 90.2% for both girls and boys (Table 2.23). Likewise, the average exam appearance rate of Janajati students is 94.3% with 94.4% girls and 94.3% boys (Table 2.24) at the secondary level. The Flash II 2015-016 school census reveals that the exam appearance rate of girls is higher than that of boys for all categories of the students at the secondary level (See Annex: XXII, XXIII & XXIV), indicating the need to sustain it. Compared to the previous school year the exam appearance rates in current school year 2015-016 are higher for total, Dalit and Janajati students at the secondary level.

Table 2.23
Percentage of Dalit students appeared in the final exam at secondary level, Flash II, 2015-016

Grade	% of students appearing in the exam		
	Girls	Boys	Total
9	89.4	88.2	88.8
10	91.0	92.2	91.6
Total in 9-10	90.2	90.2	90.2

Table 2.24
Percentage of Janajati students appeared in the final exam at secondary level, Flash II, 2015-016

Grade	% of students appearing in the exam		
	Girls	Boys	Total
9	93.9	93.6	93.8
10	94.8	94.9	94.9
Total in 9-10	94.4	94.3	94.3

Indicator 3: Student Attendance

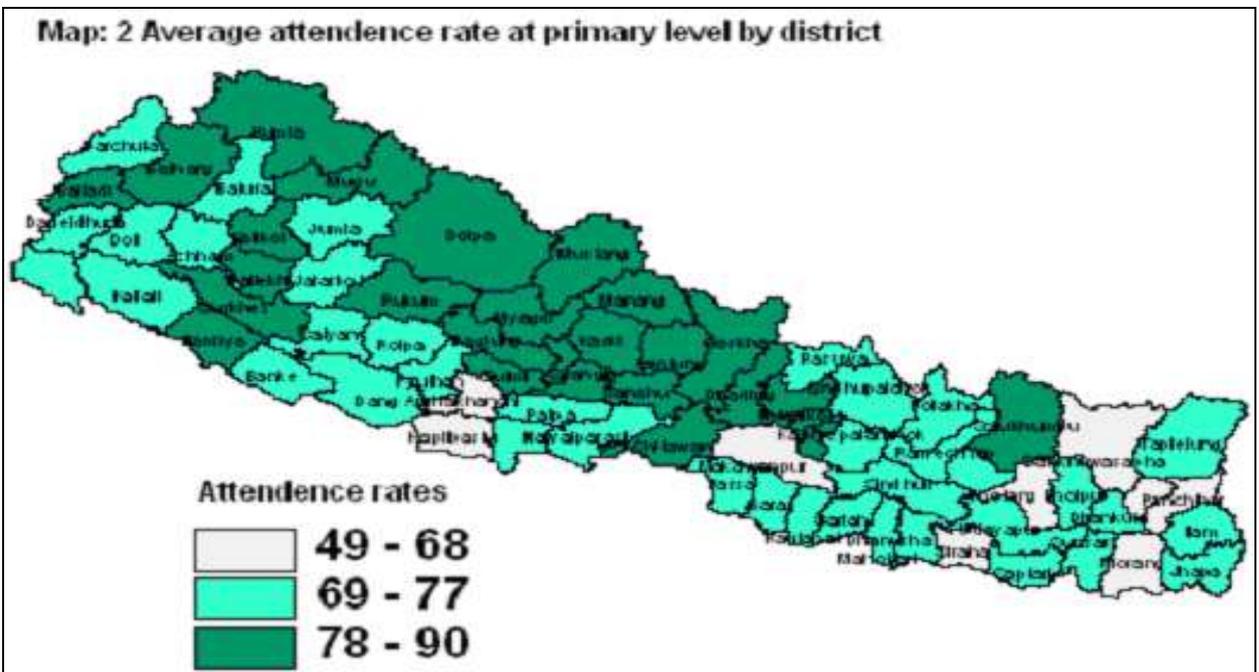

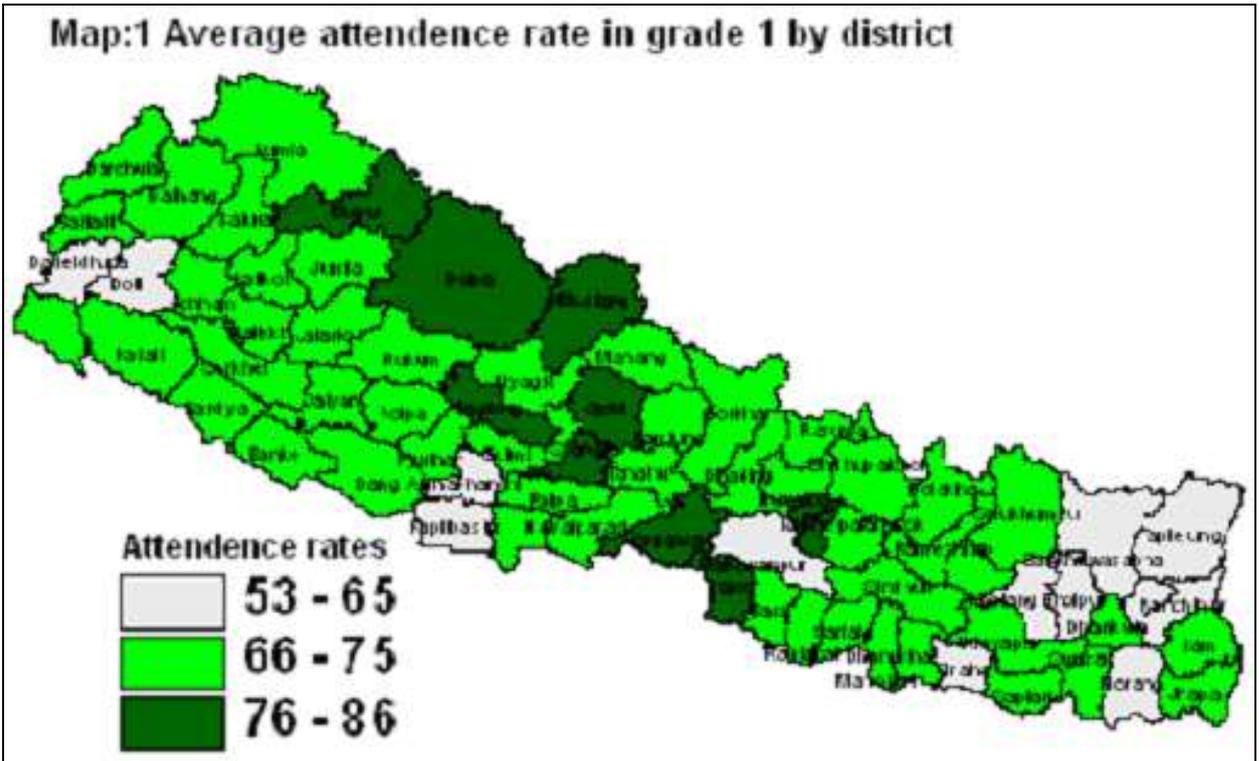

This indicator assesses the regularity of students, including how often students attend in the daily teaching learning activities, and the effectiveness of the operation of schools. Since the last school year the DOE has able to collect the individual student information through the electronic based School Level IEMIS. Based on this mechanism data relating to student attendance also calculated for the whole school year's attendance days of students instead of calculating the aggregated percentage of specific dates of students' attendance rates. The Table 2.25 below shows the student attendance rates of whole school year of 2015-016. The grade-wise and level-wise average attendance rate is calculated by taking the individual students of each school who were enrolled in the beginning of the school year 2015-016. The aggregate average attendance days for all grades is 182 days of this 178 days for primary level, 185 days for lower secondary level and 186 days for secondary level respectively.

Compared to the last school year, the average attendance days have decreased at all level. The reasons behind the decreasing of students' attendance are mainly the effects of earthquakes and the political unrest in the Terai region in the last school year. Compared to other grades at primary level, the average attendance days in grade one (168 days) is comparatively lower than in all other grades (See Annex XXV "A"). The low attendance rates might be a significant contributing factor to the low rates of retention and the low percentage of students being appeared in the final examination (See Table 2.19). In addition, the low attendance rates might affect the overall internal efficiency (i.e., 15.2% of repetition rate and almost 6.5% of dropout rate in Grade 1 in the school year 2015-016) of the whole education system.

Table 2.25
Average attendance rates of students by grade and level on specific dates, Flash II, 2015-016

Development Region	Average attendance Days of students by grade and level in the school year 2015-016													
	1	2	3	4	5	Total 1-5	6	7	8	Total 6-8	9	10	Total 9-10	Total of 1-10
Eastern	163	168	177	184	183	175	182	185	184	184	186	186	186	180
Central	163	169	178	182	184	175	184	187	185	185	187	187	187	181
Western	173	178	185	187	187	182	185	187	185	186	186	186	186	184
Mid-western	169	173	181	183	184	178	183	186	184	185	186	186	186	182
Far-western	170	175	183	185	185	180	184	186	185	185	186	186	186	183
Total	168	173	181	184	185	178	183	186	185	185	186	186	186	182

The following Maps 1 and 2 display the district-wise average attendance rates of Grade 1 and overall primary level students on the three different dates during the school year 2015-016. Moreover, the analysis of the aggregated average attendance rates by school shows that there are 15,241 schools with 100% of student attendance rates and in total 391 schools with almost 50% of student attendance rates. This suggests that the DEOs, RCs, Schools, SMCs and PTAs should have more active co-ordination to improve in the student regularity by improving the internal and external environment of schools and other relevant activities too.

2.4. School Management

This section provides information on school management indicators, which are mainly related to school management and service delivery tasks from the District Education Office to schools.

Indicator 4: Number of schools which received the government fund within two months of each trimester

In the school education sector the government has given more emphasis on disbursing funds to schools in time. Table 2.26 below shows the number of community schools that received

government funds from the DEOs within two months and after two months of the first and second trimesters. Out of the total 29,133 community schools, which responded to the questions related to receiving government funds at the end of the school year, 10.2% (compared to 9.9% in the previous school year) schools in the first trimester and 42.9% (compared to 23.6% in the previous school year) in the second trimester received the government funds within two months of each trimester. The majority of schools received the government funds in the third month of these two trimesters. It was 82.5% schools in the first trimester and 48.5% schools in the second trimester (See Annex XXVI). Compared to the previous fiscal year, the percentages of schools that received government funds within two months have slightly increased in the both first and second trimesters. Based on the practice on budget disbursement, it is important to note that the government has not been able to manage the fund form the starting of the fiscal year, because of this constraint the percentage of schools receiving the fund within the 2nd.month of each trimester is low (especially in the first trimester).

Table 2.26
Schools that received government funds within two months of each trimester, Flash II, 2015-016

Trimester		Trimester period			
		1st and 2nd months	3rd. month	4th.month	Total
First trimester	Number of schools	2,957	23,929	2128	29,014
	Percentage	10.2	82.5	7.3	
Second trimester	Number of schools	12,459	14,063	2,492	29,014
	Percentage	42.9	48.5	8.6	

Indicator 5: Status of School Improvement Plan (SIP) and government grants

Table 2.27 below shows the number and percentage of all community schools with SIPs and those receiving government grants. Out of the total community schools, 98.5% (compared to 93.9% in the last school year) of schools reported that they have a School Improvement Plan (SIP) for their school. By the reference date (April 5, 2014) of Flash II data collection, out of the total 29,133 community schools, 97.9% (compared to 95.9% in the last school year) schools responded to have received all types of government grants for the school year 2015-016 (See Annex: XXVII). Though there is a mandatory provision to all community schools to submit the SIP for the schools grants, the Table 2.27 presents a slight gap between the percentages of schools with SIP and those which received all types of government grants. The indicators relating to schools with SIP and receiving all types of government grants show significant improvement, schools would benefit if their capacity with regard to awareness on different types of funding to schools is enhanced at the school and RC level.

Table 2.27
Status of School Improvement Plan and school grants (all community schools), Flash II, 2015-016

Status of School Improvement Plan and block grants	Number of schools	Percentage of schools
Out of total 29,133 community schools responded for SIP, the % of schools with SIP	28,581	98.5
Out of total 29,133 community schools responded for all types of government funds	28,413	97.9

Indicator 6: Percentage of schools disclosing statement of accounts publicly

Indicator 9: Percentage of schools with completed social audit

These two indicators assess the effectiveness of the school level activities and the changes in terms of transparency and public accountability at the school level.

Table 2.28 below shows the number and percentage of schools that disclosed publicly their statement of accounts and performed a social audit. Compared to the 29,133 community schools, altogether 25,910 schools reported to have disclosed a statement of accounts (income and expenditure reports) to the public by the end of the first week of April 2014⁵. The percentage of schools that performed this activity is 89.3% (compared to 83.7% in the last school year). This percentage is higher by 5.6 percent points than the previous school year. (See Annex XXVII).

Likewise, out of total 29,133 community schools for this questionnaire, in total 27,227 (93.8%) schools performed the social audit regarding all of their academic, administrative, financial and other school level activities during the school year 2015-016, which has increased by 2.8 percent points as compared to the last school year (91.0%) (See Annex XXVII). Hence, it shows there has been a positive development in the context of transparency and public accountability at school level. However, it also shows that more awareness is still needed to make all schools comply with the regulation to disclose publicly their statement of accounts and perform a social audit at the local level on a regular basis.

Table 2.28

Schools having publicly disclosed accounts and having performed a social audit (all community schools), Flash II, 2015-016

Schools	Number of schools	% in total responded community schools
Out of total reported community schools for this questionnaire that disclosed the statement of account publicly	25,910	89.3
Out of total reported community schools for the questionnaire that performed social audit	27,227	93.8

Indicator 7: School operational calendar and average number of school opening days

This indicator assesses the availability of school operational plan to perform the daily teaching learning activities as well as other functions that need to be accomplished efficiently at the school level.

The Table 2.29 below shows the number of schools, which prepared a school operational calendar in the school year 2015-016. Compared to the total responding schools for the question on a school calendar, 92.9% (compared to 89.9% in the last school year) schools prepared a school operational calendar. Similarly, by school type it can be seen that out of the total number of community schools, 93.0% (compared to 89.7% in the last school year) responded to have prepared a school operational calendar, whereas out of the total number of institutional schools that responded, 95.9% (compared to 93.4% in the last school year) have prepared a school operational calendar (See Annex XXVII).

⁵ All schools are required to disclose their statement of accounts to the public by April 2016.

Table 2.29
Schools having prepared an operational calendar by school type, Flash II 2015-016

Types of schools	Schools with calendar	% schools
Out of total schools 34,837 that prepared an operational calendar	32,347	92.9
Out of total community schools that prepared an operational calendar	26,972	93.0
Out of total institutional schools that prepared an operational calendar	5,586	95.9

Table 2.30_A below shows the average number of school opening days for main activities as compared to planned activities, the actual number school opening days for teaching learning activities, examinations, extracurricular activities and other activities in the school year 2015-016 by the reference date of Flash II school census 2015-016. Based on responses of schools, compared to the 227 planned days of school opening days for overall school activities, the average number of actual school opening days was 213 days in the school year 2015-016. Out of total 213 actual days for the activities performed by schools, it can be seen that on an average 174 days were spent for teaching and learning activities; 24 days were spent on examinations and 15 days for extra-curricular and other activities (See Annex: XXVIII_A).

In addition to this, the Table 2.30_B below shows the average times of school supervised and monitored by Resource Persons (RPs), School Supervisors (SSs) and others in the school year 2015-016. The analysis shows that, based on the reporting from 33,679 schools, on an average the schools were monitored by the Resource Persons is 2.5 times, 1.5 times by the School Supervisor and 1.3 times by other persons. It indicates frequency of school visit for the supervision and monitoring proposes seems low in all eco-belts, especially by Resource Persons and School Supervisors, which need to be improved in the coming days (See Annex: XXVIII_B).

Table 2.30_A

Average number of school opening days, teaching learning activities and extra-curricular activities, Flash II, 2015-016

Number of schools responded for school opening days	Average planned days for school operation				Average actual days for school operation			
	Total Opening days	Teaching learning	Examinations	Extra-curricular activities	Total Opening days	Teaching learning	Examinations	Extra-curricular activities
33,679	227	187	24	16	213	174	24	15

Table 2.30_B

Average times of School Monitored by Resource Persons (RPs), School Supervisors (SSs) and Others, 2015-016

Eco-belts	Total responded number of schools	Average times of School Monitoring by		
		Resource Persons (RPs)	School Supervisor (SS)	Others
Mountain	4,184	2.6	1.2	1.0
Hill	17,326	2.6	1.1	1.1
Kathmandu Valley	1,819	2.1	1.1	0.6
Terai	10,350	2.8	1.2	1.2
Total	33,679	2.5	1.5	1.3

Indicator 8: Participation of local people in school management

This indicator presents the status of participation in school management from the local community. It presents the extent and level of people participation in School Management Committee (SMC) and Parents Teacher Association (PTA) composition by gender, Dalit and Janajati at school level.

Table 2.31_A and Figures 2.13 and 2.14 below show the composition of SMC and PTA by gender, Dalit and Janajati. Out of the total 29,133 community schools, 29,014 schools responded that they have formed their SMC and PTA. The participation of parents in SMC by gender, Dalit and Janajati shows 22.1% (21.6% compared to last school year) female members, 11.7% (11.3% compared to last school year) Dalit members and 36.7% (36.0% compared to last school year) Janajati members.

Similarly, the participation of parents in PTA by gender, Dalit and Janajati is 29.1% (27.4% compared to last school year) female members, 14.3% (13.9% compared to last school year) Dalit members and 40.9% (39.0% compared to last school year) Janajati members. Compared to the last school year, the level of participation of Dalit and Janajati is slightly changed in the school year 2015-016, which corresponds to the proportion of the Dalit and Janajati population composition. Out of total SMCs and PTAs, 89.5% of SMCs (compared to the last school year 87.1%) and 90.2% of PTAs (compared to the last school year 86.6%) are formed by common consensus and the rest (10.5% and 9.8% respectively) by an election process (See Annex XXIX_A). The Graphs 2.13 and 2.14 below also present the average status of community people's participation in the School Management Committee and Parent Teacher Association in the school year 2015-016. The district level status shows the shares of female, Dalit and Janajati in SMCs and PTAs vary from district to district.

Moreover, the Table 2.31_B below shows the number of schools by the times of School Management Committees' (SMCs) meetings in all types of community schools in the school year 2015-016. It shows that, out of total 29,133 community schools, 29014 schools that responded to this questionnaire, 1-6 times meetings were held in 11,060 (38.12%) schools, 7-12 times meetings held in 11,161(38.39%) schools, 13-18 times meetings held in 2,971 (10.23%) schools, and more than 18 times meetings held in 992 (3.42%) schools. Similarly, 2,951 (10.14%) schools also reported that they do not have any SMC meeting during the school year 2015-016. The analysis shows that there are significant numbers of schools with the remarkable number of SMC meetings (See Annex: XXIX_B), but, due to the difficulties to collect the purpose of meetings and their effects in the internal teaching learning activities and external activities of the schools, this report does not have any information to track progress in this regard.

Table 2.31_A
Composition of SMC/PTA, Flash II, 2015-016

Composition of SMCs/PTAs	School with SMC	School with PTA
Number of community schools for the SMC and PTA formation questionnaire	29,014	29,014
% of Female members in	22.1	29.1
% of Dalit members in	11.7	14.3
% of Janajati members in	36.7	40.9
% of SMC and PTA formed by consensus	89.5	90.2
% of SMC and PTA formed by election	10.5	9.8

Figure 2.13
Composition of SMCs/PTAs by gender, Flash II 2015-016

Composition of SMCs/PTAs by Dalit and Janajati, Flash II 2015-016

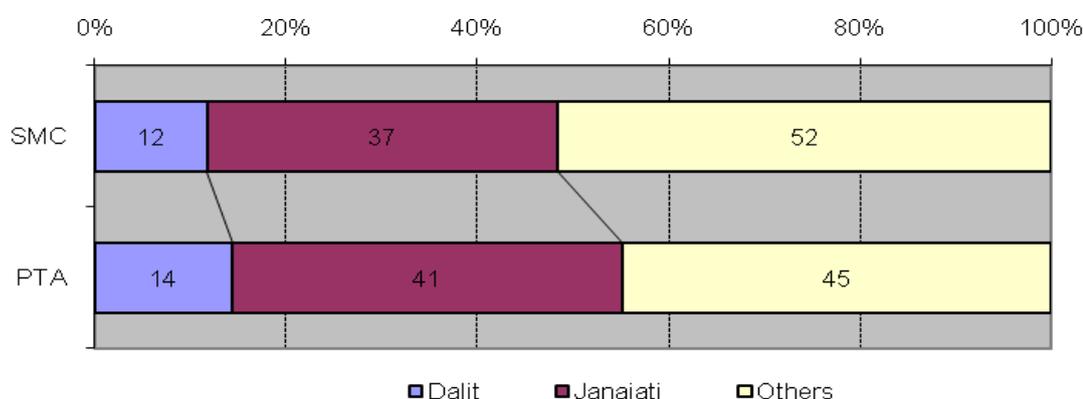

Table 2.31_B
Number of schools by the times of School Management Committee's (SMCs) meetings in all types of community Schools, Flash II, 2015-016

Eco-belts	Total responded number of schools	Number of Schools by the Times of SMC Meetings Held				
		Between 1 to 6 times	Between 7 to 12 times	Between 13-18 times	Over 18 times	Not held at all
Mountain	4,022	1,955	2,191	597	192	678
Hill	15,945	5,700	5,419	1,483	470	1,333
Kathmandu Valley	637	364	606	209	82	71
Terai	8,410	3,041	2,945	682	248	869
Total	29,014	11,060	11,161	2,971	992	2,951

Indicator 10: Number of school management transfer to community

This indicator assesses the progress with respect to the process of handing over the management of schools from the government to the local community. The Table 2.32 below

shows that there was no programme for this indicator in the FY 2072-073, so that there is no change in the status of following table. Altogether a total of 12,471 levels of schools management were transferred to their respective local community. Of the total 8,248 primary levels, 2,839 lower secondary levels and 1,384 secondary levels were transferred to the community.

Table 2.32

Number of community schools' level that transfer their management to community

Number of districts	Number of community schools' level transfer to the community
By the reference date of 5th. April 2014) in 75 districts)	12,471
Primary level	8,248
Lower secondary level	2,839
Secondary level	1,384

Source: DOE

Indicator 11: Number of maintenance scholarship received by students

The government has introduced scholarship and incentive schemes to encourage the regular attendance of students as well as to improve their retention, especially for girls, Dalits, disadvantaged groups and students with disabilities. It is worth mentioning that the scholarship schemes focus on different groups such as scholarships for all Dalit students, girls' scholarship for 100% of enrolled girls, scholarships for all students with disabilities and scholarships for students from specific targeted population groups.

a) Basic and Secondary level scholarships

Table 2.33 below shows the targets and number of scholarships distributed to students in community schools in the school year 2015-016 at basic and secondary levels by types of scholarships. The number of scholarships presented in the Table 2.33 is based on reporting in Flash II school census 2015-016 by the reference date of 5th.April 2016. This means the number of students, who received the scholarships after the Flash II 2015-016 school census, is not captured in this report.

Compared to the total targets of the scholarships at both levels in total 85.4% of students received the respective type of scholarship. Here, the reporting shows that compared to the targets by types of scholarships, 86.5%, 83.9%, 74.6%, 85.2%, 96.5%, 91.7%, 71.3% and 77.4% of students received the 100% girls (1-8) scholarship, Dalit (1-8) scholarship, Deprived groups (1-8) scholarship, Scholarship for students with disabilities (1-8) scholarship, Secondary Scholarship (9-10) scholarship, Dalit (9-10) scholarship, Disable (9-10) scholarship and Deprived groups (9-10) scholarship respectively.

In addition to the government scholarship programmes, INGOs, NGOs and communities are also providing a significant number of scholarships throughout the country. Based on the reported number of scholarships, a total of 62,854 students at the basic level and 16,659 students at secondary level received the scholarship in the school year 2015-016 from the INGO, NGO, CBO or other local community organisations. It shows that the contribution of

these organisations is very much encouraging. However, Flash II does not collect data on the specific type and amount of scholarship from those organisations.

Table 2.33
Basic and Secondary Community schools' students who received scholarships, Flash II 2015-016

Types of Scholarships	Targets	Number of students who received scholarship			% of students received scholarship
		Girls	Boys	Total	
100% girls (1-8)	2,072,231	1,792,722	0	1,792,722	86.5
Dalit (1-8)	1,111,727	415,944	516,483	932,427	83.9
Deprived groups (1-8)	127,960	49,964	45,537	95,501	74.6
Scholarship for students with disabilities (1-8)	46,476	19,574	20,021	39,595	85.2
Secondary Scholarship (9-10)	60,000	57,914	0	57,914	96.5
Dalit (9-10)	80,000	33,745	39,641	73,386	91.7
Disable (9-10)	7,184	2,329	2,793	5,122	71.3
Deprived groups (9-10)	15,409	5,753	6,175	11,928	77.4
Others (1-8)		33,719	29,135	62,854	
Others (9-10)		9,022	7,637	16,659	
Total Targets and Achievement only for targeted	3,520,987	2,377,945	630,650	3,008,595	85.4

Part III

1. Teachers' information

1.1 Distribution of teachers by types of schools and level

This section contains information related to the status of teachers by gender, Dalit and Janajati, training and types of schools.

The Table 3.1 below present the total number of teachers reported in the Flash II school census 2015-016 at primary, lower secondary and basic levels at the end of the school year 2015-016 in all types of schools (both in all types of community and institutional schools). Overall, there are 190,219 teachers at primary level; 53,302 teachers at lower secondary level and 39,691 teachers at secondary level. Of them, the numbers of female teachers are 80,378; 14,853 and 7,034 respectively at primary, lower secondary and secondary levels, which shows both the numbers of female and male teachers have increased compared to the previous school year. Likewise, the shares of female teachers are 42.2%, 28.0% and 17.7% at primary, lower secondary and secondary levels respectively (See Annex: XXX).

In addition, the Table 3.1 presents the total reported number of teachers in all types of institutional schools at primary, lower secondary and secondary levels in the school year 2015-016. Out of total number of teachers (Table 3.1) reported in Flash II school census 2015-016, the total number of teachers in the institutional schools are 48,246; 16,217 and 15,357 at primary, lower secondary and secondary levels respectively (See Annex: XXX).

Table 3.1
Distribution of teachers by types of schools and levels, 2015-016

School types	Levels								
	Primary			Lower secondary			Secondary		
	Female	Male	Total	Female	Male	Total	Female	Male	Total
Community schools	54,522	87,451	141,973	7,768	29,317	37,085	3,438	20,896	24,334
Institutional schools	25,856	22,390	48,246	7,085	9,132	16,217	3,596	11,761	15,357
Total	80,378	109,841	190,219	14,853	38,449	53,302	7,034	32,657	39,691

1.2 Number of teachers by Dalit and Janajati

Both Tables 3.2 and 3.3 below show the number and percentage shares of Dalit and Janajati teachers in total number of teachers by levels and gender. The proportion of Dalit and Janajati teachers remain low in teaching profession as compared to their overall proportion in the total population. The overall percentage shares of Dalit teachers at primary, lower secondary and secondary levels are 5.3%, 4.2% and 4.6% (Compared to the share of Dalit teachers 5.0%, 3.6% and 4.1% in the previous school year) respectively.

Table 3.2
Number of teachers by Dalit and Janajati by level, 2015-016

Levels	Teachers' categories								
	Total			Dalit			Janajati		
	Female	Male	Total	Female	Male	Total	Female	Male	Total
Primary	80,378	109,841	190,219	2,992	7,025	10,017	22,380	35,608	57,988
Lower secondary	14,853	38,449	53,302	490	1,757	2,249	2,939	7,765	10,694
Secondary (9-10)	7,034	32,657	39,691	375	1,432	1,807	1,200	6,142	7,342

Likewise, the overall percentage share of Janajati teachers (Table 3.3) at the primary level is 30.5% (30.0% in the previous school year), at the lower secondary level 20.1% (19.6% in the previous school year) and at the secondary level it is 18.5% (17.9% in the last school year) (See Annex: XXXI).

Table 3.3
Percentage of teachers by Dalit and Janajati by level, 2015-016

Levels	Teachers' categories					
	Dalit			Janajati		
	Female	Male	Total	Female	Male	Total
Primary	3.7	6.4	5.3	27.8	32.4	30.5
Lower secondary	3.3	4.6	4.2	19.8	20.2	20.1
Secondary (9-10)	5.3	4.4	4.6	17.1	18.8	18.5

1.3 Teacher Training

The analysis of this section presents the status of the teachers by their training status by level in community school. The information related to the teacher training is the quality aspect of the school education, which contributes to improve the classroom teaching learning activities and the learning efficiency of the students as well. Based on the definition of teacher training, the following analysis on the status of teachers by training is categorized into fully trained, partially trained and untrained respectively.

The Tables 3.4 and 3.5 below present the number and percentage of teachers in terms of training in community schools by level and gender. At the primary level in total 97.3% with 97.6% female and 97.0% male teachers are fully trained. Of the total teachers 1.9% teachers are partially trained and 0.8% teachers are untrained. At lower secondary level 88.6% of the teachers are trained, 4.1% are partially trained and 7.3% teachers are untrained. Similarly, at the secondary level (9-10), 95.3%, 3.4%, and 1.3% of the teachers are trained, partially trained and untrained respectively. Hence, on average more than 91% of the teachers in community schools, except at lower secondary level are trained in the school year 2015-016 (See Annex: XXXII).

Table 3.4
Number of community schools' teachers by training status

Training status	Primary			Lower secondary			Secondary		
	Female	Male	Total	Female	Male	Total	Female	Male	Total
Trained	53,234	84,859	138,093	6,872	25,998	32,870	3,240	19,961	23,201
Partially trained	867	1,820	2,687	287	1,234	1,521	153	675	828
Untrained	421	772	1,193	609	2,085	2,694	45	260	305
Total	54,522	87,451	141,973	7,768	29,317	37,085	3,438	20,896	24,334

Table 3.5
Percentage of community schools' teachers by training status, 2015-016

Training status	Primary			Lower secondary			Secondary		
	Female	Male	Total	Female	Male	Total	Female	Male	Total
Trained	97.6	97.0	97.3	88.5	88.7	88.6	94.2	95.5	95.3
Partially trained	1.6	2.1	1.9	3.7	4.2	4.1	4.5	3.2	3.4
Untrained	0.8	0.9	0.8	7.8	7.1	7.3	1.3	1.2	1.3

Flash II REPORT 2072 (2015-016)

**GOVERNMENT OF NEPAL
MINISTRY OF EDUCATION
DEPARTMENT OF EDUCATION**

Sanothimi, Bhaktapur
2016

Foreword

The Educational Management Information System (EMIS) in Nepal has been gradually evolving and demonstrably improving from the perspective of information collection, interpretation, presentation and application. Especially, EMIS has been used to derive the Flash Reports I and II.

This report (Flash Report II, 2072) compares the educational status of main categories of students (e.g. Total, Dalit, Janajati and students with disabilities) in relation to their student, retention and performance at individual grade between the Flash I (i.e. in the beginning of the school year) and the Flash II (i.e. at the end of the school year). It also assesses the participation of local people from different strata of society in SMCs and PTAs in school management and compares progress between targets and program implementation at macro level on the basis of school level data. This report presents the program indicators, including construction and other physical facilities, scholarship distribution, school grants, release of funds, school improvement plans (SIPs) and other performance related indicators.

Such measures give an indication of the effectiveness of the education system. EMIS helps to identify whether the education system is functioning well and indicates special areas where greater attention is needed. This kind of school level performance information has been instrumental in evidence based educational planning at district, regional and national levels.

In the process of preparation of this report many people and organizations have contributed in various ways. In general, this report is the result of collective and collaborative effort of EMIS core team of DOE, REDs, and DEOs officials. The constructive suggestions and feedback of the Development Partners have also significant role in this process. Therefore, I am grateful to all organizations and individuals who have contributed significantly to the overall process of this report and, thus, would like to extend gratitude for your contributions. Any suggestion and feedback for its improvement is highly appreciated.

Babu Ram Poudel
Director General
Department of Education

Table of Contents

Contents	Page No.
Foreword	
Table of Contents	i – ii
List of Tables, Figures and Maps	iii - iv
Acronyms	v
Part I	1-6
1 Introduction	1
2 The Flash II report	1
3 Methodology	1-2
4 Time line of Flash data collection	3
5 The Indicators covered in Flash Report II	3-4
6 Reliability of the data	4
7 Flash II Report 2072 Key findings	5-6
7.1 The Effects of the Earthquake based on the selected indicators in the school year 2015-016	6
Part II	7-37
1 Data analysis	7
2 Flash II indicators and analysis	7-37
2.1 Early Childhood Development and Pre-Primary Classes (ECD/PPCs)	7-10
2.1.a) Number of Early Childhood Development and Pre-primary Classes (ECD/PPCs)	7-8
2.1. b) Number of children enrolled in ECD/PPCs	9-10
2.2 School education	11-14
2.1.1 The reporting status and comparison of schools in FI 2015-016and FII 2015-016	11-14
2.3. Student	15-30
Indicator 1: Students currently in schools by grade and gender	15-25
a) Student at basic level by grade and gender	15-21
b) Student at secondary and higher secondary levels by grade and Gender	21-25
Indicator 2: Students appearing in final exams	25-28
Indicator 3: Student Attendance	29-30
2.4. School Management	31-37
Indicator 4: Number of schools which received the government fund within two months of each trimester	30-31

Indicator 5: Status of School Improvement Plan (SIP) and government grants	31
Indicator 6: Percentage of schools disclosing statement of accounts publicly	32
Indicator 9: Percentage of schools with completed social audit	32
Indicator 7: School operational calendar and average number of school opening days	32-33
Indicator 8: Participation of local people in school management	34-35
Indicator 10: Number of school management transfer to community	35-36
Indicator 11: Number of maintenance scholarship received by students	36-37
a) Basic and Secondary level scholarships	36-37
Part III	38-39
1. Teachers' information	38
1.1 Distribution of teachers by types of schools and level	38
1.2 Number of teachers by Dalit, Janajati and disabilities	38-39
1.3 Teacher Training	39
Annexes	

For more information on this Flash Report that is part of the Education Management Information System developed by DOE, please contact to the Research and Educational Management Information Section at Department of Education, Sanothimi, Bhaktapur.
